throughout the centuries Gloves in fashion were an exclusive enterprise a pursuit of the wealthy Therefore the use of materials the length and fabrication evolved from made at home into real industry Eventually an array of hand wear of different styles and colors became available for masses In the intervening time Europe countries were the ones that planted the seeds that would define fashion culture chic and elegance for decades to come Today whatever its seasonal vagaries gloves and mittens as fashion accessories have been a reflection of society as an industry often stirring provocative debate Is it art or craft Who would wear elbow long opera gloves Is couture dead Is department store obsolete The answers are in the gloves themselves in their history and present
