accounting stratagems which governments have used to meet fiscal targets thereby sidestepping the need for true adjustment and suggests remedial actions to limit this type of fiscal non transparency Types of creative accounting covered includes for instance currency swaps to hide a debt build up as in Greece in 2001 07 sale and leaseback of government property for example in the United States assumption of long term pension obligations in exchange for short term revenue Argentina Hungary and other Eastern European countries use of public private partnerships to defer the recognition of investment spending for instance Portugal and reliance on non cash compensation such as pension rights to reduce measured wage bills in the United States United Kingdom etc As is evident from the examples given these fiscal tricks have recently come under increased international scrutiny highlighting the importance of good fiscal reporting accounting and transparency in general for avoiding unpleasant surprises ensuring government accountability and containing fiscal vulnerabilities

Why Do Governments Divest? Alfred Schipke,2001-03-13 **Aanwinsten van de Centrale Bibliotheek (Queteletfonds)** Bibliothèque centrale (Fonds Quetelet),2001 *Economic Bulletin* Deutsches Institut für Wirtschaftsforschung,2004 *Hostile Business and the Sovereign State* Michael J. Strauss,2018-12-14 This book describes and assesses an emerging threat to states territorial control and sovereignty the hostile control of companies that carry out privatized aspects of sovereign authority The threat arises from the massive worldwide shift of state activities to the private sector since the late 1970s in conjunction with two other modern trends the globalization of business and the liberalization of international capital flows The work introduces three new concepts firstly the rise of companies that handle privatized activities and the associated advent of post government companies that make such activities their core business Control of them may reside with individual investors other companies or investment funds or it may reside with other states through state owned enterprises or sovereign wealth funds Secondly imperfect privatizations when a state privatizes an activity to another state s public sector The book identifies cases where this is happening It also elaborates on how ownership and influence of companies that perform privatized functions may not be transparent and can pass to inherently hostile actors including criminal or terrorist organizations Thirdly belligerent companies whose conduct is hostile to those of states where they are active The book concludes by assessing the adequacy of existing legal and regulatory regimes and how relevant norms may evolve **The Handbook of Political, Social, and Economic Transformation** Wolfgang Merkel,Raj Kollmorgen,Hans-Jürgen Wagener,2019-01-03 Political social and economic transformation is a complex historical phenomenon It can adequately be analysed only by a multidisciplinary approach The Handbook brings together an international team of scholars who are specialists in their respective research fields It introduces the most important areas theories and methods in transformation research with particular attention placed on the historical and comparative dimension Although focussing on post communist and other democratic transformations in our epoch the Handbook therefore presents and discusses not only their problems paths and developments but also deals with the antecedent waves beginning

with the Meiji Restoration in Japan in 1868 and its aftermath The book is structured into six parts Starting with basic concepts as systems actors and institutions Section I it gives an overview over major theoretical approaches and research methods Sections II and III The connection of theory and method with their application is essential allowing special insights into the past and opens analytical avenues for transformation research in the future Section IV provides a historically oriented description or interpretation of particular waves or types of societal transformation With a clear focus on present transformations the contributions to Section V provide a description and discussion of the problems structures actors and courses of the transformations within different spheres of civil society politics law and economics Finally brief lexicographic entries in Section VI delineate research perspectives and facts about relevant issues of societal transformation Each of the 79 contributions contains a concise list of the most important research literature
