Victor Hugo's Conversations With The Spirit World A Literary Genius's Hidden Life:

Victor Hugo's Conversations with the Spirit World John Chambers, 2008-01-16 First English translation of Victor Hugo's writings on his experiments in spiritualism Reveals Hugo's conversations with renowned discarnate entities such as Shakespeare Plato Galileo and Jesus Examines his contacts with aliens from the planets Mercury and Jupiter and the revelation that our entire universe is a quantum hologram Discusses Hugo's possible role as a grand master of the Priory of Sion During Victor Hugo's exile on the Isle of Jersey where he and his family and friends escaped the reign of Napoleon III he conducted table tapping sessions transcribing hundreds of channeled conversations with entities from the beyond Among his discarnate visitors were Shakespeare Plato Hannibal Rousseau Galileo Sir Walter Scott and Jesus According to the transcripts Jesus during his three visits condemns Druidism faults Christianity and suggests a new religion with Hugo as its prophet To the skeptic some of the conversations may seem self-serving at best the subconscious wishes of the naïve participants But author John Chambers places Hugo's experiments firmly in the tradition of visionary literature and psychic exploration aligning those experiences with the poetry of William Blake the table tapping experiences of the Fox sisters and the channeled writings of the great modern day Pulitzer Prize winning poet James Merrill whose spirits' utterances uncannily resemble those of Hugo's Hugo's transcriptions are the missing link between the early nineteenth century's fascination with the kabbalistic Zohar reincarnation and the writings of the Illuminati and the rise of spiritualism and the societies for the study of psychic phenomena in the latter nineteenth and early twentieth centuries

The Secret Life of Genius John Chambers, 2009-06-25 A look at the metaphysical experiences that shaped the lives and work of 24 great men and women from the Renaissance to modern times Chronicles the changing relationship with God nature and spirituality from the 16th century to the 20th century Includes encounters with the paranormal of Ben Johnson Isaac Newton Mary Shelley Leo Tolstoy Doris Lessing and Winston Churchill What role did the esoteric thought of Swedenborg play in the creative output of Honoré de Balzac Did a supernatural encounter prompt Mary Wollstonecraft Shelley to focus her work on the theme of immortality Building on his earlier research on communications with the spirit world that Victor Hugo author of *Les Misérables* experienced while in exile on the Isle of Jersey John Chambers now looks at the role occult knowledge and supernatural experiences played in the lives of 24 geniuses His investigation spans the life and work of William Blake Helena Blavatsky and W B Yeats whose esoteric interests are well known as well as those little suspected of such encounters with worlds beyond ours including Doris Lessing Leo Tolstoy Norman Mailer Yukio Mishima and Winston Churchill Chambers presents more than a collection of anecdotes and newly revealed secrets His research provides insightful historical context of the decisive turning point that took place with the collapse of Prague the occult capital of Europe in 1620 which resulted in the victory of Cartesian reality and Newton's scientific paradigm over the esoteric traditions that flourished until that time The magical and occult world shown in the lives of these 24 great men and women offers us a glimpse of what could still be ours

a world that though it is now overshadowed by modern scientific and technological principles is yet still visible on the horizon through the visions and paranormal experiences of these geniuses *Retrospection and Revision in Modern and Contemporary Art, Literature and Music* Mette Gieskes, Mathilde Roza, 2024-01-03 This interdisciplinary book investigates the various ways in which North American and European modern and contemporary artists authors and musicians have returned to earlier works of their own engaging in inventive revivals and transformations of the past in the present The book is distinctive in its focus on such revisits as well as in the diversity of art forms under review in addition to visual art the book explores fiction poetry literary criticism film rock music and philosophy This scope together with the time span covered in the book from the 1850s to the twenty first century allows for a broad view on retrospection and revision The case studies presented here offer a multifaceted exploration of the widely different goals to which practitioners of the arts have made retrospection and revision functional against the background of cultural social political and personal forces **Atlantis**
