Willem De Kooning The Artists Materials:

Willem de Kooning Susan Lake, 2010 This in depth study of the paintings of Willem de Kooning 1904 1997 from the 1940s through the 1970s breaks new ground in its analysis of the artist s working methods and yields new information about previously unreported materials De Kooning s idiosyncratic working methods have long engendered intense speculation and debate among conservators and art historians primarily on the basis of visual inspection and anecdotal accounts rather than rigorous technical analysis This is the first systematic study of de Kooning s creative process to use comprehensive scientific examinations of the artist s pigments binders and supports to inform art historical interpretations thereby presenting a key to the complicated evolution of the artist s work Written for conservation scientists conservators specialists in modern art history museum curators and practicing artists this book offers insights into the way an artist can achieve radical changes in style The technical discussions will have practical applications for conservators curators collections managers and collectors who care for twentieth century art

De Kooning John Elderfield, Willem De Kooning, Lauren Mahony, Jennifer Field, Delphine Huisinga, Susan Lake, 2011 This publication offers an unparalleled opportunity to appreciate the development of the artist s work as it unfolded over nearly seven decades beginning with his early academic works made in Holland before he moved to the United States in 1926 and concluding with his final sparely abstract paintings of the late 1980s

The Explicit Material Hanna B. Hölling, Francesca G. Bewer, Katharina Ammann, 2019-05-20 The Explicit Material gathers varied perspectives from the discourses of conservation curation and humanities disciplines to focus on aspects of heritage transmission and material transitions The authors observe and explicate the myriad transformations that works of different kinds manuscripts archaeological artefacts video art installations performances film and built heritage may undergo changing contexts changing matter changing interpretations and display Focusing on the vibrant materiality of artworks and artefacts The Explicit Material puts an emphasis on objects as complex constructs of material relations By so doing it announces a shift in sensibilities and understandings of the significance of objects and the materials they are made of and on the increasingly blurred boundaries between the practices of conservation and curation
