Were The Popes Against The Jews Tracking The Myths Confronting The Ideologues:

Were the Popes Against the Jews? Justus George Lawler, 2012-01-31 How many people know that a modern pope publicly referred to Jews as dogs that two other modern popes called the Jewish religion Satan's synagogue that at the beginning of the twentieth century another pope refused to save the life of a Jew accused of ritual murder even though the pope knew the man was innocent Lastly how many people know that only a decade before the rise of Hitler another pope supported priests who called for the extermination of all the Jews in the world The answer has to be great numbers of people since those accusations appeared in David I Kertzer's *The Popes Against the Jews* 2001 a book which had been lauded in major journals and newspapers in the U S and the U K and which by 2006 had been translated into nine foreign languages while Kertzer himself according to his Website had become America's foremost expert on the modern history of the Vatican's relations with the Jews It is thus undeniable that very many people in very many countries have heard of the appalling misdeeds and misstatements mentioned above even though in fact not one of them was ever perpetrated by any pope But *Were the Popes Against the Jews* is not only about the disclosure of these shocking slanders however fascinating and important such an expos is In the broader perspective it is about the power of ideology to subvert historical judgments whether the latter concern the origins of anti-Semitism and the papacy the distortion of documents to indict Pius XII or the fabrication of Pius XI as codependent collaborator with Mussolini the announced subject of Kertzer's next book Justus George Lawler's confrontation with ideologues will gratify all who are seeking not triumph over opponents but peace and justice for all Catholicism and Historical Narrative Kevin Schmiesing, 2014-01-30 Stories about the past shape not only the way people think about history but also the way they act in the present Nowhere is this truer than in the area of religion which has been and continues to be a powerful motivating force in the lives of billions around the globe In this volume *Catholicism and Historical Narrative A Catholic Engagement with Historical Scholarship* contributors explore the way stories are constructed and show how a focus on Catholic figures and concerns challenges common understandings of important historical episodes and eras Editor Kevin Schmiesing has gathered a distinguished group of scholars who in various ways call into question conventional story lines by highlighting previously neglected Catholic ideas and individuals Built on ample evidence and employing keen insight each essay is the result of cutting edge research in fields ranging from historical research on Puritan New England and the antebellum South to the history of abortion to the twentieth century papacy Students and scholars of religious history Catholic historians and anyone interested in the intersection of religion and history will all find here much to interest and maybe even surprise in the chapters arguments concerning the deficiencies of history's dominant narratives The volume's focus on the history of Catholics in the United States makes it essential reading for anyone seeking to understand the place of Catholicism in the American story *The Achievement of David Novak* Matthew Levering, Tom Angier, 2021-02-18 This book is a Festschrift offered by twelve Catholic theologians and philosophers to the great Jewish theologian David Novak

Each of the twelve essays is followed by a response by David Novak and it thereby represents a significant addition to his oeuvre. The book includes an introduction by Matthew Levering surveying Novak's many contributions to Jewish-Christian dialogue as well as a transcribed conversation between Robert George and David Novak that encapsulates Novak's sense of the present situation for Jews and Christians. Among the topics treated by the authors are religious engagement in a pluralist and secular culture; the question of whether Jews and Christians worship the same God; the morality of suicide; the role of divine commandments in Catholic moral theology; the question of whether classical versions of natural law doctrine are susceptible to the critiques proffered by Novak; the pedagogical impact of Dabru Emet; religious freedom; the recent debate about Pope Pius IX and Edgardo Mortara; the nature of justice; the relationship of reason and revelation; the sanctity of human life and the death penalty and supersessionism.

The role of Jewish American Organizations in the Rescue, Rehabilitation and Reconstruction of Tunisia's Jewish Community between 1942 and 1967 Maissa Arfaoui, 2025-09-26. This book fills a major historical gap by investigating the role played by Jewish American organizations in the rescue, rehabilitation and reconstruction of Tunisia's Jewish population during and after World War Two. Using a variety of archival sources to explore the intricacies of this intervention and the dynamics of interactions between these organizations and local Jewish leaders as well as Tunisian government officials, this book highlights that Jewish American organizations present in Tunisia during the wartime and postwar periods played a major role not only in the rescue and relief of the country's Jewish victims of war and German occupation but also in their educational, vocational and medical rehabilitation which aimed to prepare them for immigration to Palestine.

The Evil That Men Do Marcus Paul, 2016-03-01. This book considers the Church's past failings and fills a gap in our understanding of what it means to be a Christian in the twenty-first century.

The Literary Review, 2012.

Los enemigos del fin del mundo Constanza Cavallero, 2023-02-10. Trabajo documental reflexivo y debate historiográfico se articulan aquí en pocas palabras para ofrecer una lectura posible del estrecho vínculo entre política y religión en la Baja Edad Media y la temprana Modernidad, un problema clave para la comprensión de las sociedades premodernas. Frente a una tradición historiográfica que reduce a el *Fortalitium fidei* a un simple manifiesto antisemita, el presente libro ofrece una nueva lectura de la voluminosa y polifacética obra de fray Alonso de Espina O.F.M. escrita en torno de 1460. El análisis del antijudaísmo radical de este teólogo y predicador popular castellano se conjuga aquí con el estudio de su propaganda anti-conversa y con el examen detallado de su temprana demonología. La apreciación de conjunto de los objetivos del texto permite mostrar de qué modo el fraile construye discursivamente a los diversos enemigos de la fe en su doble dimensión individual y escatológica y en su múltiple naturaleza: judíos, herejes, sarracenos, demonios, en concordancia con su particular diagnóstico de la coyuntura que atravesaban entonces los reinos hispanos. Las diversas aristas del lenguaje teológico-doctrinal que reúne Alonso de Espina en su *Fortalitium fidei* la homilística, la heresiológica, la eclesiológica, la apocalíptica, son puestas al servicio del discurso político y como corrobora el presente libro, se revisten de una innegable potencialidad política.
