A Companion to Muslim Ethics Aryn Sajoo,2012-05-15 I B Tauris in association with the Institute of Ismaili Studies Socrates famously said that the unexamined life is not worth living In keeping with this dictum taking ethics seriously means engaging

with the real world where the human sense of right and wrong is daily tested At their best all faith traditions are challenged by such testing and if faith inspired ethics are thought to govern the whole of life their guiding values need constantly to be interpreted by the believer to achieve a practical result In the Muslim tradition this is what the Qur'an really amounts to a call to strive for belief with a social conscience For fourteen centuries Muslim scholars have grappled with the implications of that call in matters of law social practice and theology And in our own time the quests for civil society and the rule of law have much to do with the response given to these ethical questions A Companion to Muslim Ethics explores Islam's core conception of the good shared with other great traditions Leading experts examine issues such as gender equality nonviolence dispute resolution the environment health and finance The volume will appeal to all those interested in how reason faith and circumstance shape difficult moral choices in an increasingly globalised world

Spiritual Purification in Islam Gavin Picken, 2011-03-21 Purification of the soul is a principle that is central to understanding Islamic spirituality but despite this relatively little has been written explicitly in the Islamic tradition regarding this discrete method of spiritual purification This book examines the work of a scholar of this discipline al-Harith al-Muhāsibī who lived and worked during the classical Islamic period under the Abbāsids Although al-Muhāsibī was well known for his skills in many disciplines including the Qur'an Prophetic narration and scholastic theology it is his mastery in the field of Islamic spirituality and moral psychology for which he is best remembered Assessing the extent to which the political social and economic factors played a part in his life and work Gavin Picken provides a comprehensive overview of his work and its great significance in the development of Islamic spirituality Reconstructing his life in chronological order and providing the most comprehensive appraisal of his works to date it explores a facet of al-Muhāsibī's teaching which as yet has not been studied namely his understanding concept and methodology regarding the purification of the soul within the Islamic paradigm As such it will be of great interest not only to researchers and students of Sufism but also to scholars of comparative spirituality and mysticism
