

BEFORE ASSEMBLY

This must be read before you start assembling this unit. Great care has been taken in design and how to assemble this unit. All bags of nuts and bolts have been printed with ease of assembly in mind. You must follow the assembly instructions exactly as outlined.

You will need at least **one person** to help you assemble this unit, two would be better. Assemble this unit starting at the beginning and work to the end. The assembly instructions are set out so that you are only doing one section at a time, therefore you will finish one section and move on to the next. **Do not** do what most people do, when all else fails they read the assembly instructions. If something is missing when assembling this unit, you must notify us of the part number of the exact nut, bolt or part that is missing and the colour of the model you purchased.

To help you assemble this unit we have used line drawings. Check the line drawings for the exact positioning of the parts.

This unit will need to be checked at least once a week for wearing wire ropes, nuts and bolts that can work loose, uphoisted pieces working loose and wear on pivot assemblies.

WARNING: WIRE ROPES DO WEAR OUT

The way to check the wire ropes is to run your fingers lightly along them and if you start to feel they are frayed, please contact us for replacements. This is for your own safety.
