Regenerating the Library and Information Profession Jana Varlejs, Graham Walton, 2009-08-17 This volume comprises papers prepared for the 8th World Conference on Continuing Professional Development Bologna Italy 18 20 August 2009 Within the broad theme of creating a positive work environment for a multi generational workforce in library and information organizations the conference addresses managing between and across generations mentoring and coaching attracting people to the profession and developing a new generation of leaders re skilling and transferability of skills succession planning and

passing on knowledge **The Information and Knowledge Professional's Career Handbook** Ulla de Stricker, Jill Hurst-Wahl, 2011-01-27 The definitive guide to developing and managing a successful career in the information profession Information Professionals and Knowledge Managers deal with significant challenges in building successful careers for a number of reasons associated with common misperceptions of their expertise and roles In environments where they must often justify their work and value over and over again those already in the profession need a boost and those just entering need to be prepared for a reality that may differ quite a bit from their expectations The book is intended to give readers a set of tools and techniques with which to secure a strong career build an effective brand and succeed as professionals Click Here to view the official page for this title on Facebook Written by opinion leaders and highly respected authorities in the field Draws upon 50 plus years of experience in a variety of settings and roles Offers realistic and honest pointers no sugar coating **Beyond Mentoring** Dawn Lowe-Wincentsen, 2016-11-17 Beyond Mentoring A Guide for Librarians and Information Professionals looks at mentorship mentorship programs what works what doesn't and different techniques such as group and peer mentoring The book considers many aspects of mentoring various programs and their successes and failures going beyond the usual types of mentoring by looking at newer models An example of the cohort model from the American Library Association Emerging Leader model is included as a case study In addition another case study on the Sunshine State leadership Institute provides a toolkit for building your own program The final section of the book offers perspectives and tools that people can use in designing their own programs Provides case studies and perspectives from librarians who have been involved in mentoring programs Describes program types that go beyond traditional mentoring including peer to peer and cohort or group mentoring Gives practical advice to help readers apply best practices to their own situations Offers a hands on perspective of the program design process Trends, Discovery, and People in the Digital Age Wendy Evans, David Baker, 2013-02-26 Digital information is a constantly developing field The first title in the Chandos Digital Information Review series Trends Discovery and People in the Digital Age summarises and presents key themes advances and trends in all aspects of digital information today exploring the impact of developing technologies on the information world This book emphasises important contemporary topics and future developments from a global perspective Dynamic contents by leaders in the field respond to what is happening in the field of digital information literacy and anticipate future developments Topics include the future of digital information provision Enquire cloud computing building an information landscape e books and journals in a changing digital landscape discovering resources citizens and digital information data management community usage patterns of scientific information software citations the future of data curation JISC Skills Portal the future information professional university library and information services academic libraries and their future and impediments to new library futures Covers major aspects of contemporary digital information provision Provides practical advice Structured so that each chapter stands alone while contributing to a coherent overall text *Management of*

Information Organizations Waseem Afzal, 2012-06-18 This book is a significant step towards developing a body of management knowledge pertinent to the context of Library Information Science LIS and provides a succinct but deep account of management and information organizations Management of Information Organizations presents a broad view of the information organizations and the nature of management in these organizations and how information professionals are affected by such management systems The book equips the reader with the knowledge that will enable them to develop a strong intellectual foundation relating to management and its manifestation in an information organization and provides a significant step towards developing a body of management knowledge pertinent to the context of LIS Provides a foundation of the core concepts i e management information organizations information organizations and the role of information professionals in organizations Brings a multi disciplinary point of view to the reader concepts will be drawn from management organizational theory information science consumer behaviour and economics They will be used to present the whole thesis of the book A blend of both theoretical and practical perspectives will be showcased Reflecting on the Future of Academic and Public Libraries Peter Hernon, Joseph R. Matthews, 2013-01-08 Academic and public libraries are much different today than they were even 15 years ago With even bigger changes on the horizon what lies in store This volume offers ideas to academic and public librarians about the future of library services Editors Hernon and Matthews invite a raft of contributors to step back and envision the type of future library that will generate excitement and enthusiasm among users and stakeholders Anyone interested in the future of libraries especially library managers will be engaged and stimulated as the contributors Examine the current state of the library summarizing existing literature on the topic to sketch in historical background Project into the future using SWOT analysis environmental scans and other techniques to posit how library infrastructure such as staff collections technology and facilities can adapt in the decades ahead Construct potential scenarios that library leaders can use to forge paths for their own institutions The collection of knowledge and practical wisdom in this book will help academic and public libraries find ways to honor their missions while planning for the broader institutional changes already underway After the Book George Stachokas, 2014-09-04 Libraries and librarians have been defined by the book throughout modern history What happens when society increasingly lets print go in favour of storing retrieving and manipulating electronic information What happens after the book After the Book explores how the academic library of the 21st Century is first and foremost a provider of electronic information services Contemporary users expect today's library to provide information as quickly and efficiently as other online information resources The book argues that librarians need to change what they know how they work and how they are perceived in order to succeed according to the terms of this new paradigm This title is structured into eight chapters An introduction defines the challenge of electronic resources and makes the case for finding solutions and following chapters cover diversions and half measures and the problem for libraries in the 21st century Later chapters discuss solving problems through professional identity and

preparation before final chapters cover reorganizing libraries to serve users adapting to scarcity and the digital divide Describes how electronic resources constitute both a challenge and an opportunity for libraries Argues that librarians can re define themselves Puts the case that libraries can be reorganized to optimize electronic resource management and information services based on contemporary technology and user needs *Library Management Tips that Work* Carol Smallwood,2011-06-30 There s no shortage of library management books out there but how many of them actually tackle the little details of day to day management the hard to categorize things that slip through the cracks of a larger handbook *Library Management Tips that Work* does exactly that addressing dozens of such issues facing library managers including How to create a job manual and keep staff accountable Keeping your library board in the loop Using numbers to make your case Dealing with unreturned library materials Methods for managing multiple libraries with one FTE librarian Retaining services despite budget cuts and staff shortages Public relations on a shoestringWritten by contributors from across the field this eclectic guide offers best practices suitable for managers in all types of libraries **Taking Charge of Your Career** Joanna Ptolomey,2009-06-15 This book is about rethinking your career in a refreshing and systematic way to take into account your professional and personal goals The book provides students and information and library professionals at all levels with tools and practical steps to making changes in their career At the heart of the book is a methodology called personal strategic planning which allows the reader to work out a baseline for what is important to them in a career and provide techniques and tools for moving forwards Written in accessible style from an experienced practitioner s point of view Draws on the author s experience of moving between different LIS sectors having worked in the private and public sector Draws on the author s experience of successfully moving and adapting skills from a career in another industry sector

Information Needs Analysis Daniel G. Dorner,G. E. Gorman,Philip J. Calvert,2014-12-31 If you want to provide an information service that truly fulfils your users needs this book is essential reading Analysing and assessing the information needs of clients is key to the provision of effective service and appropriate collections in both face to face and virtual library services The importance of information needs analysis is widely recognized by information professionals but currently there is little substantive detailed work in the professional literature devoted to this important topic This new book is designed to fill that gap by supporting practitioners in developing an information needs analysis strategy and offering the necessary professional skills and techniques to do so It will offer guidance to team leaders and senior managers in all areas of library work especially those involved in collection management service provision and web development and is equally applicable to the needs of academic public government commercial and other more specialized library and information services The text adopts a hands on jargon free approach and includes relevant examples case studies reader activities and sources of further reading Key areas covered include what is information needs analysis how is needs analysis conducted what are the varieties of needs analysis how are analyses evaluated and reported Readership The book will be essential reading for library and

information practitioners team leaders and senior managers It will also be a core text on course reading lists in departments of library and information studies Ace the Interview, Land a Librarian Job Robin O'Hanlon, 2016-01-11 One of the most critical elements of achieving a successful career interviewing with poise and tenacity is a skill to be learned and this practical guide leads readers through that process step by step In a competitive job market all candidates need to prepare to succeed This certainly applies to job seekers looking for professional librarian positions in public academic and or special libraries especially recent MLIS graduates and mid career job changers Designed for today s competitive job market this practical guidebook provides job applicants with practical tips and effective strategies for successful interview preparation and execution specific to seeking librarian positions Unlike generic how to interview guides this book recognizes that there is no one size fits all interviewing method and teaches the techniques for excelling at the unique aspects of interviews for specific librarian positions such as reference librarian electronic resources librarian outreach librarian youth services librarian and adult programming librarian The book opens with an overview of what is expected during today s librarian interview followed by descriptions by four experienced library directors of what makes an interview truly great This guidebook includes 100 actual library interview questions to help readers best prepare for the specific position they seek and also contains a chapter that identifies mistakes all rookie librarians should avoid making Expanding the Circle John C. Hawley, 2015-01-08 Examines strategies and best practices that effectively integrate LGBTQ areas of teaching and research with student life activities Many educational professionals agree that the time has come to expand their circle of inclusion and broaden their definition of diversity by increasing LGBTQ studies but the question of how to do so is still debated Although some colleges and universities have been incorporating LGBTQ studies for decades courses and programs continue to be pockets of innovation rather than models of inclusion for all of higher education Colleges and universities need to encourage faculty members to teach and research a wide range of LGBTQ topics as well as support student life professionals in building inclusive campus communities This book includes testimonies that alert educators to possible pitfalls and successes of their policies through an analysis of changing student attitudes Based on these case studies the contributors offer practical suggestions for the classroom and the provost s office demonstrating not only the gains that have been made by LGBTQ students and the institutions that serve them but also the tensions that remain Expanding the Circle is a comprehensive overview of issues facing LGBTQ students in higher education in the US and those seeking to queer the academy through incorporating LGBTQ content into curricula It highlights problems we might not have imagined a closeted gay man being harassed by those who are more out and describes issues we would have hoped were history faculty and staff telling students not to list a certificate in LGBTQ studies on a resume This book presents proven strategies to create affirming institutions of higher learning in which students and faculty can be their full selves and study the contributions of LGBTQ people to the human experience Sean Cahill coauthor of LGBT Youth in America s Schools **Library Technology**

and User Services Anthony S. Chow, Tim Bucknall, 2011-11-09 Written as a technology guide for students practitioners and administrators the focus of this book is on introducing current and future trends in library technology and automation within the larger context of strategic and systems planning implementation and continuous improvement Technology is an essential resource for attaining both organizational and patron goals and planning needs to emphasize the alignment between the clearly defined goals of each For this alignment to occur on a consistent basis goals must be designed or engineered in a systematic fashion where technology fulfils the need to deliver the desired outcomes in an efficient cost effective manner The concept of usability engineering is also examined where the technology is planned designed and implemented in such a way as to maximize utility and ease of use for users and employees Readers of this book will understand both the why and the how of library technology planning and implementation articulated in a simple easy to understand fashion Delivered from academic public and school library media perspectives Current and emerging technologies are discussed along with their current and future application in the field of library and information science Technology planning and integration is explained using a systems design process with scenarios and case studies that are articulated in a step wise holistic fashion

Libraries in the Twenty-First Century Stuart J. Ferguson, 2007-05-31 Libraries in the Twenty First Century brings together library educators and practitioners to provide a scholarly yet accessible overview of library and information management and the challenges that the twenty first century offers the information profession The papers in this collection illustrate the changing nature of the library as it evolves into its twenty first century manifestation The national libraries of Australia and New Zealand for instance have harnessed information and communication technologies to create institutions that are far more national even democratic in terms of delivery of service and sheer presence than their print based predecessors Aimed at practitioners and students alike this publication covers specific types of library and information agencies discusses specific aspects of library and information management and places developments in library and information services in a number of broad contexts socio economic ethico legal historical and educational

The Marketing of Academic, National and Public Libraries Worldwide David Baker, Patrick Lo, 2024-01-30 The Marketing of Academic National and Public Libraries Worldwide Marketing Branding Community Engagement enables readers to learn about the most up to date trends as well as hands on practices and marketing tactics taken directly from 48 highly seasoned marketing and community engagement librarians around the world namely in Africa Australia Canada Croatia Germany Hong Kong Latvia and Qatar Via a series of in depth and semi structured interviews this book provides insights into successful marketing strategies librarians can use to encourage donors and patrons to understand that their libraries are a great choice for fulfilling information needs recreational interests intellectual pursuits and more Written with a strong belief that library marketing and branding play a vital part in keeping existing library end users and potential users informed and educated Presents the very first book of its kind to examine various factors affecting successful marketing campaigns and long term

brand building for libraries through a systematic review of case studies around the world Serves as a primary guide for library professionals to build their own brands via effective marketing campaigns as well as long lasting relationships with their communities *Foundations of Library Services and Programming for Children* Lisa Houde, 2024-08-06 Foundations of Library Services and Programming for Children This book provides required foundational practices both theoretical and practical It gives students and working librarians the nuts and bolts foundation in providing programming and services for children The book covers critical important elements needed for today s librarian thereby benefitting even the seasoned youth librarian Chapter coverage includes The Value of Library Services to Children Program Evaluation Planning for Desired Results Children s Programming Services and Resources for Children The Library as a Safe Space for All Administration of Children s Services Looking Ahead What s Next in Library Services for Children An Appendix provides practical resources such as a storytime format programming planning outline and program assessment tools Special topics include issues of censorship attempts the importance of providing library services to a diverse population and the need to examine evaluative techniques for program offerings Each chapter in this text includes multiple opportunities for learning and reflection as well as case based learning that facilitates problem solving and experiential learning opportunities **Exploring Education for Digital Librarians** Sue Myburgh, Anna Maria Tammaro, 2013-04-17 Exploring Education for Digital Librarians provides a refreshing perspective on the discipline and profession of Library and Information Science LIS with a focus on preparing students for careers as librarians who can deal with present and future digital information environments A re examination of the knowledge base of the field combined with a proposed theoretical structure for LIS provide the basis for this work which also examines competencies for practice as well as some of the international changes in the nature of higher education The authors finally suggest a model that could be used internationally to educate librarians for their new roles and social responsibilities in a digitised networked world The twelve chapters of this book cover key issues in education for digital librarians including the necessity of regenerating the profession current contexts previous research on education for digital librarians understanding the dimensions of the discipline and profession of librarianship and the distinctions between them the social purpose of librarianship as a profession and the theoretical framework which supports the practice of the profession a brief analysis of curriculum design pedagogies and teaching methods and a glimpse of the proactive and important future role of librarianship in society Considers the ubiquitous misunderstanding that technology can replace libraries and librarians Provides a theoretical view of the field which can contribute awareness of dimensions of the dilemmas which the discipline profession currently faces Presents a broad international perspective which provides a basis for a new model for LIS education
