Tocotronic Blumfeld Die Sterne Hamburger:

Perspectives on German Popular Music Michael Ahlers, Christoph Jacke, 2016-11-25 In this book native popular musicologists focus on their own popular music cultures from Germany Austria and Switzerland for the first time from subcultural to mainstream phenomena from the 1950s to contemporary acts Starting with an introduction and two chapters on the histories of German popular music and its study the volume then concentrates on focused detailed and yet concise close readings from different perspectives including particular historical East and West German perspectives mostly focusing on the music and its protagonists Moreover these analyses deal with very original specific genres such as Schlager and Krautrock as well as transcultural genres such as Punk or Hip Hop There are additional chapters on characteristically German developments within music media journalism and the music industry The book will contribute to a better understanding of German Austrian and Swiss popular music and will interconnect international and especially Anglo American studies with German approaches The book as a consequence will show close connections between global and local popular music cultures and diverse traditions of study

German Pop Music Uwe Schütte, 2017-01-11 The development of German pop music represents a fascinating cultural mirror to the history of post war Germany reflecting sociological changes and political developments While film studies is an already established discipline German pop music is currently emerging as a new and exciting field of academic study This pioneering companion is the first volume to provide a comprehensive overview of the subject charting the development of German pop music from the post war period Schlager to the present Diskursrock Written by acknowledged experts from Germany the UK and the US the various chapters provide overviews of pertinent genres as well as focusing on major bands such as CAN Kraftwerk or Rammstein While these acts have shaped the international profile of German pop music the volume also undertakes in depth examinations of the specific German contributions to genres such as punk industrial rap and techno The survey is concluded by an interview with the leading German pop theorist Diedrich Diederichsen The volume constitutes an indispensable companion for any student teacher and scholar in the area of German studies interested in contemporary popular culture

Der Wille zum Nichts als Diskurs in der Popmusik. Tocotronic und das Konzept der "Kapitulation" (2007) Jonas Kirstein, 2011 Studienarbeit aus dem Jahr 2008 im Fachbereich Germanistik Neuere Deutsche Literatur Note 1,0 Christian Albrechts Universität Kiel Neuere Deutsche Literatur und Medienwissenschaft Sprache Deutsch

Abstract Der Germanistik stellt sich nach Moritz Bailer bei der Analyse von deutschen Popsongs ein methodisches Problem Für Bailer ist eine lediglich textimmanente Interpretation des herkömmlichen deutschen Pop Songs nicht ausreichend um das Wesentliche des Werkes zu fassen da Musik und Text separat betrachtet keine aussagekräftigen Eigenständigkeit besitzen Vielmehr ist die Symbiose aus Musik und Text besonders in der Pop Musik von enormer Wichtigkeit Ferner ist der

semiotische Hintergrund von blicher Popmusik nicht die Hochkultur der literarischen oder musikalischen Tradition sondern die Popkultur anglo amerikanischen Ursprungs Ba ler zur Folge fand allerdings durch die musikalischen Str mungen des Punk des New Wave der Neuen Deutschen Welle und der Hamburger Schule ein Paradigmenwechsel statt Der deutsche popmusikalische Diskurs pflegte fortan einen neuartigen Umgang mit den berm chtigen anglo amerikanischen Vorbildern Keine Imitation oder Verabschiedung sondern ein expliziter und reflektierter Umgang mit den dominanten Pop Paradigmen schl gt sich im Zuge der Entwicklung nieder Diese neue Identit t des deutschen Pop Songs rechtfertigt eine literaturwissenschaftliche Analyse auch ohne dabei tiefer in die Materie des anglo amerikanischen Popsongs oder der Musikwissenschaft einzudringen Die deutsche Pop Rock Band Tocotronic ist neben weiteren Vertretern der sogenannten Hamburger Schule ein zweckdienliches Beispiel f r eine ergiebige literaturwissenschaftliche Analyse Tocotronic intellektualisierten den deutschen Pop Song im Verlauf der Bandgeschichte zunehmend In Folge dessen basiert der semiotische Hintergrund der Texte neben popkulturellen Verweisen auch auf der Hochkultur der literarischen und philosophischen Tradition Weiterhin
