*Negotiating Non-Motherhood* Jenny Björklund, Dovilė Kuzminskaitė, Julie Rodgers, 2024-11-14 This open access edited volume focuses on the representations, perceptions and experiences of women who do not have children against the backdrop of traditional gender norms, pronatalist policies and patriarchal structures. While involuntary and voluntary childlessness have typically been treated separately and studied within different disciplines, in most previous scholarship contributing authors explore non motherhood beyond the involuntary/voluntary divide and consider a wide range of conceptualizations of women who do not become mothers. The editors bring together a variety of perspectives from different national contexts and disciplines including family studies, gender studies, literary and cultural studies, sociology and film studies to explore non motherhood. The book focuses on how women who choose or experience non motherhood are negotiated, felt, represented and received.

**The Encyclopedia of Best Films** Jay Robert Nash, 2019-10-23 This all inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations: for viewing, recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre, i.e. animated, drama, sports, mystery, adventure, etc. as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Transmedia Character Studies Tobias Kunz, Lukas R.A. Wilde, 2023-03-31 *Transmedia Character Studies* provides a range of methodological tools and foundational vocabulary for the analysis of characters across and between various forms of multimodal, interactive and even non narrative or non fictional media. This highly innovative work offers new perspectives on how to interrelate production discourses, media texts and reception discourses and how to select a suitable research corpus for the discussion of characters whose serial appearances stretch across years, decades or even centuries. Each chapter starts from a different notion of how fictional characters can be considered, tracing character theories and models to approach character representations from perspectives developed in various disciplines and fields. This book will enable graduate students and scholars of transmedia studies, film, television, comics studies, video game studies, popular culture studies, fandom studies, narratology and creative industries to conduct comprehensive media conscious analyses of characters across a variety of media.
