Way Out Obamacare Sally Pipes:

The Way Out of Obamacare Sally C. Pipes, 2015-12-15 President Barack Obama has declared that his signature health reform law the Patient Protection and Affordable Care Act is here to stay But his days in the White House are numbered and the law has failed insurance premiums and deductibles have skyrocketed patients are losing access to doctors and economic growth has been crushed In this Broadside Sally C Pipes provides an actionable blueprint for health care reform this campaign season which the next president can implement on Day One This book provides a replacement plan for Obamacare one that will provide affordable accessible quality health care for all Americans **The Growth Deficit** James

Piereson, 2022-11-01 During the 1980s and 1990s European economies went through a period of slowing economic growth and high unemployment what some economists described as secular decline On the other side of the Atlantic the United States enjoyed a robust recovery during those years by reducing taxes eliminating regulations on business and tightening monetary policy Now after two decades of subpar growth the question is whether or not the American economy has entered into its own era of secular decline This Broadside examines this troubling development recognizing that there are no easy solutions to the problem Lacking workable solutions Americans will have to adjust to a future of slow economic growth with all that implies for inter generational progress American strength abroad and political conflict at home **Why We Must**

Defend the Electoral College Trent England, 2020-05-05 Is the Electoral College racist and a scam as Rep Alexandria Ocasio Cortez claims Or was Alexander Hamilton right when he declared that if it be not perfect it is at least excellent In this Broadside Trent England explains why we have the Electoral College how it shapes American politics and why preserving it is necessary to maintain our republican form of government With an organized campaign trying to hijack the constitution s state by state system in favor of a direct election now is the time for Americans to come to the defense of the Electoral College **The Truth About Obamacare** Sally C. Pipes, 2010-07-13 In her new book The Truth About Obamacare Sally C

Pipes president of the Pacific Research Institute and an acknowledged expert on health care reform reveals what Democrats in Congress and President Obama don t want you to know Obamacare is even worse than most critics suspect Debunking the myths that the current administration has touted Pipes shows exactly what the new health care law will mean for you your family your doctor and your wallet She also reveals how contrary to its promises Obamacare will make health care more expensive limit your options lead to deteriorating medical care and weaken America s already frail economy **The Next**

Pandemic Betsy McCaughey, 2020-05-19 America is suffering from two public health crises One is caused by a virus The other a brutal economic shutdown is something we have brought on ourselves Both the virus and the shutdown are deadly But many more Americans will likely die from getting laid off than from the virus The shutdown wasn t caused by the virus It was a frantic response to America s unpreparedness For more than two decades a dozen official reports sounded the alarm The career pols and federal bureaucrats did nothing Message to Washington DC No more commissions and televised hearings It s

time to act In this incendiary Encounter Broadside Betsy McCaughey shows how to battle the next pandemic without an economic shutdown including technologies to make workplaces healthier protections for hospital workers and severing dependence on China for medical supplies Despite the suffering there s reason for optimism America will be ready for the next pandemic

Getting America Back to Work Andrew F. Puzder,2020-04-21 Over the last two months the COVID 19 pandemic has thrown a robust American economy into disarray completely shutting down major business sectors and putting millions of people out of work overnight With so much at stake and with all options seemingly on the table it is crucial that we commit ourselves to the long term goal of restoring the sorts of free market policies that led to the Trump Economic Boom prior to the China Virus crisis Although massive government interventions that Barack Obama pursued following the Great Recession might presently appear beneficial or even essential a return to Obama s new normal of stagnant growth would lead to disastrous and persisting economic damage We must instead return as soon as is safely possible to the Trump model of economic prosperity that produced the strongest labor market in modern history

The False Promise of Single-Payer Health Care Sally C. Pipes,2018-03-06 A government takeover of the US health care system has never looked more plausible Support for the idea is at an all time high Two thirds of Democratic voters favor single payer health care even one in four Republicans is on board In this Broadside Sally C Pipes makes the case against single payer by offering evidence of its devastating effects on patients in Canada the United Kingdom and even the United States Long wait times substandard care lack of access to innovative treatments huge public outlays and spiraling costs are endemic to single payer Those are hardly outcomes we should consider foisting upon the American health care system

The Fracturing of the E.U. Bruce S. Thornton,2017-12-05 The long simmering crises challenging the European Union have worsened with the 2008 financial crisis the influx of Middle East refugees in 2015 several bloody terrorist attacks and England s departure from the E U in 2016 Yet these are all the wages of persistent flaws in the idea of the Union itself Excessive regulations welfare and taxes impede economic growth Centralization of power in Brussels has created a democracy deficit and lessened autonomy and freedom Populations are shrinking and unvetted and unassimilated migrants have increased crime and terrorist attacks All these problems reflect the lack of any unifying set of beliefs and principles that could unite 27 diverse cultures and peoples Europe is fractured and adrift its peoples unsure for what they should fight or die for

Checking Progressive Privilege Carrie L. Lukas,2019-07-23 Progressives have taught us that it doesn t take overt discrimination to make society unfair Privilege afforded to different groups such as whites males and heterosexuals can infect our cultural institutions creating unfair burdens for other groups But one form of privilege has been overlooked progressive privilege Today the progressive worldview is depicted as what is normal right and worth celebrating by our cultural institutions Conservatives are marginalized and stereotyped in entertainment news academia and throughout our culture Progressive privilege isn t just unfair to conservatives it has warped our entire political environment and made our country more divided Recognizing

progressive privilege is the first step to ending it so that we can have a fairer more truly inclusive society **Trump vs. the Leviathan** Chris Buskirk,2018-07-10 The success of the Trump presidency will be judged in large part on his ability to reduce the size and scope of the deep state The unelected unaccountable permanent bureaucratic leviathan that winds itself around the body and squeezes its life out must be dismantled if Trump s legacy is to be a permanent restoration of republican government Fortunately his administration is doing that Quietly and without fanfare he is reducing oppressive regulation and reining in what has become the fourth all powerful branch of government There is much yet to be done but less than two years in President Trump has taken steps to return power to its rightful home the sovereign American citizen **Trump vs. the Media** Mollie Ziegler Hemingway,2017-04-25 How bad is the problem of media bias The answer can be summed up in a few words President Donald J Trump Whether you love him or hate him there s no question that Trump gained a huge amount of support for his willingness to criticize the media in harsh and unsparing terms The media seems baffled by the fact that it s lost the trust of the American people It has responded by being extraordinarily defensive and doubling down on histrionic attacks However the American system has always depended on a strong and trusted media to hold those in power accountable Journalist Mollie Hemingway looks at the impressive list of media failure that led us to this unique moment and asks Is it possible for the media to recover its credibility before it s too late **How China's Communist Party Made the World Sick** Bill Gertz,2020-04-28 The outbreak of a deadly new form of pneumonia that began in Wuhan China in December 2019 has shown the world that the regime in Beijing poses the most serious threat to world peace and freedom since the Soviet Union Early missteps by China s ruling Communist Party repressing doctors who sought to alert China and the world to the dangers of the novel coronavirus and permitting millions to travel out of Wuhan for a holiday caused the global pandemic now devastating populations and economies around the world In this important essay Bill Gertz shows how China s lies and obfuscations imperiled the world **Operation Drain the Swamp** Adam Andrzejewski,2018-05-22 President Donald J Trump said he wants to drain the swamp But is it a swamp or an ocean It s about time the American people had some hard facts regarding the federal bureaucracy In Operation Drain The Swamp we expose all of it We showcase who receives how much where they work and what they do Most importantly we reveal how much these bureaucrats cost the American taxpayer During the 2016 presidential election the supporters of Donald Trump on the right and even those supporting Bernie Sanders on the left felt that the system was rigged for insiders Now we highlight the facts and stories to prove it In Operation Drain The Swamp we offer a step by step guide to civil service reforms **The Cure for Obamacare** Sally C. Pipes,2013-07-02 This Broadside will look at the changes that can be made to halt the full implementation of the law over the next few years including repealing parts of the act that are unpopular with members of both parties These parts are the medical device tax IPAB the new 3.8 percent tax on unearned income to name a few Also covered will be potential reforms to Medicare and Medicaid two major entitlement programs that if not reformed to ensure sustainability for those

who really need these programs will be bankrupt by 2024 There are a number of important lawsuits that will come before the courts this year on issues such as the exchanges employer and individual mandates and the contraception mandate These will be highlighted and their potential impact on the law will be discussed Finally there is the issue of defunding the Medicaid expansion and the federal tax subsidies which unless changed will add tremendously to the cost of health care in this country With the current fiscal crisis these programs must be scaled back Like welfare reform the battle to bring about meaningful health care reform is a long term fight We must not give up The election of 2016 will be very important for the future direction of health care A reform plan will be offered If Obamacare is not repealed and replaced the U S will be on the road to a single payer Medicare for All system such as exists in Canada We too will face long waiting lists rationed care and a lack of access to the latest technology and treatments Examples will be given America will be on the Road to Serfdom and there will be no off ramp It's Time to Let America Work Again Andrew F. Puzder,2020-08-04 As we begin the process of

reopening our economy it is critical that we get back to work The economic shutdown was intended to slow the spread of a lethal virus not to permanently sacrifice our freedoms and certainly not to expand government power and fundamentally transform America During the shutdown we ve learned what that transformed America would look like and it is ugly With millions of people out of work and dependent on government lacking the dignity of a job the security of a paycheck or the opportunity for a better future depression and despair are creating an epidemic within the pandemic of suicides and drug and alcohol addiction While there are risks if we follow safety protocols and protect the vulnerable we can safely reignite our economy as we undo the lockdown eliminate policies that discourage work and enact policies that encourage hiring and growth It s time to reject the transformation to permanent government dependence and return instead to individual freedom and prosperity Losing South Korea Gordon G. Chang,2019-03-26 What would happen if the maniacal tyranny in

Pyongyang took over the vibrant democracy of South Korea Today there is a real possibility that the destitute North Korean regime will soon dominate its thriving southern neighbor with help from the government in Seoul itself More than any South Korean president before him Moon Jae in is intent on achieving Korean union even if it s done on Pyongyang s terms To that end he has been making South Korea compatible with the totalitarian North and distinctly less free He is also removing defenses to infiltration and invasion and taking steps to end his country s only real guarantee of security the alliance with the United States If Moon s policy results in handing Kim Jong Un a final victory and South Korea falls to despotism America will lose the anchor of its western defense perimeter and the free world will be at risk **The Pipes Plan** Sally C.

Pipes,2012-01-09 Obamacare puts government in charge of a sixth of the American economy forces every American to acquire insurance coverage or pay a hefty fine inserts federal bureaucrats into the most intimate decisions about your health issues and medical care and makes rationing inevitable though of course the law doesn t use the word ration And the president s reform of the health care system doesn t even deliver on its own promises it will neither solve the problem of the

uninsured nor lower health care costs Instead Obamacare is already driving up insurance costs and threatening to destroy the quality of care that Americans now take for granted Can we repeal Obamacare and replace it with real health care reform that relies on the free market Yes we can The Pipes Plan is the blueprint **Communist China's War Inside America**

Brian T. Kennedy,2020-06-16 The People s Republic of China and the United States are today at war It is being fought with the use of information politics and finance The Chinese believe that as in all war it would be better to win without engaging the enemy on the battlefield or having to resort to the likes of nuclear weapons if it can be avoided To achieve this China has engaged in a decades long campaign to manipulate and corrupt America s ruling elite This Broadside describes the degree to which Chinese influence has penetrated American society and what will be required to prevent Communist China from winning the struggle in which we find ourselves today **What to Do About the U.N.** Claudia Rosett,2017-03-14

The United Nations is failing abysmally and dangerously in its mission Founded in 1945 as a vehicle to avert war and promote human dignity and freedom the U N has instead become a self serving and ever expanding haven of privilege for the world s worst regimes rife with bigotry fraud abuse and corruption both financial and moral Yet the American foreign policy community treats it as taboo to speak seriously about sidelining supplanting or leaving the U N The usual argument is that the U N may be imperfect but it s all we ve got In this Broadside Claudia Rosett explains why the U N s basic design means it cannot really be reformed and why it is becoming ever more urgent to seek alternatives Rosett argues that it s time to break the taboo and to bring fully into America s foreign policy debates the question of how to dispense with the U N altogether
