Vigilance My Life Serving America And Protecting Its Empire City:

Vigilance Ray Kelly, 2025-05-01 Two time New York City police commissioner Ray Kelly opens up about his remarkable life taking us inside fifty years of law enforcement leadership offering chilling stories of terrorist plots after 9 11 and sharing his candid insights into the challenges and controversies cops face today The son of a milkman and a Macy's dressing room checker Ray Kelly grew up on New York City's Upper West Side a middle class neighborhood where Irish and Puerto Rican kids played stickball and tussled in the streets He entered the police academy and served as a marine in Vietnam living and fighting by the values that would carry him through a half century of leadership justice decisiveness integrity courage and loyalty Kelly soared through the NYPD ranks in decades marked by poverty drugs civil unrest and a murder rate that at its peak spiked to over two thousand per year Kelly came to be known as a tough leader a fixer who could go into a troubled precinct and clean it up That reputation catapulted him into his first stint as commissioner under Mayor David Dinkins where Kelly oversaw the police response to the 1993 World Trade Center bombing and spearheaded programs that would help usher in the city's historic drop in crime Eight years later in the chaotic wake of the 9 11 attacks newly elected mayor Michael Bloomberg tapped Kelly to be NYC's top cop once again After a decade working with Interpol serving as undersecretary of the Treasury for enforcement overseeing U S Customs and commanding an international police force in Haiti Kelly understood that New York's security was synonymous with our national security Believing that the city could not afford to rely solely on the feds he succeeded in transforming the NYPD from a traditional police department into a resource rich counterterrorism and intelligence force In this vital memoir Kelly reveals the inside stories of his life in the hot seat of the capital of the world from the terror plots that nearly brought a city to its knees to his dealings with politicians including Presidents Bill Clinton George W Bush and Barack Obama as well as Mayors Rudolph Giuliani Bloomberg and Bill DeBlasio He addresses criticisms and controversies like the so called stop question and frisk program and the rebuilding of the World Trade Center and offers his insights into the challenges that have recently consumed our nation's police forces even as the need for vigilance remains as acute as ever To Protect and Serve Norm Stamper, 2016-06-07 Stamper offers new insights

into the conditions that have created the problems in American policing reminding us that police in a democratic society belong to the people and not the other way around and delivering a revolutionary new model for American law enforcement the community based police department **New York, New York, New York** Thomas Dyja, 2022-03-15 A lively immersive history by an award winning urbanist of New York City's transformation and the lessons it offers for the city's future

Emerald City Joseph Grosso, 2020-11-27 Fresh lively accessible Grosso brings the issues of gentrification deindustrialization homelessness and militarized policing so easily ignored to the fore Joseph Grosso traces the history of New York's transformation back into a gilded city and asks what can be done about it He examines New York's deindustrialization and the elite planning and design that followed New York's financial crisis of the mid 1970s and the policy

decisions made in its wake New York's housing crisis and the history of public housing across the United States Making the history of gentrification and deindustrialization widely available and understood is a crucial tool in combating housing crises which continue to spread in cities around the world as more and more houses are left empty to be used for global investments instead of for living United States of Jihad Peter Bergen, 2017-02-07 A riveting panoramic look at homegrown Islamist terrorism from 9/11 to the present Since 9/11 more than three hundred Americans born and raised in Minnesota Alabama New Jersey and elsewhere have been indicted or convicted of terrorism charges Some have taken the fight abroad an American was among those who planned the attacks in Mumbai and more than eighty U.S. citizens have been charged with ISIS related crimes Others have acted on American soil as with the attacks at Fort Hood the Boston Marathon and in San Bernardino What motivates them how are they trained and what do we sacrifice in our efforts to track them Paced like a detective story United States of Jihad tells the entwined stories of the key actors on the American front Among the perpetrators are Anwar al Awlaki the New Mexico born radical cleric who became the first American citizen killed by a CIA drone and who mentored the Charlie Hebdo shooters Samir Khan whose Inspire webzine has rallied terrorists around the world including the Tsarnaev brothers and Omar Hammami an Alabama native and hip hop fan who became a fixture in al Shabaab's propaganda videos until fatally displeasing his superiors Drawing on his extensive network of intelligence contacts from the National Counterterrorism Center and the FBI to the NYPD Peter Bergen also offers an inside look at the controversial tactics of the agencies tracking potential terrorists from infiltrating mosques to massive surveillance at the bias experienced by innocent observant Muslims at the hands of law enforcement at the critics and defenders of U.S. policies on terrorism and at how social media has revolutionized terrorism Lucid and rigorously researched United States of Jihad is an essential new analysis of the Americans who have embraced militant Islam both here and abroad Washington Post Notable Non Fiction Books in 2016 **Bloomberg** Chris McNickle, 2017-09-19 Examine the Bipartisan Legacy of a Remarkable Billionaire Politician Bloomberg A Billionaire's Ambition tells the story of how one of America's most successful entrepreneurs was elected mayor of New York City and what he did with the power he won Bloomberg's stunning victory against all odds just weeks after the 9/11 terrorist attack left him facing challenges unlike any mayor in history For the next twelve years he kept the city safe managed budgets through fiscal crises promoted private sector growth generated jobs built infrastructure protected the environment supported society's cultural sensibilities and achieved dramatic improvements in public health Bloomberg was an activist executive who used government assets boldly and wisely for the greatest good for the greatest number of people His time as mayor was not without controversy Bloomberg supported stop and frisk police tactics that a judge ruled unconstitutional and jailhouse violence rose to levels so severe the federal government intervened The administration's homeless policies were ineffective And he forced a change in the city charter to allow him to serve a third term Overall record low crime and the lasting impact of innovative policies will cause his tenure to be remembered as a

remarkable success Having returned to his global media empire and to his private philanthropy Bloomberg continues to challenge the National Rifle Association on gun control promote national education reform and support policies to combat climate change Frequently touted as an independent candidate for president Bloomberg leaves behind a legacy of effective government

No Place on the Corner Jan Haldipur, 2018-11-27 Winner 2019 Goddard Riverside Stephan Russo Book Prize for Social Justice given by the Goddard Riverside Community Center The impact of stop and frisk policing on a South Bronx community What s it like to be stopped and frisked by the police while walking home from the supermarket with your young children How does it feel to receive a phone call from your fourteen year old son who is in the back of a squad car because he laughed at a police officer How does a young person of color cope with being frisked several times a week since the age of 15 These are just some of the stories in No Place on the Corner which draws on three years of intensive ethnographic fieldwork in the South Bronx before and after the landmark 2013 Floyd v City of New York decision that ruled that the NYPD s controversial stop and frisk policing methods were a violation of rights Through riveting interviews and with a humane eye Jan Haldipur shows how a community endured this aggressive policing regime Though the police mostly targeted younger men of color Haldipur focuses on how everyone in the neighborhood mothers fathers grandparents brothers and sisters even the district attorney s office was affected by this intense policing regime and thus shows how this South Bronx community as a whole experienced this collective form of punishment One of Haldipur s key insights is to demonstrate how police patrols effectively cleared the streets of residents and made public spaces feel off limits or inaccessible to the people who lived there In this way community members lost the very street corner culture that has been a hallmark of urban spaces This profound social consequence of aggressive policing effectively keeps neighbors out of one another s lives and deeply hurts a community s sense of cohesion No Place on the Corner makes it hard to ignore the widespread consequences of aggressive policing tactics in major cities across the United States

colleges and professional training programs *The Many Lives of Michael Bloomberg* Eleanor Randolph, 2021-03-16 This authoritative and anecdote filled biography of Michael Bloomberg 2020 presidential candidate and one of the richest and famously private public figures in the country is a masterful work and an absolutely first rate study of leadership in business politics and philanthropy Doris Kearns Goodwin Pulitzer Prize winning author from a veteran New York Times reporter Michael Bloomberg's life sounds like an exaggerated version of The American Story except his adventures are real From modest Jewish middle class and Eagle Scout to Harvard MBA to Salomon Brothers hot shot where he gets sent upstairs and later fired to creator of the Bloomberg terminal a machine that would change Wall Street and the financial universe and make him a billionaire to presidential candidate in 2020 Randolph's account of Bloomberg's life reads almost like a novel A vivid timely study of Bloomberg's brand of plutocracy Publishers Weekly this engaging and insightful biography recounts Mayor Bloomberg's vigorous approach to New York City's care including his attempts at education reform anti smoking and anti obesity campaigns climate control and new developments across the city After he engineered a surprising third term as Mayor Bloomberg returned to his business and philanthropies that focused increasingly on cities The chapter that describes this is one of the most revealing of his temperament and energy and vision as well as how he spends his private time that was virtually off limits even when he was mayor Bloomberg promised to give away his money before he died and his giving has focused on education gun control and a fighting climate change He joined the 2020 presidential campaign as a moderate liberal and spent his millions focused on ousting President Donald Trump **Power at Ground Zero** Lynne B.

Sagalyn, 2016-08-05 The destruction of the World Trade Center complex on 9 11 set in motion a chain of events that fundamentally transformed both the United States and the wider world War has raged in the Middle East for a decade and a half and Americans have become accustomed to surveillance enhanced security and periodic terrorist attacks But the symbolic locus of the post 9 11 world has always been Ground Zero the sixteen acres in Manhattan's financial district where the twin towers collapsed While idealism dominated in the initial rebuilding phase interest group trench warfare soon ensued Myriad battles involving all of the interests with a stake in that space real estate interests victims families politicians the Port Authority of New York and New Jersey the federal government community groups architectural firms and a panoply of ambitious entrepreneurs grasping for pieces of the pie raged for over a decade and nearly fifteen years later there are still loose ends that need resolution In *Power at Ground Zero* Lynne Sagalyn offers the definitive account of one of the greatest reconstruction projects in modern world history Sagalyn is America's most eminent scholar of major urban reconstruction projects and this is the culmination of over a decade of research Both epic in scope and granular in detail this is at base a classic New York story Sagalyn has an extraordinary command over all of the actors and moving parts involved in the drama the long parade of New York and New Jersey governors involved in the project Mayor Michael Bloomberg various Port Authority leaders the ubiquitous real estate magnate Larry Silverstein and architectural superstars like Santiago Calatrava

and Daniel Libeskind As she shows political competition at the local state regional and federal level along with vast sums of money drove every aspect of the planning process But the reconstruction project was always about more than complex real estate deals and jockeying among local politicians The symbolism of the reconstruction extended far beyond New York and was freighted with the twin tasks of symbolizing American resilience and projecting American power As a result every aspect was contested As Sagalyn points out while modern city building is often dismissed as cold hearted and detached from meaning the opposite was true at Ground Zero Virtually every action was infused with symbolic significance and needed to be debated The emotional dimension of 9 11 made this large scale rebuilding effort unique it supercharged the complexity of the rebuilding process with both sanctity and a truly unique politics Covering all of this and more Power at Ground Zero is sure to stand as the most important book ever written on the aftermath of arguably the most significant isolated event in the post Cold War era
