Victors Justice From Nuremberg To Baghdad:

Victors' Justice Danilo Zolo, 2020-01-28 *Victors Justice* is a potent and articulate polemic against the manipulation of international penal law by the West combining historical detail juridical precision and philosophical analysis Zolo's key thesis is that contemporary international law functions as a two track system a made to measure law for the hegemon and their allies on the one hand and a punitive regime for the losers and the disadvantaged on the other Though it constantly advertised its impartiality and universalism international law served to bolster and legitimize ever since the Tokyo and Nuremberg trials a fundamentally unilateral and unequal international order *Transitional Justice in Italy and the Crimes of Fascism and Nazism* Paolo Caroli, 2022-06-09 This book presents a comprehensive analysis of the Italian experience of transitional justice examining how the crimes of Fascism and World War II have been dealt with from a comparative perspective Applying an interdisciplinary and comparative methodology the book offers a detailed reconstruction of the prosecution of the crimes of Fascism and the Italian Social Republic as well as crimes committed by Nazi soldiers against Italian civilians and those of the Italian army against foreign populations It also explores the legal qualification and prosecution of the actions of the Resistance Particular focus is given to the Togliatti amnesty the major turning point through comparisons to the wider European post WWII transitional scenario and other relevant transitional amnesties allowing consideration of the intense debate on the legitimacy of amnesties under international law The book evaluates the Italian experience and provides an ideal framework to assess the complexity of the interdependencies between time historical memory and the use of criminal law In a historical moment marked by the resurgence of racism neo Fascism falsifications of the past as well as the desire to amend the faults of the past the Italian unfinished experience of dealing with the Fascist era can help move the discussion forward The book will be an essential reading for students researchers and academics in International Criminal Law Transitional Justice History Memory Studies and Political Science **Doing Justice to History** Barrie Sander, 2021-03-09 As communities struggle to make sense of mass atrocities expectations have increasingly been placed on international criminal courts to render authoritative historical accounts of episodes of mass violence Taking these expectations as its point of departure this book seeks to understand international criminal courts through the prism of their historical function The book critically examines how such courts confront the past by constructing historical narratives concerning both the culpability of the accused on trial and the broader mass atrocity contexts in which they are alleged to have participated The book argues that international criminal courts are host to struggles for historical justice discursive contests between different actors vying for judicial acknowledgement of their interpretations of the past By examining these struggles within different institutional settings the book uncovers the legitimating qualities of international criminal judgments In particular it illuminates what tends to be foregrounded and included within as well as marginalised and excluded from the narratives of international criminal courts in practice What emerges from this account is a sense of the

significance of thinking about the emancipatory limits and possibilities of international criminal courts in terms of the historical narratives that are constructed and contested within and beyond the courtroom

A Liberal Peace? Susanna Campbell, David Chandler, Meera Sabaratnam, 2011-11-10 Moving beyond the binary argument between those who buy into the aims of creating liberal democratic states grounded in free markets and rule of law and those who critique and oppose them this timely and much needed critical volume takes a fresh look at the liberal peace debate In doing so it examines the validity of this critique in contemporary peacebuilding and statebuilding practice through a multitude of case studies from Afghanistan to Somalia Sri Lanka to Kosovo Going further it investigates the underlying theoretical assumptions of liberal peacebuilding and statebuilding as well as providing new theoretical propositions for understanding current interventions Written by some of the most prominent scholars in the field alongside several new scholars making cutting edge contributions this is an essential contribution to a rapidly growing interdisciplinary area of study

Cold War Ruins Lisa Yoneyama, 2016-09-15 In *Cold War Ruins* Lisa Yoneyama argues that the efforts intensifying since the 1990s to bring justice to the victims of Japanese military and colonial violence have generated what she calls a transborder redress culture A product of failed post World War II transitional justice that left many colonial legacies intact this culture both contests and reiterates the complex transwar and transpacific entanglements that have sustained the Cold War unredressability and illegibility of certain violences By linking justice to the effects of American geopolitical hegemony and by deploying a conjunctive cultural critique of comfort women redress efforts state sponsored apologies and amnesties Asian American involvement in redress cases the ongoing effects of the U S occupation of Japan and Okinawa Japanese atrocities in China and battles over WWII memories Yoneyama helps illuminate how redress culture across Asia and the Pacific has the potential to bring powerful new and challenging perspectives on American exceptionalism militarized security justice sovereignty forgiveness and decolonization

Humanitarianism, War, and Politics Peter J. Hoffman, Thomas G. Weiss, 2017-06-27 What is humanitarianism This authoritative book provides a comprehensive analysis of the original idea and its evolution exploring its triangulation with war and politics Peter J Hoffman and Thomas G Weiss trace the origins of humanitarianism its social movement and the institutions international humanitarian law and organizations providers of assistance and protection that comprise it They consider the international humanitarian system s ability to regulate the conduct of war to improve the wellbeing of its victims and to prosecute war criminals Probing the profound changes in the culture and capacities that underpin the sector and alter the meaning of humanitarianism they assess the reinventions that constitute revolutions in humanitarian affairs The book begins with traditions and perspectives ranging from classic international relations approaches to Critical Humanitarian Studies and reviews seminal wartime emergencies and the creation and development of humanitarian agencies in the late nineteenth and twentieth centuries The authors then examine the rise of new humanitarianisms after the Cold War s end and contemporary cases after 9 11 The authors continue by unpacking the most

recent revolutions the International Criminal Court and the Responsibility to Protect as well as such core challenges as displacement camps infectious diseases eco refugees and marketization They conclude by evaluating the contemporary system and the prospects for further transformations identifying scholarly puzzles and the acute operational problems faced by practitioners

A Criminology of War? Ross McGarry, Sandra Walklate, 2021-01-20 In recent years the academic study of war has gained renewed popularity in criminology This book illustrates its long standing engagement with this social phenomenon within the discipline Foregrounding established criminological work addressing war and connecting it to a wide range of extant sociological literature the authors present and further develop theoretical and conceptual ways of thinking critically about war Providing a critique of mainstream criminology the authors question whether a criminology of war is possible and if so how this seemingly new horizon of the discipline might be usefully informed by sociology

Wars, Laws, Rights and the Making of Global Insecurities Damien Rogers, 2022-04-07 This book offers a unique and timely political analysis of war international law and human rights and the important interconnections among them It questions why war features as a foundational problem in contemporary world affairs and explores how international law is used to manage this and other types of political violence Challenging conventional thinking that understands war as a problem to be solved and law as an antidote to organized but unruly violence this book situates the promotion and protection of human rights within the wider context of the modernist project particularly during the epoch of the Anthropocene Taking a critical perspective that draws on concepts found in the work of Michel Foucault Pierre Bourdieu and Bruno Latour this book casts new light on the ways in which the politics of war law and rights produces profound insecurities for the human species as well as for other life forms and life systems on this planet

Landmark Cases in Public International Law Eirik Bjorge, Cameron Miles, 2017-12-28 The past two hundred years have seen the transformation of public international law from a rule based extrusion of diplomacy into a fully fledged legal system Landmark Cases in Public International Law examines decisions that have contributed to the development of international law into an integrated whole whilst also creating specialised sub systems that stand alone as units of analysis The significance of these decisions is not taken for granted with contributors critically interrogating the cases to determine if their reputation as landmarks is deserved Emphasis is also placed on seeing each case as a diplomatic artefact highlighting that international law while unquestionably a legal system remains reliant on the practice and consent of states as the prime movers of development The cases selected cover a broad range of subject areas including state immunity human rights the environment trade and investment international organisations international courts and tribunals the laws of war international crimes and the interface between international and municipal legal systems A wide array of international and domestic courts are also considered from the International Court of Justice to the European Court of Human Rights World Trade Organization Appellate Body US Supreme Court and other adjudicative bodies The result is a three dimensional picture of international law what it was what it is and what it might yet become

Australia, Canada, and Iraq Ramesh Thakur, Jack Cunningham, 2015-10-03 The 2003 US led invasion of Iraq was intensely controversial Australia joined in the war while Canada refused to Australia Canada and Iraq is a collection of essays by world leaders and esteemed academics that offers a fresh review of the war and the critical Australian and Canadian decisions regarding it
