The Architecture of Desire Solangel Maldonado, 2024-05-21 Explores the reach of the law into our most personal and private romantic lives The Architecture of Desire examines how the law influences our most personal and private choices who we desire and choose as intimate partners and explores the psychological economic and social effects of these choices Romantic preferences as shaped by law perpetuate segregation and subordination by limiting on the basis of race individuals prospects for marriage and marriage like commitments as well as economic and social mobility The book begins by tracing the legacy of slavery anti miscegenation segregation and racially discriminatory immigration laws to show how this legal landscape facilitated the residential economic and social distance between racial and ethnic groups which in turn continue to shape romantic preferences today Solangel Maldonado argues that the law further influences intimate choices by structuring the spaces within which individuals meet and interact via practices such as redlining gentrification and zoning Maldonado includes studies of online and offline dating preferences to demonstrate that romantic predilections follow a gendered racial hierarchy in which Whites are at the top African Americans at the bottom and depending on skin tone Asian Americans and Latinos in the middle These preferences may be explicit implicit or both but they are usually the result of stereotypes reflected in social and cultural norms Furthermore since marriage confers substantial legal economic and social advantages sexual racism further limits an individual's opportunity to find a partner and reap these benefits Finally the book proposes ways to minimize the law's influence over who we desire love and bring into our families such as changes to dating platforms as well as to housing education and transportation policies National 4-H Club News , 1949 Dixie's Italians Jessica Barbata Jackson, 2020-04-15 In the late nineteenth and early twentieth centuries tens of thousands of Southern Italians and Sicilians immigrated to the American Gulf South Arriving during the Jim Crow era at a time when races were being rigidly categorized these immigrants occupied a racially ambiguous place in society they were not considered to be of mixed race nor were they people of color or white In Dixie's Italians Sicilians Race and Citizenship in the Jim Crow Gulf South Jessica
