**Falco** Daryl Periman, 2012-01-30 We humans fantasize about the ability to break the laws of physics yet there are creatures in the real world that appear to do just that The peregrine falcon is one such creature displaying power dives that seem to defy Newtons laws of motion The story of FALCO is like light Light sometimes behaves like a wave and sometimes behaves like a particle but is neither FALCO is sometimes a story about a falcon but its also a story about people the environment our fears and about how good and evil are sometimes not clearly defined What if you could get inside the mind of a young peregrine one that like most teenagers stands at the brink of self identity An animal loaded with killer instinct but yet insecure due to the fact that she did not grow up in the wild When faced with the freedom she inwardly longed for she finds the wilderness charm to be packaged with complexity terror and friendship Blurr is the falcon that will face the ultimate hunter of another world and may be the only one to save our own FALCO reads as if it were a movie I think that my science background my years of working with teens and skillful science fiction stories like X Files Jurassic Park and Independence Day influenced me greatly for this book Im sure those stories and more helped boost my hybridization of this adventure with its host of flawed but mostly well intentioned characters Be on the look out for FALCO II coming in the fall of 2015
