Vier Wintervertellingen:

Vier wintervertellingen Gerard Kornelis van het Reve, 1963 **Vier wintervertellingen** Gerard Kornelis van het Reve, 1990 In vier navrantе verhalen wordt beklemmend en meedogenloos scherp de eenzaamheid en uitzichtloosheid van underdogs getekend **Literary Performances of Post-Religious Memory in the Netherlands** Jesseka M. Batteau, 2021-10-11 This book offers an in depth study of iconic literary narratives and images of religious transformation and secularisation in the Netherlands during the 1960s and 1970s Jesseka Batteau shows how Gerard Reve Jan Wolkers and Maarten t Hart texts and performances can be understood as instances of religious and post religious memory with a broad public impact They contributed to a widely shared perspective on the Dutch religious past and a collective understanding of what secularisation consists of This uniquely interdisciplinary approach combines insights from literary studies memory studies media studies and religious studies and traces the complex dynamics of the circulation of memory and meaning between literary texts mass media and embodied performances within a post religious society Literature of the Low Countries Reinder Meijer, 2012-12-06 In any definition of terms Dutch literature must be taken to mean all literature written in Dutch thus excluding literature in Frisian even though Friesland is part of the Kingdom of the Netherlands in the same way as literature in Welsh would be excluded from a history of English literature Simi larly literature in Afrikaans South African Dutch falls outside the scope of this book as Afrikaans from the moment of its birth out of seventeenth century Dutch grew up independently and must be regarded as a language in its own right Dutch literature then is the literature written in Dutch as spoken in the Kingdom of the Netherlands and the so called Flemish part of the Kingdom of Belgium that is the area north of the linguistic frontier which runs east west through Belgium passing slightly south of Brussels For the modern period this definition is clear enough but for former times it needs some explanation What do we mean for example when we use the term Dutch for the medieval period In the Middle Ages there was no standard Dutch language and when the term Dutch is used in a medieval context it is a kind of collective word indicating a number of different but closely related Frankish dialects The most important of those were the dialects of the duchies of Limburg and Brabant and of the counties of Flanders and Holland The Berkeley Conference on Dutch Literature 1987 Johan P. Snapper, Thomas Frederic Shannon, 1989 This volume marks the second issue of the Publications of the American Association for Netherlandic Studies PAANS published under the auspices of the American Association of Netherlandic Studies Like its predecessor Dutch Linguistics at Berkeley 1985 this issue represents a biennial production of the best scholarly papers on Dutch literature presented at the Berkeley conferences The essays in this volume investigate the historical and cultural phenomenon of the Low Countries i e the Netherlands and the parts of Belgium whose principal language is Dutch They represent the contributions of both seasoned and new scholars and reflect the range of literary criticism both modern and postmodern approaches prevalent today as well as challenging re evaluations of Dutch Literary History Co published with the American

Association for Netherlandic Studies **Contemporary World Writers** Tracy Chevalier, 1993 Concise discussions of the lives and principal works of important living writers of fiction drama and poetry who write in languages other than English Written by subject experts **The National Union Catalogs, 1963-** ,1964 **De zelfdenker** Willem Melching, 2023-04-19

Frans Kellendonk laat in al deze verhalen zien over een fabelachtige techniek te beschikken. NRC Handelsblad: Kellendonk is een meester in het vinden van geconcentreerde beelden die in weinig woorden veel vertellen. Het Parool: stuk voor stuk staaltjes van pregnante schrijfkunst. Een stijl die niet alleen sierlijk is maar ook aangenaam gedistantieerd, bondig en ironisch waar dat nodig is. Trouw
