House of Commons - Committee of Public Accounts: Progress in Delivering the Thameslink Programme - HC 296 Great Britain: Parliament: House of Commons: Committee of Public Accounts,2013-10-29 The first proposals to modernize the Thameslink route and increase capacity were developed by a succession of rail industry sponsors but nothing much happened until the Department for Transport became sponsor in 2005 The Department has delivered the first phase of the infrastructure project under budget and on time The other two aspects of the programme are going less well The procurement of new trains through a 1.6 billion PFI deal has taken over three years longer than expected And the timetable and approach for letting the new franchise have been revised The planned completion date has been put back to 2018 But meeting the timetable for delivering the new trains will be very demanding and risky The Committee is also sceptical about using PFI to fund this project It is alarming that the Department compared the PFI option against only one other private sector option and did not construct a public sector comparator to understand better the relative costs risks and rewards of choosing a PFI funding route over a public one Another source of worry is the small size of the Department s core Thameslink team just five people for a programme of this size and complexity The impression that there is a scarcity of these skills is reinforced by the apparent need to move the key civil servant leading the Thameslink team the man whose experience skills and continuity have been crucial to the delivery of the programme over to the High Speed 2 team **Hearings** United States. Shard Connor Martin, 2021-10-15 Joseph Jones the elderly president of the secret organization known as the POCF had been asked a pressing favor by his best friend days after his largest failure The favor was to retrieve his son a college student known as Jimmy Pierce to come back and see him for the first time This however brings him to remember traumatizing times when he was younger Jimmy Pierce a football player for the University of Michigan is preparing for the most challenging game of his life the game being against his heated rival Ohio State Everything leading up to the game seemed well The outcome however was much more surprising The earthquake occurred during the second quarter of the game For an unknown reason it occurred destroying the city of Ann Arbor and diverting the outcomes of both Jimmy and Joe who in some way meet each other in the most bizarre of circumstances Both of them finding a fight just for them to travel from Michigan to West Virginia where Jimmy's dad is residing Eventually this escapade turns into something more than a rough road trip involving disaster ramage and a powerful artifact that can decide the fate of the world and who gets to operate in the shadows
