Leonard Bernstein, Stephen Sondheim, Arthur Laurents, *Selections from West Side Story* Leonard Bernstein, Carol Klose, 2007 Piano Duet Selections Eight piano duets from the beloved musical America Cool I Feel Pretty Maria One Hand One Heart Something's Coming Somewhere Tonight **Leonard Bernstein: West Side Story** Nigel Simeone, 2017-07-05 One of the Broadway musicals that can genuinely claim to have transformed the genre West Side Story has been featured in many books on Broadway but it has yet to be the focus of a scholarly monograph Nigel Simeone begins by exploring the long process of creating West Side Story including a discussion of Bernstein's sketches early drafts of the score and script as well as cut songs The core of the book is a commentary on the music itself West Side Story is one of the very few Broadway musicals for which there is a complete published orchestral score as well as two different editions of the piano vocal score The survival of the original copied orchestral score and the reminiscences of Sid Ramin and Irwin Kostal reveal details of the orchestration process and the extent to which Bernstein was involved in this Simeone's commentary considers musical characteristics and compositional techniques used to mirror the drama for example the various uses of the tritone motivic development the use and reinvention of Broadway and other conventions the creation of dramatic continuity in the score through the use of motifs and other devices the unusual degree of dissonance and rhythmic complexity at least for the time and the integration of Latin American dance forms Mambo Huapango and so on Simeone also considers the reception of West Side Story in the contemporary press The stir the show caused included the response that it was the angular edgy score that made it a remarkable achievement Not all reviews were uncritical Finally the book looks in detail at the making of the original Broadway cast recording made in just one day included on the accompanying CD **West Side Story Vocal Selections Japanese Edition** Hal Leonard Corp. Staff, 2010-01-01 **West Side Story, Bernstein - Simplified (vocal Selections)**. who only occasionally deal with music materials It will surely relieve the stress level for general catalogers by providing practical guidelines as well as clarifying and explaining the most commonly used classification systems in the United States the Dewey Decimal Classification DDC the Library of Congress Classification LCC and the Alpha Numeric System for Classification of Recordings ANSCR Also included is a general historical overview of music classification from early attempts to organize specific collections to the efforts of Oscar Sonneck and others to adapt fundamental principles of classification to the distinctive characteristics of music materials as well as a discussion of the special needs of the users of those materials
