Carefree California: Cliff May and the Romance of the Ranch House Nicholas Olsberg, Jocelyn Gibbs, 2012-09-04 This landmark volume is an authoritative richly illustrated examination of the origins evolution and influence of the California ranch house Carefree California looks at a legendary figure in Southern California design Cliff May and the ubiquitous domestic icon his name evokes the ranch house We also see how other architects from George Washington Smith to Rudolph Schindler pursued different paths toward the same kind of relaxed domesticity exemplified by the ranch house By the late 50s much of the world was fascinated with California living and with the ranch house in particular which derived from architects evocation and reworking of distinctive regional traditions allied with the pervasive romance and myths of the California frontier and from the cultivation of a domestic architecture that could serve distinctively Californian ways of carefree living By uncovering patterns for living that suited the automobile age among the almost archaic forms and rhythms of mission and pioneer dwellings an extraordinary range of modernism emerged that was at once grounded in history and soaring into the space age

Golden Dreams Kevin Starr, 2011-09-09 A narrative tour de force that combines wide ranging scholarship with captivating prose Kevin Starr's acclaimed multi volume Americans and the California Dream is an unparalleled work of cultural history In this new volume Starr covers the crucial postwar period 1950 to 1963 when the California we know today first burst into prominence In a powerful blend of telling events colorful personalities and insightful analyses he brilliantly illuminates the dominant economic social and cultural forces in California in these pivotal years

Historic Residential

Suburbs David L. Ames, Linda Flint McClelland, 2002 **Vacationland** William Philpott, 2013-08-30 Winner of the Western Writers of America 2014 Spur Award for Best Western Nonfiction Contemporary Mention the Colorado high country today and vacation imagery springs immediately to mind mountain scenery camping hiking skiing and world renowned resorts like Aspen and Vail But not so long ago the high country was isolated and little visited Vacationland tells the story of the region's dramatic transformation in the decades after World War II when a loose coalition of tourist boosters fashioned alluring images of nature in the high country and a multitude of local state and federal actors built the infrastructure for high volume tourism ski mountains stocked trout streams motels resort villages and highway improvements that culminated in an entirely new corridor through the Rockies Interstate 70 Vacationland is more than just the tale of one tourist region It is a case study of how the consumerism of the postwar years rearranged landscapes and revolutionized American environmental attitudes Postwar tourists pioneered new ways of relating to nature forging surprisingly strong personal connections to their landscapes of leisure and in many cases reinventing their lifestyles and identities to make vacationland their permanent home They sparked not just a population boom in popular tourist destinations like Colorado but also a new kind of environmental politics as they demanded protection for the aesthetic and recreational qualities of place that promoters had sold them Those demands energized the American environmental movement but also gave it blind spots that still plague it today Peopled with colorful characters richly evocative of the Rocky Mountain landscape Vacationland forces us to consider how profoundly tourism changed Colorado and America and to grapple with both the potential and the problems of our familiar ways of relating to environment nature and place Tastemaker Monica Penick, 2017-06-13 A riveting and superbly illustrated account of the enigmatic House Beautiful editor's profound influence on mid century American taste From 1941 to 1964 House Beautiful magazine's crusading editor in chief Elizabeth Gordon introduced and promoted her vision of good design and better living to an extensive middle class American readership Her innovative magazine sponsored initiatives including House Beautiful's Pace Setter House Program and the Climate Control Project popularized a livable and decidedly American version of postwar modern architecture Gordon's devotion to what she called the American Style attracted the attention of Frank Lloyd Wright who became her ally and collaborator Gordon's editorial programs reshaped ideas about American living and by extension what consumers bought what designers made and what manufacturers brought to market This incisive assessment of Gordon's influence as an editor critic and arbiter of domestic taste reflects more broadly on the cultures of consumption and identity in postwar America Nearly 200 images are featured including work by Ezra Stoller Maynard Parker and Julius Shulman This important book champions an often neglected source the consumer magazine as a key tool for deepening our understanding of mid century architecture and design Maynard L. Parker Jennifer A. Watts, 2012-12-04 Overzicht van het werk van de Amerikaanse architectuurfotograaf 1900 1976 Make Room for TV Lynn Spigel, 2013-11-26 Between 1948 and 1955 nearly two thirds of all American families bought a television set and a revolution

in social life and popular culture was launched In this fascinating book Lynn Spigel chronicles the enormous impact of television in the formative years of the new medium how over the course of a single decade television became an intimate part of everyday life What did Americans expect from it What effects did the new daily ritual of watching television have on children Was television welcomed as an unprecedented window on the world or as a one eyed monster that would disrupt households and corrupt children Drawing on an ambitious array of unconventional sources from sitcom scripts to articles and advertisements in women s magazines Spigel offers the fullest available account of the popular response to television in the postwar years She chronicles the role of television as a focus for evolving debates on issues ranging from the ideal of the perfect family and changes in women s role within the household to new uses of domestic space The arrival of television did more than turn the living room into a private theater it offered a national stage on which to play out and resolve conflicts about the way Americans should live Spigel chronicles this lively and contentious debate as it took place in the popular media Of particular interest is her treatment of the way in which the phenomenon of television itself was constantly deliberated from how programs should be watched to where the set was placed to whether Mom Dad or kids should control the dial Make Room for TV combines a powerful analysis of the growth of electronic culture with a nuanced social history of family life in postwar America offering a provocative glimpse of the way television became the mirror of so many of America s hopes and fears and dreams

Old House Interiors ,2007-10 National architectural magazine now in its fifteenth year covering period inspired design 1700 1950 Commissioned photographs show real homes inspired by the past but livable Historical and interpretive rooms are included new construction additions and new kitchens and baths take their place along with restoration work A feature on furniture appears in every issue Product coverage is extensive Experts offer advice for homeowners and designers on finishing decorating and furnishing period homes of every era A garden feature essays archival material events and exhibitions and book reviews round out the editorial Many readers claim the beautiful advertising all of it design related no lifestyle ads is as important to them as the articles
