On the right side, there is a faint, stylized network diagram consisting of a large purple sphere connected to several smaller purple spheres by thin white lines. A bright, horizontal streak of light, transitioning from blue to white to red, cuts across the middle of the image.

Ethics in Marketing Patrick E. Murphy, Gene R. Laczniak, 2012-02-13 Understanding and appreciating the ethical dilemmas associated with business is an important dimension of marketing strategy. Increasingly, matters of corporate social responsibility are part of marketing's domain. *Ethics in Marketing* contains 20 cases that deal with a variety of ethical issues such as questionable selling practices, exploitative advertising, counterfeiting, product safety, apparent bribery, and channel conflict that companies face across the world. A hallmark of this book is its international dimension along with high profile case studies that represent situations in European, North American, Chinese, Indian, and South American companies. Well known multinationals like Caterpillar, Coca Cola, Cadbury, and Facebook are featured. The two introductory chapters cover initial and advanced perspectives on ethical and socially responsible marketing in order to provide students with the necessary theoretical foundation to engage in ethical reasoning. A decision making model is also presented for use in the case analyses. This unique case book provides students with a global perspective on ethics in marketing and can be used in a free standing course on marketing ethics or marketing and society or it can be used as a supplement to the readings for other marketing classes.
