Stanley, 2018-07-11 This hands-on approach to teaching digital research skills breaks down each research skill into simple, targeted steps that enable students to research more deeply and to accomplish real-world tasks. Today's rapidly diversifying digital world provides easy access to information, making it increasingly important that students know how to conduct research online. In this book, you'll learn how to transition your instruction of the research process from a print context to a digital one and to expand your own knowledge of how to best assist students at all stages of their research. Using six well-defined steps that she developed in her 26 years of experience as a school librarian, Deb Stanley provides practical strategies for each of the six steps of the research process, accompanied by easily used and replicated lessons and handouts that are applicable and adaptable to all grade levels K-12. Step-by-step instruction links to Common Core state standards and ideas to help students succeed at each stage of the research process makes this title a must-have for any school librarian.

Nonfiction Matters Stephanie Harvey, 1998 A guide to bringing nonfiction into the curriculum in third through eighth grade classrooms with strategies and ideas for reading nonfiction, conducting research, and writing reports. [The Complete Guide to Writing Non-fiction](#) American Society of Journalists and Authors, 1983 [Non-Fiction Text Structures for Better Comprehension and Response](#) Gail Saunders-Smith, 2009 Non-fiction text structures organize information into comprehensible patterns. Knowing how to recognize and use these structures to navigate non-fiction text greatly improves students' understanding of what they read. Gail Saunders-Smith simplifies the process by providing teachers of grades 4-8 with ways to teach each of the five non-fiction text structures: compare-contrast, cause-effect, sequence, procedure, question-answer, and exemplification. Engaging whole-class and small-group activities using written, verbal, image, three-dimensional, and technology responses study skills for locating, recording, and using information, tools for assessing student understanding, and explanations of the text features that organize information within the text structures and mini-lessons for whole-class, small-group, and independent application of students' text structure knowledge. Examples, photographs, student samples, and graphic organizers support your teaching, and a bibliography of professional books and resources for locating leveled non-fiction texts make this a complete, ready-to-use guide for improving student comprehension. *The Publishers' Circular and*
