Views of Jerusalem and the Holy Land Steven Brooke, 2002 This is the paperback edition of the highly acclaimed Views of Jerusalem now published for the first time in full color Following the same format as the popular Views of Rome this book is both an historical document as well as a collection of breathtaking photographs The prominent holy sites of the Jewish Islamic and Christian worlds are represented including the Wailing Wall the Damascus Gate the Ecce Homo Arch on the Via Dolorosa the Dome of the Rock the Church of St John the Baptist in Samaria the tomb of the Virgin Mary and the room of the Last Supper and more The current media focus on the region makes this area more important than ever As history continues to be made in Jerusalem more and more people seek knowledge of the Middle East The book's manageable paperback format makes it a very appealing gift book for the traveler to the region for students and for those with a general interest in the history and sights of Jerusalem and the Holy Land *Revealing the Holy Land* Kathleen Stewart Howe, Santa Barbara Museum of Art, St. Louis Art Museum, 1997 This is the catalog for an exhibition of ninety nineteenth century photographs drawn primarily from the world class collection of Michael G Wilson Included are the starkly beautiful photographs of Sergeant James McDonald's surveys of Palestine and Jerusalem recently discovered photographs by Ernest Benecke and the rare photographs by Maxime Du Camp taken in 1850 as he traveled with Flaubert With the invention of photography and the increasing popularity of travel in the mid nineteenth century the Holy Land became one of the most photographed places on earth Interest in Jerusalem and Palestine was particularly pronounced in England partly because of England's need to control its routes to the riches of India but also because of Britain's cultural identification with the people and lands of the Bible Imperial ambition and deeply ingrained cultural associations resulted in a surge of photographic activity in Palestine McDonald's photographs from surveys of Jerusalem and the Sinai epitomize the dual imperatives of Bible and Empire Photography provided a new standard for authenticity in pictorial representations Early photographs were considered the ultimate bearers of reality at a time when viewers had not yet lost their naive faith in the objective accuracy of photography Throughout the last half of the nineteenth century the Holy Land drew legions of photographers amateurs recording a stop on the Grand Tour academics pursuing archaeological theories military surveyors all trying to capture the truthfulness of a land that had enormous spiritual emotional and political connotations for most of the Western world What they saw and how they saw it are the themes of this beautifully recorded collection **Views and Visions of the Holy Land** Jerusalem.
