Understanding and Assessing Trauma in Children and Adolescents Kathleen Nader, 2007-09-26 In this volume Kathleen Nader has compiled an articulate and comprehensive

guide to the complex process of assessment in youth and adolescent trauma There are many issues that are important to evaluating children and adolescents and it is increasingly clear that reliance on just one type of assessment does not provide the most accurate results From history to recent advances this book covers a wide range of methods and measures for assessing trauma including case examples to illustrate the integration of these different facets Altogether the broad scope and inclusive depth of this work make it an essential addition to the field of trauma assessment **Choice**, 2009 Recent Research in Personality Disorders Joel Paris, 2008 This issue on Recent Research on Personality Behaviors discusses diagnosis epidemiology etiology outcome and treatment for these perplexing disorders Topics include Diagnosis Dimensional diagnosis for PDs Improving categorical diagnosis of PDs Separating traits from personality disorders Epidemiology The community prevalence of PDs The clinical prevalence of PDs Etiology Genetics of PDs Neurobiological and imaging studies The neurobiology of psychopathy Child development and PDs Outcome The long term outcome of PDs Mechanisms of recovery in PDs Treatment Pharmacological and psychotherapeutic treatments Managing suicidality Future directions in PD research Social Work Perspectives on Human Behaviour Margarete Parrish, 2014-08-16 Using a bio psychosocial framework this popular textbook explains the wide basis of perspectives on which we build an understanding of people's behaviours and why and how we respond in the way we do This book accessibly explains key concepts including attachment trauma developmental psychology and oppression to highlight and enhance social workers understanding of practice Thoroughly updated since its popular first edition the book now includes A brand new chapter on Attachment More coverage of neurological concepts and their influence on behaviour Expanded material on older people and resilience crime and violence against black and minority ethnic groups and domestic violence issues More coverage of mental health alcohol and drugs and their impact on behaviour Fully updated to reflect the Munro report and recent social worker task force recommendations this new edition also includes brand new and additional case studies and pedagogy making this a practical insightful and wonderfully comprehensive text suitable for all students of social work This second edition is a most inclusive accessible and fully updated text It provides a thorough overview of the major theories and concepts and brings these to life with case examples The inclusion of contemporary issues such as domestic abuse is a welcome feature I would fully recommend this text to any student studying for a social work qualification Debbie Thackray Manchester Metropolitan University UK This second edition expands on topics that are vital to good social work practice The chapters on attachment and trauma are particularly well written and speak to topics often overlooked in academic texts The sections on foetal alcohol syndrome FAS provide readers with essential knowledge that will enhance practice on many levels Although this has been written in the context of social work practice this important book will be compulsory reading for a broad range of students I consider this an invaluable contribution to any student library Jill Davey Framework Lead for Social Work Sociology Social Policy and Anthropology Bournemouth University UK This is the most useful text I have ever found for teaching social care

and youth students the basic explanatory frameworks for human behaviour It is superbly balanced in that it gives weight to all perspectives and proffers critiques of key theories It is also very strong in applying theory to practice a skill which is always difficult to develop in students Particular areas of strength are the chapters on attachment and mental health trauma The work is an engaging read as it includes some fascinating historical insights and illustrations as well as contemporary case studies I will certainly recommend it to my students Gwen Chaney Course Leader for Social Care Faculty Lead for Learning and Teaching University of Gloucestershire UK Separation-individuation and Disordered Eating in Adolescence Janet Wendy Eggert,2007 Journal of Education for Social Work ,2001 **Highs & Lows** Lorraine Greaves,Nancy Poole,2007 Women s and girls substance use is an important health economic and social issue in Canada However most books about alcohol and other drug use do not address the unique needs and circumstances of this population Highs Lows draws on the latest theory and research to offer strategies for improving practice and developing policy to support women with substance use problems This unique book includes contributions from nearly 100 experts on women s substance use including psychiatrists psychologists social workers clinical therapists health promoters academics alternative health care providers women s health advocates and women who have personally been affected by substance use The book includes in depth chapters on the interconnection of trauma mental health and substance use problems for women pregnancy mothering and substance use innovative treatment harm reduction and prevention programs designed with women s needs in mind challenges and opportunities for improved research treatment and policy development Highs Lows also includes snapshots of the latest in women centred research treatment and policy innovations statistics on women s substance use in Canada women s personal narratives of their experiences of substance use problems Highs Lows is a valuable resource for program developers and administrators researchers and policy makers therapists and counsellors and educators and students It is an ideal choice as a course text on this topic Highs Lows was developed through a partnership between the British Columbia Centre of Excellence for Women s Health and the Centre for Addiction and Mental Health **Child Development** Robert Stephen Feldman,2006 Appealing to the many different backgrounds and career goals of individuals interested in child development this book offers current and balanced coverage of theory and research with a focus on the application of that research This chronologically arranged text is filled with useful learning tools Feldman s unique approach illustrates the scope and diversity of the field of child and adolescent psychology and capitalizes on readers inherent interest in the subject by asking them to relate what they are learning to their own experiences A lively conversational writing style helps to create dynamic and engaging coverage of many chapter topics including behavioral genetics ethnography brain development cultural differences in autobiographical memories emotional intelligence emotional regulation and relational aggression home schooling teenage stress alcohol consumption use of Prozac and childhood depression adolescent Web surfing and the downside of self esteem For individuals with careers and or an interest in the field of child and adolescent development

Personality Disorders in Childhood and Adolescence Arthur Freeman, Mark A. Reinecke, 2007-08-10 Personality traits are pervasive and enduring patterns of the ways individuals perceive, relate to, think about, and behave within their environment. When these traits become inflexible and maladaptive, they constitute personality disorders. This edited volume will explore the clinical reality of personality disorders in the especially vulnerable population of children and adolescents. Chapters will cover topics such as aggression, attention seeking, and the sensitive child.

Development Across the Life Span Robert Stephen Feldman, 2003 This comprehensive and integrated text provides students with a broad overview of the field of human development, covering the entire range of human life from the moment of conception through death, and focusing on physical, cognitive, and social and personality development. It covers basic theories and research findings as well as highlighting current applications outside the laboratory.

Behavior Disorders of Childhood Rita Wicks-Nelson, Allen C. Israel, 2003 This comprehensive research-based introduction to childhood behaviour disorders provides a sensitive and thorough examination of the field by covering its central issues, theoretical and methodological underpinnings, descriptions, and discussions of numerous disorders, clinical and research information, and treatment approaches. Rich with illustrations and examples, the book highlights contemporary areas of research and clinical work within the various disorders, stressing empirically supported treatments and the prevention of behaviour problems. The book should keep students on top of contemporary social concerns, including the effects of child abuse, poverty, divorce, research ethics, medications used for treatment, and educational inclusion.
