Voting About God In Early Church Councils:

Voting about God in Early Church Councils Ramsay MacMullen, 2008-10-01 In this study Ramsay MacMullen steps aside from the well worn path that previous scholars have trod to explore exactly how early Christian doctrines became official Drawing on extensive verbatim stenographic records he analyzes the ecumenical councils from A D 325 to 553 in which participants gave authority to doctrinal choices by majority vote The author investigates the sometimes astonishing bloodshed and violence that marked the background to church council proceedings and from there goes on to describe the planning and staging of councils the emperors role the routines of debate the participants understanding of the issues and their views on God s intervention in their activities He concludes with a look at the significance of the councils and their doctrinal decisions within the history of Christendom *The Acts of the Early Church Councils* Thomas Graumann, 2021-08-20 The Acts of Early Church Councils Acts examines the acts of ancient church councils as the objects of textual practices in their editorial shaping and in their material conditions It traces the processes of their production starting from the recording of spoken interventions during a meeting to the preparation of minutes of individual sessions to their collection into larger units their storage and the earliest attempts at their dissemination Thomas Graumann demonstrates that the preparation of paperwork is central for the bishops self presentation and the projection of prevailing conciliar ideologies The councils aspirations to legitimacy and authority before real and imagined audiences of the wider church and the empire and for posterity fundamentally reside in the relevant textual and bureaucratic processes Council leaders and administrators also scrutinized and inspected documents and records of previous occasions From the evidence of such examinations the volume further reconstructs the textual and physical characteristics of ancient conciliar documents and explores the criteria of their assessment Reading strategies prompted by the features observed from material textual objects handled in council and the opportunities and limits afforded by the techniques of writing up conciliar business are analysed Papyrological evidence and contemporary legal regulations are used to contextualise these efforts The book thus offers a unique assessment of the production processes character and the material conditions of council acts that must be the foundation for any historical and theological research into the councils of the ancient church *Archaeology of Frankish Church Councils, AD 511-768* Gregory I. Halfond, 2010 Despite growing scepticism concerning the evidentiary value of normative legal sources scholars continue to mine the legislative acts of ecclesiastical councils for insight into political religious and quotidian life in Frankish Gaul Between the reigns of Clovis and Charlemagne AD 511 768 at least eighty councils assembled often on royal command to discuss issues of concern to the episcopal and clerical attendees Their published canons were intended to communicate ecclesiastical policy in the Frankish regnum However scholars have paid comparatively slight attention to the institution responsible for this body of legislation This book remedies this lacuna by delineating the functions and modus operandi of the Frankish church council as an administrative body **Handbook of**

Episcopal Elections in Late Antiquity Johan Leemans, Peter Van Nuffelen, Shawn W. J. Keough, Carla Nicolaye, 2011-07-28 The present volume contributes to a reassessment of the phenomenon of episcopal elections from the broadest possible perspective examining the varied combination of factors personalities rules and habits that played a role in the process that eventually resulted in one specific candidate becoming the new bishop and not another The importance of episcopal elections hardly needs stating With the bishop emerging as one of the key figures of late antique society his election was a defining moment for the local community and an occasion when local ecclesiastical and secular tensions were played out Building on the state of the art regarding late antique bishops and episcopal election this volume of collected studies by leading scholars offers fresh perspectives by focussing on specific case studies and opening up new approaches Covering much of the Later Roman Empire between 250 600 AD the contributions will be of interest to scholars interested in Late Antique Christianity across disciplines as diverse as patristics ancient history canon law and oriental studies

Demacopoulos, Aristotle Papanikolaou, 2025-07-01 Commemorating the 1700th anniversary of the Council of Nicaea this volume offers an original examination of the enduring impact of the single most famous gathering of Christians since the apostolic age Despite the longstanding historical and theological study of the Council of Nicaea several central questions remain Was Nicaea a theological event or a political one What does it mean if it was both Was Constantine s intervention without precedent or was he simply continuing a long standing role of a Roman emperor who was responsible for leading a religious cult albeit now for a different faith tradition And what about the actual theological debates of Nicaea and our ability to understand them Scholars might never exhaust this avenue of inquiry despite the numerous studies in recent decades For many scholars and Christian activists today the significance of Nicaea centers around the idea of conciliarity and what this has meant both historically and theologically for the Christian community Why and how did Nicaea become foundational for thinking that the church operates in a conciliar manner How did that work historically in different parts of the Christian world And how should it work today Nicaea and the Future of Christianity offers a fresh globally diverse ecumenically minded approach to these questions with an impressive collection of both senior and junior scholars reflecting a diversity of views within the Orthodox Catholic and Protestant traditions The great benefit of this wide ranging approach lies precisely in its ability to see the many ways in which Nicaea continues to speak to the future of Christianity Tyconius' Book of Rules Matthew R.

Lynskey,2021-03-01 In Tyconius Book of Rules Matthew R Lynskey explores the church centric interpretation of ancient biblical exegete Tyconius in his hermeneutical treatise *Liber regularum* Influential within his Donatist tradition and the broader context of early North African Christianity Tyconius wrote one of the earliest works on exegetical theory and praxis in Latin Christianity By investigating five key concepts undergirding Tyconius's theology of church Lynskey demonstrates how Tyconius ecclesiology shaped his hermeneutical enterprise Through careful readings and close analysis of *Liber regularum* this study seeks to describe Tyconius exegesis on its own terms reflecting on notable historical theological formational and missiological implications of his ecclesial exegesis as it concerns the ancient and contemporary church

What Makes a Church Sacred? Mary Farag,2021-11-02 If churches belong to no one what is their purpose Mary K Farag persuasively demonstrates that three interest groups cared about this question in late antiquity law makers Christian leaders and wealthy lay persons Most of the time their answers co existed sitting side by side like tectonic plates Yet the plates did not always sit still and it is events on their colliding boundaries that account for familiar Christian controversies in novel ways *What Makes a Church Sacred* argues that scholarship misunderstands well known religious figures by ignoring the legal issues they faced In this seminal text Farag nuances the scholarly conversations on sacred space gift giving wealth and poverty in the late antique Mediterranean world making use not only of Latin and Greek sources but also Coptic and Arabic evidence Doctrine and Debate in the East Christian World, 300-1500 Averil Cameron,Robert Hoyland,2017-05-15

The reign of Constantine 306 37 the starting point for the series in which this volume appears saw Christianity begin its journey from being just one of a number of competing cults to being the official religion of the Roman Byzantine Empire The

involvement of emperors had the perhaps inevitable result of a preoccupation with producing promoting and enforcing a single agreed version of the Christian creed Under this pressure Christianity in the East fragmented into different sects disagreeing over the nature of Christ but also in some measure seeking to resist imperial interference and to elaborate Christianities more reflective of and sensitive to local concerns and cultures This volume presents an introduction to and a selection of the key studies on the ways in which and means by which these Eastern Christianities debated with one another and with their competitors pagans Jews Muslims and Latin Christians It also includes the iconoclast controversy which divided parts of the East Christian world in the seventh to ninth centuries and devotes space both to the methodological tools that evolved in the process of debate and the promulgation of doctrine and to the literary genres through which the debates were expressed

The Mediterranean World in Late Antiquity Averil Cameron, 2015-04-29 This book provides both a detailed introduction to the vivid and exciting period of late antiquity and a direct challenge to conventional views of the end of the Empire

Cognitive Approaches to Ancient Religious Experience Esther Eidinow, Armin W. Geertz, John North, 2022-08-11 For some time interest has been growing in a dialogue between modern scientific research into human cognition and research in the humanities This ground breaking volume focuses this dialogue on the religious experience of men and women in the ancient Greek and Roman worlds Each chapter examines a particular historical problem arising from an ancient religious activity and the contributions range across a wide variety of both ancient contexts and sources exploring and integrating literary epigraphic visual and archaeological evidence In order to avoid a simple polarity between physical aspects ritual and mental aspects belief of religion the contributors draw on theories of cognition as embodied emergent enactive and extended accepting the complexity multimodality and multicausality of human life Through this interdisciplinary approach the chapters open up new questions around and develop new insights into the physical emotional and cognitive aspects of ancient religions

Religious Experience of the Pneuma Clint Tibbs, 2012-04-26 This book explores the Christian religious experience of the pneuma given in 1 Corinthians 12 and 14 The experience Paul mentions in these texts as well as the mention of spirits in three different places suggest that Paul was actually writing about communicating with the spirit world

Anticimenon Anselm Of Havelberg, 2010-03-01 The Anticimenon of Anselm of Havelberg is both the outstanding medieval work on ecumenical dialogue with the Orthodox and one of the period's most important explorations of the theology of history This text's author was a bishop on Christianity's eastern frontier and companion to Norbert of Xanten saint founder of the Order of Premonstratensians Anselm grounded both his zeal for the union of the churches and his Vision of the Holy Spirit's role in secular events in the renewal and purification advocated by the twelfth century reformation The present volume the first English translation of Anselm's Anticimenon sets his work in the context of the early Premonstratensian Norbertine thought integral to the reform movement of his time It renders Anselm's powerful voice audible to a modern English speaking readership yearning with him for unity in the Church and understanding of the Holy Spirit's agency in human experience

Ambrose Criste OPraem received his licentiate from the Gregorian University in Rome and is a member of St Michael's Abbey in Orange County California Carol Neel is professor of history at Colorado College and has published several translations and commentaries on medieval spiritual texts *Questions for Christians* John Morreall, 2014-06-17 *Questions for Christians* The Surprising Truths behind Basic Beliefs asks whether or not Christians today have gotten Jesus message right drawing on the Bible and the history of Christianity for answers From the gender of God to what happens when we die *Questions for Christians* digs into some of the thorniest points of the Christian faith questions that many people would rather ignore Most Christians today believe in just wars but how do we reconcile this belief with Jesus saying Do not resist an evildoer But if anyone strikes you on the right cheek turn the other also or the pacifism of most early Christians Protestants and Catholics today generally believe that Jesus died on the cross to atone for our sins but most Orthodox Christians don't believe this and neither did most Western churches before 1100 What is the truth Drawing on sources both ancient and modern John Morreall explores these issues while identifying points of controversy Some of the answers are surprising while others provide a more complete understanding of common beliefs **Asking** Harry T. Cook, 2010-06-01 Too much communication in the world of religion is one way from clergy to lay persons who if ever respectfully engaged would become serious inquirers The most desirable means of effective engagement is the give and take method of eliciting and clarifying questions and then drawing the questioner into the answering process That combined with the intellectual rigor of Enlightenment thinking in the formation of beliefs will go a long way toward making contemporary religion a here and now enterprise thus saving it from hopeless irrelevance
