What Did You Do In The Cold War Dad:

What Did You Do in the Cold War Daddy? Ann Curthoys, Joy Damousi, 2014-09-01 The Cold War was a turbulent time to grow up in Family ties were tested friendships were torn apart and new beliefs forged out of the ruins of old loyalties In this book through twelve evocative stories of childhood and early adulthood in Australia during the Cold War years writers from vastly different backgrounds explore how global political events affected the intimate space of home family life and friendships Some writers were barely in their teens when they felt the first touches of their parents political lives both on the Left and the Right Others grew up in households well attuned to activism across the spectrum including anti communism workers rights anti Vietnam War anti apartheid and women s rights Sifting through the key political and social developments in Australia from the end of World War II to the early 1990s including the referendum to ban the Communist Party of Australia the rise of the Movement and the Labor split and post war migration this book is a powerful and poignant telling of the ways in which the political is personal

Cold War Fantasies Ronnie D. Lipschutz, 2001-10-16 As memories of the Cold War recede it becomes more and more difficult to remember what it was about and why it evoked such feelings of intensity and fatalism Fortunately we have a gold mine of movies and novels to help us recall why an entire generation of Americans grew up ducking under school desks in air raid drills and stocking the family bomb shelter Cold War Fantasies retrieves those times based on the idea that a nation s history self concept and collective anxiety are reflected in popular culture In Cold War Fantasies Ronnie Lipschutz combines an historical account of foreign and domestic politics from 1945 to 1995 with summaries and analyses of thirty novels and films contemporaneously published and produced Lipschutz rejects the standard line on the Cold War and critically examines the impacts and effects of language and images on politics Viewing those films and reading those novels enables the reader to come away with a clearer sense of how people felt during the Cold War period about themselves about the enemy and about the world while living in the shadow of the atomic bomb

Rough Draft Amy J. Rutenber,2019-09-15 *Rough Draft* draws the curtain on the race and class inequities of the Selective Service during the Vietnam War Amy J Rutenber argues that policy makers idealized conceptions of Cold War middle class masculinity directly affected whom they targeted for conscription and

also for deferment Federal officials believed that college educated men could protect the nation from the threat of communism more effectively as civilians than as soldiers The availability of deferments for this group mushroomed between 1945 and 1965 making it less and less likely that middle class white men would serve in the Cold War army Meanwhile officials used the War on Poverty to target poorer and racialized men for conscription in the hopes that military service would offer them skills they could use in civilian life As Rutenberg shows manpower policies between World War II and the Vietnam War had unintended consequences While some men resisted military service in Vietnam for reasons of political conscience most did so because manpower policies made it possible By shielding middle class breadwinners in the name of national security policymakers militarized certain civilian roles a move that ironically separated military service from the obligations of masculine citizenship and ultimately helped kill the draft in the United States **False Flags** Russell Warren

Truths and the Politics of Community Robin L. Teske,Mary Ann Tétreault,2003 *Partial Truths and the Politics of Community* considers what happens after feminists succeed in achieving social change or in founding organizations dedicated to accomplishing their personal and social goals This collection of eighteen essays by scholars from the fields of international relations and feminist studies explores the theoretical dilemmas and practical politics of living with raised consciousnesses in worlds of our own making The contributors explore feminisms as dreams of human rights as a cluster of ideologies and as a bounty of social practices set within frameworks for tackling problems in nation building and global governance In essays that illustrate the impact of feminist concerns with the quality of education the contributors offer studies of homeschooling of the education of impoverished girls in rural Mexico of sororities and their relation to female autonomy and of the teaching of prisoners by volunteers in county jails Other contributors call for a greater attention to the ecology of social life viewing society as a complex of individuals bound to one another through webs of transactions and obligations These contributors recount examples from Northern Ireland Poland and the United States in which such webs sometimes support and sometimes strangle efforts to achieve human dignity and autonomy Evaluating progress made in the legal realm other contributors chart the opportunities and limitations of international and domestic law as tools to advance

and protect human rights They consider gender discrimination in universities and colleges the United Nations and its mixed record on women s issues and the effects of adding rape to the list of prosecutable war crimes The volume concludes with two works on how feminism supports democratic constructions of science and religion with results that destabilize dominant institutions in both realms
