Wars and the World Tim Kucharzewski, 2024-06-19 This book offers a descriptive analysis of the Soviet Russian wars in Afghanistan Chechnya and Georgia as well as an in depth exploration of the ways in which these wars are framed in the collective consciousness created by global popular culture Russian and Western modalities of remembrance have been and remain engaged in a world war that takes place not exclusively but intensively on the level of popular culture The action reaction dynamic confrontational narratives and othering between the two camps never ceased The Cold War in many ways and contrary to the views of many others who hoped for the end of history never really ended Command Authority Tom Clancy, Mark Greaney, 2014-12 A New York Times Bestselling Author Bestselling author and master of the techno thriller Tom Clancy returns with his all star team in Command Authority There s a new strong man in Russia but his rise to power is based on a dark secret hidden decades in the past And the clue to the mystery lies with a most unexpected source President Jack Ryan *The naval war film* Jonathan Rayner, 2013-07-19 This book undertakes a unique coherent and comprehensive consideration of the depiction of naval warfare in the cinema The films under discussion encompass all areas of naval operations in war and highlight varying institutional and aesthetic responses to navies and the sea in popular culture The examination of these films centres on their similarities to and differences from the conventions of the war genre and seeks to determine whether the distinctive characteristics of naval film narratives justify their categorisation as a separate genre or sub genre in popular cinema The explicit factual bases and drama documentary style of many key naval films such as In Which We Serve They Were Expendable and Das Boot also requires the consideration of these films as texts for popular historical transmission Their frequent reinforcement of establishment views of the past which derives from their conservative ideological position towards national and naval culture makes these films key texts for the consideration of national cinemas as purveyors of contemporary history as popularly conceived by filmmakers and received by audiences The NCO Journal, 1994 **Inside the World Wide Web** Steven J.
