*Social-Emotional Learning Using Makerspaces and Passion Projects* Julie Darling, 2022-01-20 Social Emotional Learning Using Makerspaces and Passion Projects is chock full of meaningful projects that educators can use to teach social emotional skills in grades 3-6. The projects show students how to create a digital calming room, prototype an inclusive playground, and make recycled cards with paper circuits to spread kindness. They also teach young makers how to focus on self-regulation and self-care, engage in community outreach by helping struggling families, and tell their own stories using podcasting and green screening. In addition, the book provides teachers with helpful strategies for scaffolding passion projects, funding a makerspace, and tips for building community and celebrating diversity. With the engaging ideas in this book, educators will be able to help their students build direct connections to social awareness, relationship skills, responsible decision-making, self-management, and self-awareness. **Children's Literature Aligned with SDGs to Promote Global Competencies** Angela K. Salmon,Aixa Pérez-Prado,Karin Morrison,Flavia

Iuspa,2024-05-23 This book presents children's literature as a platform for learning and helping young readers develop the knowledge skills and attitudes needed to thrive in an interconnected and diverse global society. It draws from various theoretical frameworks and research findings to implement critical literacy and culturally responsive teaching in the meaning-making process. The book focuses on global competencies and Sustainable Development Goals (SDGs) as intertwined concepts that work together to foster a more sustainable, inclusive, and equitable world. Developing global competencies empowers children and communities to actively participate in achieving the SDGs and addressing the pressing challenges of our time. The authors set high expectations on children as actors in transforming society. To facilitate this, the book offers an overview of child development theories as a foundation for designing developmentally appropriate practices to extend children's books toward deep thinking and understanding. The book includes sample lessons that use cutting-edge research-based pedagogies and tools such as visible thinking routines and other approaches. Those lessons also help readers identify the Habits of Mind (HOM) children can develop by listening to and discussing stories. The HOMs are attributes of good problem finders and problem solvers needed when confronting complex issues. The book provides resources and sample lessons that implement different thinking strategies to engage children in questioning and analyzing what they read, making them more critical. This is how children deeply understand the world and their role in creating positive change. The book aims to cultivate change makers and global citizens through stories. It offers innovative approaches, including online learning options, in accessible and engaging ways to help children think globally and act locally. Through the power of children's literature, this book serves a larger agenda: To build a more thoughtful world for future generations. By caring for and learning from one another through suggested activities in this book, they will share the riches and resources from across the world. As children learn about the promise of actions toward the UN Sustainable Goals, they can imagine living in an interdependent learning community where all people continually searching for ways to trust each other, learn together, and grow toward greater intelligence. **User Experience Re-Mastered** Chauncey Wilson, 2009-09-11. *User Experience Re-Mastered: Your Guide to Getting the Right Design* provides an understanding of key design and development processes aimed at enhancing the user experience of websites and web applications. The book is organized into four parts. Part 1 deals with the concept of usability, covering user needs analysis and card sorting, a tool for shaping information architecture in websites and software applications. Part 2 focuses on idea generation processes, including brainstorming, sketching, persona development and the use of prototypes to validate and extract assumptions and requirements that exist among the product team. Part 3 presents core design principles and guidelines for website creation along with tips and examples on how to apply these principles and guidelines. Part 4 on evaluation and analysis discusses the roles, procedures and documents needed for an evaluation session, guidelines for planning and conducting a usability test, the analysis and interpretation of data from evaluation sessions and user interface inspection using heuristic evaluation and other inspection methods. A guided hands-on tour through the process of creating the ultimate user experience from testing to prototyping to design to evaluation. Provides tried and tested material from best sellers in Morgan Kaufmann's Series in Interactive Technologies, including leaders in the field such as Bill Buxton and Jakob Nielsen. Features never before seen material from Chauncey Wilson's forthcoming and highly anticipated *Handbook for User Centered Design*.

[The Creativity Choice](#) Dr. Zorana Ivcevic Pringle, 2025-05-06. A groundbreaking Marc Brackett correction to the myth that creativity is a trait that you're born with. Instead, a Yale scientist proves creativity is a decision that you make again and again. Anyone who has ever participated in a brainstorming session will know that most of us do not lack ideas. Yet many people never breathe life into these ideas. To turn inspiration into real achievement, you must decide to act and then decide to act again and again despite obstacles until your thoughts take shape and come to life. This is what psychologist Zorana Ivcevic Pringle calls the creativity choice. Drawing on decades of research into the science of creativity, *The Creativity Choice* teaches readers how to bring ideas out of your mind and into the world. With stories ranging from an entrepreneur who built a national nonprofit to a YouTuber who turned a hobby into a professional career to a business leader who established a company culture of innovation, Pringle illuminates how people make creative ideas happen. She shows what it takes to get started, the

psychological and emotional tools needed to navigate the creative process and the social conditions that allow creativity to succeed Through this book you ll learn how to bridge the gap between having the first spark of an idea and actually doing something with it
