Lastly, our hand-picked Memorable Quotes distill pivotal lines and turning points, serving as touchstones for the collection's central themes.

American Horror Fiction and Class David Simmons, 2017-09-15 In this book, Simmons argues that class, as much as race and gender, played a significant role in the development of Gothic and Horror fiction in a national context. From the classic texts of Edgar Allan Poe and Nathaniel Hawthorne right through to contemporary examples such as the novels of Stephen King and Stephenie Meyer's Twilight Series, class remains an ever-present though understudied element. This study will appeal to scholars of American Studies, English literature, Media and Cultural Studies interested in class representations in the horror genre from the nineteenth century to the present day. **Will Starling** Ian Weir, 2015-02-03 The Reckoning of WM STARLING Esq. a Foundling concerning Monstrous Crimes and Infernal Aspirations with Perpetrators Named and

Hall,2017-02-22 Jane Austen s minor female characters expose the economic and social realities of British women in the long eighteenth century and reflect the conflict between intrinsic and expressed value within the evolving marketplace where fluctuations and fictions inherent in the economic and moral value structures are exposed Just as the newly minted paper money was struggling to express its value so do Austen s minor female characters struggle to assert their intrinsic value within a marketplace that expresses their worth as bearers of dowries Austen s minor female characters expose the plight of women who settle for transactional marriages become speculators and predators or become superfluous women who have left the marriage market and battle for personal significance and existence These characters illustrate the ambiguity of value within the marriage market economy exposing women s limited choices This book employs a socio
