Voices in Democracy J. Craig Harding, 2008 A Question of Voice Ron Scapp, 2020-12-07 A Question of Voice Philosophy and the Search for Legitimacy offers an explicit and comprehensive consideration of voice as a complex of rethinking aspects of the history of philosophy through issues of power as well as contemporary issues that include and involve the desire for and the dynamics of legitimacy for individuals and communities By identifying voice as a significant theme and means by which and through which we might better engage some important philosophical questions Ron Scapp hopes to expand traditional philosophical discussion and discourse regarding questions about validity legitimacy empathy and solidarity He offers an innovative perspective that is informed and guided by multiculturalism ethnic studies queer studies feminism and thinkers and critics such as bell hooks Barbara Christian Angela Davis Jacques Derrida Michel Foucault among others A Question of Voice is an American investigation but also suggests questions that emanate from contemporary continental thought as well as issues that arise from transnational perspectives an approach that is motivated by doing philosophy in an age of multiculturalism **The Bully Pulpit, Presidential Speeches, and the Shaping of Public Policy** , Jeffrey S. Ashley, Marla J. Jarmer, 2015-11-11 Issue framing is the way that people especially politicians get other people to view a particular problem or issue By framing the issue in a particular way the goal is to get people to think about the issue to believe that an action is required and most importantly to believe that a particular action the one being proposed by the framer is the right one The use of language and imagery is an essential part of issue framing and has been an integral part of the presidency since our nation's founding but it has become particularly important since Theodore Roosevelt began to take his message directly to the people This work examines a selected speech delivered by every president from Roosevelt through Barack Obama to show how language has been instrumental in directing policy Each chapter will examine the situation or background for the problem include a transcript of the speech the president delivered and conclude with an analysis of the speech in terms of the particular frame that the speech utilized and the eventual outcome or policy direction inspired by the speech *Colonial Voices* Joy Damousi, 2010-06-17 Innovative study of the role of language in the civilising project of the British Empire in colonial Australia The Political Voices of Generation Z Laurie Rice, Kenneth Moffett, 2021-09-27 This book explores political expression of members of Generation Z old enough to vote in 2018 and 2020 on issues and movements including MeToo Supreme Court nominations March for Our Lives immigration and family separation and Black Lives Matter Since generational dividing lines blur we study 18 to 25 year olds capturing the oldest members of Generation Z along with the youngest Millennials They share similarities both in their place in the life cycle and experiences of potentially defining events Through examining some movements led by young adults and others led by older generations as well as issues with varying salience core theories are tested in multiple contexts showing that when young adults protest or post about movements they align with they become mobilized to participate in other ways too including

contacting elected officials which heightens the likelihood of their voices being heard in the halls of power Perfect for students and courses in a variety of departments at all levels the book is also aimed at readers curious about contemporary events and emerging political actors *The SAGE Handbook of Gender and Education* Christine Skelton,Becky Francis,Lisa Smulyan,2006-10-23 The Handbook of Gender and Education brings together leading scholars on gender and education to provide an up to date and broad ranging guide to the field It is a comprehensive overview of different theoretical positions on equity issues in schools The contributions cover all sectors of education from early years to higher education curriculum subjects methodological and theoretical perspectives and gender identities in education Each chapter reviews synthesises and provides a critical interrogation of key contemporary themes in education This approach ensures that the book will be an indispensable source of reference for a wide range of readers students academics and practitioners The first section of the Handbook Gender Theory and Methodology outlines the various feminist perspectives on researching and exploring gender and education The section critiques the notion of gender as a category in educational research and considers recent trends evident especially in the gender and underachievement debates to locate gender difference solely within biology This section provides the broad background upon which the issues and debates in the other sections can be situated Section two Gender and Education considers the differing ways in which gender has been shown to impact upon the opportunities and experiences of pupils students teachers and other adults in the different sectors of education It also includes a chapter on single sex schooling Section three Gender and School Subjects comprises chapters that cover gender issues within the teaching and learning of particular school subjects for example maths literacy and science It also includes topics such as sex education and assessment The chapters in section four Gender identity and educational sites address up to date issues which have a long history in terms of explorations into gender and educational opportunities More recent inclusions in the debates such as disability sexuality and masculinities are discussed alongside the more traditional concerns of race social class and femininities The final section Working in Schools and Colleges illuminates the working lives of teachers and academics The chapters cover such topics as school culture career progression and development and the gendered identities of professionals within educational institutions The contributors to this book have been selected by the editors as authorities in their specific area of gender and education and are drawn from the international scholarly community
