Whose Muse Art Museums And The Public Trust:

Whose Muse? James Cuno, 2018-06-05 During the economic boom of the 1990s art museums expanded dramatically in size scope and ambition They came to be seen as new civic centers on the one hand as places of entertainment leisure and commerce on the other as socially therapeutic institutions But museums were also criticized for everything from elitism to looting or illegally exporting works from other countries to exhibiting works offensive to the public taste Whose Muse brings together five directors of leading American and British art museums who together offer a forward looking alternative to such prevailing views While their approaches differ certain themes recur As museums have become increasingly complex and costly to manage and as government support has waned the temptation is great to follow policies driven not by a mission but by the market However the directors concur that public trust can be upheld only if museums continue to see their core mission as building collections that reflect a nation's artistic legacy and providing informed and unfettered access to them The book based on a lecture series of the same title held in 2000 2001 by the Harvard Program for Art Museum Directors also includes an introduction by Cuno and a fascinating and surprisingly frank roundtable discussion among the participating directors A rare collection of sustained reflections by prominent museum directors on the current state of affairs in their profession this book is without equal It will be read widely not only by museum professionals trustees critics and scholars but also by the art loving public itself

Museums in Motion Edward P. Alexander, Mary Alexander, 2008 In 1979 Edward P. Alexander's *Museums in Motion* was hailed as a much needed addition to the museum literature In combining the history of museums since the eighteenth century with a detailed examination of the function of museums and museum workers in modern society it served as an essential resource for those seeking to enter to the museum profession and for established professionals looking for an expanded understanding of their own discipline Now Mary Alexander has produced a newly revised edition of the classic text bringing it the twenty first century with coverage of emerging trends resources and challenges New material also includes a discussion of the children's museum as a distinct type of institution and an exploration of the role computers play in both outreach and traditional in person visits

The Routledge Companion to Museum Ethics Janet Marstine, 2012-05-23 *Routledge Companion to Museum Ethics* is a theoretically informed reconceptualization of museum ethics discourse as a dynamic social practice central to the project of creating change in the museum Through twenty seven chapters by an international and interdisciplinary group of academics and practitioners it explores contemporary museum ethics as an opportunity for growth rather than a burden of compliance The volume represents diverse strands in museum activity from exhibitions to marketing as ethics is embedded in all areas of the museum sector What the contributions share is an understanding of the contingent nature of museum ethics in the twenty first century its relations with complex economic social political and technological forces and its fluid ever shifting sensibility The volume examines contemporary museum ethics through the prism of those disciplines and methods that have shaped it

most It argues for a museum ethics discourse defined by social responsibility radical transparency and shared guardianship of heritage And it demonstrates the moral agency of museums the concept that museum ethics is more than the personal and professional ethics of individuals and concerns the capacity of institutions to generate self reflective and activist practice

Museum Gallery Interpretation and Material Culture Juliette Fritsch, 2012-12-06 Museum Gallery Interpretation and Material Culture publishes the proceedings of the first annual Sackler Centre for Arts Education conference at the Victoria and Albert Museum V A in London The conference launched the annual series by addressing the question of how gallery interpretation design and management can help museum visitors learn about art and material culture The book features a range of papers by leading academics museum learning professionals graduate researchers and curators from Europe the USA and Canada The papers present diverse new research and practice in the field and open up debate about the role design and process of exhibition interpretation in museums art galleries and historic sites The authors represent both academics and practitioners and are affiliated with high quality institutions of broad geographical scope The result is a strong consistent representation of current thinking across the theory methodology and practice of interpretation design for learning in museums

Trouble in Paradise Alan Wallach, 2024-11-04 A collection of highly readable critical essays 1977 2023 by a leader in the field of American social art history Among the subjects Alan Wallach explores are the art of Thomas Cole patronage of the Hudson River School so called Luminism the rise of the American art museum the historiography of American art scholarship and the art market as well as the work of Augustus Saint Gaudens Rockwell Kent Grant Wood Philip Evergood and Norman Rockwell Throughout Wallach employs a materialist approach to argue against traditional scholarship that considered American art and art institutions in isolation from their social historical and ideological contexts

Whose Culture? James Cuno, 2012-05-23 The international controversy over who owns antiquities has pitted museums against archaeologists and source countries where ancient artifacts are found In his book *Who Owns Antiquity* James Cuno argued that antiquities are the cultural property of humankind not of the countries that lay exclusive claim to them Now in *Whose Culture* Cuno assembles preeminent museum directors curators and scholars to explain for themselves what s at stake in this struggle and why the museums critics couldn t be more wrong Source countries and archaeologists favor tough cultural property laws restricting the export of antiquities have fought for the return of artifacts from museums worldwide and claim the acquisition of undocumented antiquities encourages looting of archaeological sites In *Whose Culture* leading figures from universities and museums in the United States and Britain argue that modern nation states have at best a dubious connection with the ancient cultures they claim to represent and that archaeology has been misused by nationalistic identity politics They explain why exhibition is essential to responsible acquisitions why our shared art heritage trumps nationalist agendas why restrictive cultural property laws put antiquities at risk from unstable governments and more Defending the principles of art as the legacy of all humankind and museums as instruments of inquiry and tolerance *Whose Culture* brings reasoned

the cultural legacy of masterpieces of painting and the development of the encyclopedic museum Structuring the book as a joint biography Molesworth describes how Morgan used his vast wealth to bring European art to an American citizenry while Fry brought high standards of art history from the world of connoisseurs to a general public Their clashes over the purpose and functions of the Met which ultimately led to Fry's ouster reveal the forces personal and societal that helped to shape the Metropolitan Museum and other major American cultural institutions during the twentieth century **Why the Museum**

Matters Daniel H. Weiss, 2022-11-29 A powerful reflection on the universal art museum considering the values critical to its history and anticipating its evolving place in our cultural future Art museums have played a vital role in our culture drawing on Enlightenment ideals in shaping ideas advancing learning fostering community and providing spaces of beauty and permanence In this thoughtful and often personal volume Daniel H. Weiss contemplates the idea of the universal art museum alongside broad considerations about the role of art in society and what defines a cultural experience The future of art museums is far from secure and Weiss reflects on many of the difficulties these institutions face from their financial health to their collecting practices to the audiences they engage to ensuring freedom of expression on the part of artists and curators In grappling with these challenges Weiss sees a solution in shared governance His tone is one of optimism as he looks to a future where the museum will serve a greater public while continuing to be a steward of culture and a place of discovery discourse inspiration and pleasure This poignant questioning and affirmation of the museum explores our enduring values while embracing the need for change in a rapidly evolving world *The State of Nonprofit America* Lester M

Salamon, 2012-05-14 Today America's nonprofit organizations seem caught in a force field buffeted by four impulses voluntarism professionalism civic activism and commercialism Too little attention however has been paid to the significant tensions among these impulses Understanding this force field and the factors shaping its dynamics thus becomes central to understanding the future of particular organizations and of the nonprofit sector as a whole In this second edition of an immensely successful volume Lester Salamon and his colleagues offer an overview of the current state of America's nonprofit sector examining the forces that are shaping its future and identifying the changes that might be needed *The State of Nonprofit America* has been completely revised and updated to reflect changing political realities and the punishing economic climate currently battering the nonprofit sector which faces significant financial challenges during a time when its services are needed more than ever The result is a comprehensive analysis of a set of institutions that Alexis de Tocqueville recognized to be more deserving of our attention than any other part of the American experiment
