What Is World Literature Translationtransnation:

What Is World Literature? David Damrosch, 2018-06-05 World literature was long defined in North America as an established canon of European masterpieces but an emerging global perspective has challenged both this European focus and the very category of the masterpiece The first book to look broadly at the contemporary scope and purposes of world literature What Is World Literature probes the uses and abuses of world literature in a rapidly changing world In case studies ranging from the Sumerians to the Aztecs and from medieval mysticism to postmodern metafiction David Damrosch looks at the ways works change as they move from national to global contexts Presenting world literature not as a canon of texts but as a mode of circulation and of reading Damrosch argues that world literature is work that gains in translation When it is effectively presented a work of world literature moves into an elliptical space created between the source and receiving cultures shaped by both but circumscribed by neither alone Established classics and new discoveries alike participate in this mode of circulation but they can be seriously mishandled in the process From the rediscovered Epic of Gilgamesh in the nineteenth century to Rigoberta Mench's writing today foreign works have often been distorted by the immediate needs of their own editors and translators Eloquently written argued largely by example and replete with insightful close readings this book is both an essay in definition and a series of cautionary tales What is World Literature? David Damrosch, 2003-03-30

INTRODUCTION Goethe coins a phrase PART ONE CIRCULATION Gilgamesh's quest The pope's blowgun From the old world to the whole world PART TWO TRANSLATION Love in the necropolis The afterlife of Mechthild von Magdeburg Kafka comes home PART THREE PRODUCTION English in the world Rigoberta Mench in print The poisoned book CONCLUSION World enough and time *Contested Identities* Roger Nicholson, Gertrud Szamosi, Claudia Marquis, 2015-09-04 This volume brings together essays that individually and collectively address the force of the literary text with regard to problematic identities They work out of shared concerns with literary representations of this issue in different regions nations and communities that often prove divided they pursue questions related to textual identity where the literary text itself is contested internally or in its generic and historical relations In sum these studies actively test identity as social or literary concept discovering in difference the very condition of a useful if paradoxical sense of personal or textual coherence What happens to us when we move between different cultures or different societies defined in geographical or historical terms What happens to texts and textual practices in these same circumstances What happens to us when we are obliged to adapt to a new social order Homi Bhabha speaks of cultural difference as calling into play what he calls cultural translation What happens to identity the narrative that fashions a continued sense of self in this case Difference raised to alterity demands that we accord functional and philosophical value not just to other aspects but also to the aspect of the other At the level of personal or textual agency however difference contests and threatens to subvert stable selfhood composing a scene of conflict Even so it often proves to be instrumental in recharging a sense of the cultural valence of the literary text not least

by virtue of its political implications In this regard the border where difference materialises has considerable presence in contributions to this volume prompting appreciation of texts that work on or travel across such borders however haphazardly and dangerously but also those that compose border textualities

Mexican Literature as World Literature Ignacio M. Sánchez Prado, 2021-09-09 Honorable Mention from the 2022 International Latino Book Awards for Best Nonfiction Multi Author Chapter 15 by Carolyn Fornoff is Winner of the 2022 Best Article in the Humanities Award Latin American Studies Association Mexico Mexican Literature as World Literature is a landmark collection that for the first time studies the major interventions of Mexican literature of all genres in world literary circuits from the 16th century forward This collection features a range of essays in dialogue with major theorists and critics of the concept of world literature Authors show how the arrival of Spanish conquerors and priests the work of enlightenment naturalists the rise of Mexican academies the culture of the Mexican Revolution and Mexican neoliberalism have played major roles in the formation of world literary structures The book features major scholars in Mexican literary studies engaging in the ways in which modernism counterculture and extinction have been essential to Mexico's world literary pursuit as well as studies of the work of some of Mexico's most important authors Sor Juana Carlos Fuentes Octavio Paz and Juan Rulfo among others These essays expand and enrich the understanding of Mexican literature as world literature showing the many significant ways in which Mexico has been a center for world literary circuits

Contemporary Children's and Young Adult Literature Charlotte Beyer, 2021-11-01 This book explores contemporary children's and young adult novels writing back to history and oppression Divided into three distinct yet interconnected parts this thematic study analyses selected novels from across the globe drawing on current critical debates to investigate how these narratives raise vital questions about identity power and language Examinations of children's and young adult novels from Britain Ireland Sweden the USA Australia and New Zealand offer fresh readings of established texts and provide important critical perspectives on lesser known works The book also examines the use of genre in children's and young adult literature including crime fiction dystopia coming of age and historical fiction Addressing vital social justice themes in contemporary children's and young adult novels such as human trafficking postcolonialism disaster trauma and gender and race inequality the book presents a critically informed analysis of these compelling literary works and their engagement with social and cultural debates

The Canonical Debate Today Liviu Papadima, David Damrosch David Damrosch, Theo D'haen Theo D'haen, 2011-03-10 The Canonical Debate Today Crossing Disciplinary and Cultural Boundaries re-enacts the canonical issues current in the 90s from a new perspective triggered by the changes that occurred worldwide in understanding the concepts and the status of theory in the legacy of literary studies within the field of humanities and in cultural production and reception During the last decade discussions of globalization mostly took into account its impact on the status of academic disciplines such as comparative literature or cultural studies or the reconfiguration of national literary fields These debates do not dispense with canonicity altogether but

make it more urgent and necessary Canons seen as sets of norms or regulatory practices are central to the formation of disciplines to the recognition and transmission of values even to the articulation of discourses on identity on various levels The three sections of the volume deal with three interrelated subjects theories and applicable contexts of the canon Canons and Contexts recent transformations in the area of literary studies in response to the task of canon formation Reshaping Literary Studies and the challenges brought to the understanding of the canon s by the current process of re defining literary and cultural boundaries Transgressing Literary and Cultural Boundaries This volume will appeal to researchers teachers and students of cultural studies comparative literature and literary theory *The Bloomsbury Handbook of Modern Chinese Literature in Translation* Cosima Bruno, Lucas Klein, Chris Song, 2023-10-19 Offering the first systematic overview of modern and contemporary Chinese literature from a translation studies perspective this handbook provides students researchers and teachers with a context in which to read and appreciate the effects of linguistic and cultural transfer in Chinese literary works Translation matters It always has of course but more so when we want to reap the benefits of intercultural communication In many universities Chinese literature in English translation is taught as if it had been written in English As a result students submit what they read to their own cultural expectations they do not read in translation and do not attend to the protocols of knowing engagements and contestations that bind literature and society to each other The Bloomsbury Handbook of Modern Chinese Literature in Translation squarely addresses this pedagogical lack Organised in a tripartite structure around considerations of textual social and large scale spatial and historical circumstances its thirty plus essays each deal with a theme of translation studies as emerged from the translation of one or more Chinese literary works In doing so it offers new tools for reading and appreciating modern and contemporary Chinese literature in the global context of its translation offering in depth studies about eminent Chinese authors and their literary masterpieces in translation The first of its kind this book is essential reading for anyone studying or researching Chinese literature in translation Globalism in the Middle Ages and the Early Modern Age Albrecht Classen, 2023-09-05 Although it is fashionable among modernists to claim that globalism emerged only since ca 1800 the opposite can well be documented through careful comparative and transdisciplinary studies as this volume demonstrates offering a wide range of innovative perspectives on often neglected literary philosophical historical or medical documents Texts images ideas knowledge and objects migrated throughout the world already in the pre modern world even if the quantitative level compared to the modern world might have been different In fact by means of translations and trade for instance global connections were established and maintained over the centuries Archetypal motifs developed in many literatures indicate how much pre modern people actually shared But we also discover hard core facts of global economic exchange import of exotic medicine and on another level intensive intellectual debates on religious issues Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable often desirable and at times feared of course The pre modern world was much more on the move

and reached out to distant lands out of curiosity economic interests and political and military concerns Diplomats crisscrossed the continents and artists poets and craftsmen traveled widely We can identify for instance both the Vikings and the Arabs as global players long before the rise of modern globalism so this volume promises to rewrite many of our traditional notions about pre modern worldviews economic conditions and the literary sharing on a global level as perhaps best expressed by the genre of the fable

World Literature Today ,2003 **Teaching World Literature** David Damrosch,2009 This is an exciting and unsettling time to be teaching world literature writes David Damrosch Because the range of works taught in world literature courses has expanded enormously both historically and geographically the task of selection and of teacher preparation has grown more challenging Teachers of this field must grapple with such issues as coverage cultural difference and the role of translation in the classroom Should one emphasize masterpieces or traditions concepts or themes How does one avoid making a work bear the burden of representing an entire tradition To what extent should anthologies be used Can a course be global in scope and yet focus on a few works authors moments This collection of thirty two essays in the MLA series Options for Teaching offers an array of solutions to these challenges reflecting the wide variety of institutions courses and students described by the contributors An annotated bibliography is provided with a listing of useful Web sites

Forthcoming Books Rose Army,2003-04 The Literary Review ,2006 **The Translation Zone** Emily Apter,2011-10-16 Translation before 9 11 was deemed primarily an instrument of international relations business education and culture Today it seems more than ever a matter of war and peace In The Translation Zone Emily Apter argues that the field of translation studies habitually confined to a framework of linguistic fidelity to an original is ripe for expansion as the basis for a new comparative literature Organized around a series of propositions that range from the idea that nothing is translatable to the idea that everything is translatable The Translation Zone examines the vital role of translation studies in the invention of comparative literature as a discipline Apter emphasizes language wars including the role of mistranslation in the art of war linguistic incommensurability in translation studies the tension between textual and cultural translation the role of translation in shaping a global literary canon the resistance to Anglophone dominance and the impact of translation technologies on the very notion of how translation is defined The book speaks to a range of disciplines and spans the globe Ultimately The Translation Zone maintains that a new comparative literature must take stock of the political impact of translation technologies on the definition of foreign or symbolic languages in the humanities while recognizing the complexity of language politics in a world at once more monolingual and more multilingual
