Your Body, Your Health Lee Gale, 2015 If you were assigned female at birth AFAB and are moving or are interested in moving towards a male or more masculine identity or presentation this is the health guide for you Written and developed by trans men it explains the various aspects of transition healthcare in an easy to read non technical way to help you make decisions about your own wellbeing deal with the challenges you might meet when dealing with a health care system and wider society which can still tend to think in terms of two fixed genders It is also full of good solid information to help you stay physically and mentally sharp Back cover

Purple Passionflower Roddie Lee Kingsfield, M.Ed., 2018-10-22 *Purple Passionflower* By Roddie Lee Kingsfield Author Roddie Lee Kingsfield M Ed a trans woman has struggled with abuse harassment and discrimination for most of her life In her book *Purple Passionflower The Path to Becoming a Powerful Trans Peace Warrior* we see great examples of

transgender empowerment through the eyes of her own life The book covers a number of issues important to all trans people and the trans community We readers can understand that more and more the LGTBQ community and straight men and women the world over are rapidly expanding their respect and support for trans men women and children **A**

Psychoanalytic Exploration of Female to Male Transition Serena Heller,2024-12-27 Drawing on theory from a range of schools of psychoanalytic thought this timely book addresses and explores the phenomenon of the increasing number of people who were assigned female at birth and now identify as male and what might underly the cultural pull to remove femaleness from self and body In A Psychoanalytic Exploration of Female to Male Transition Serena Heller considers how early recognition of the difference between the sexes might evoke a melancholic attitude towards one s anatomy as being one sex and not the other She considers the ramifications of the developing sexual bodies of young women at a time when they are having great difficulty accepting them addressing the complexity of female sexual development in relation to sexual aim and object and how manifestations of early bisexuality can resurface during puberty Focusing solely on the experience of female to male transition rather than making broad assumptions of a universal trans experience Heller provides a depth of theoretical analysis of biological and psychic aspects of female sexuality and trans gender identifications Empathetic in its approach and thorough in its conceptualisation this volume is a vital resource for psychodynamic and psychoanalytic psychotherapists working directly with trans patients and with those experiencing gender dysphoria and issues of sexual identity The book assumes no prior expertise in analytic thought and is designed to help mental health practitioners students and researchers engaged in queer studies gender studies and the intersection of psychoanalytic thought and gender identity
