What are They Saying about Catholic Ethical Method? Todd A. Salzman, 2003 This book introduces readers to the current debate concerning the two predominant Roman Catholic ethical methods that have emerged since Vatican II The two methods investigated are both grounded in the Catholic natural law tradition and are designated as the Basic Goods Theory BGT also known as the New Natural Law Theory and revisionism BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

What are They Saying about New Testament Apocalyptic? Scott M. Lewis, 2004 Scott Lewis begins his volume focusing on New Testament apocalyptic with Albert Schweitzer's famous 19th century book *The Quest for the Historical Jesus* that concludes that both the worldview and the message of Jesus were thoroughly apocalyptic And he brings us to the present with the heated debates generated by the historical Jesus research of the last 20 years and the rebirth of apocalyptic fervor at the beginning of the new millennium The book focuses on five areas 1 the attempts since Schweitzer to define the apocalypse genre and its constituent eschatology and theology 2 the debate over the question concerning the nature of Jesus teaching and proclamation and whether the apocalyptic statements attributed to him are genuine or products of the early church 3 the apocalyptic nature of Paul's proclamation and the central role it plays in his moral exhortation ecclesiology and spirituality 4 the nature of the message of the Book of Revelation and the different approaches to its interpretation 5 the application of apocalyptic theology and eschatology to the life of the church in the form of preaching ethics spirituality and social justice and 6 a concluding reflection A special concern of the book is the reappropriation of the apocalyptic tradition by the modern church in a manner that avoids the many misuses of this genre in the past To this end it is most important that apocalyptic theology be recognized for what it is a theology of hope rather than a theology of fear

What are They Saying about Environmental Theology? John Hart, 2004 This book offers a comprehensive analysis of Catholic teachings on environmental themes by exploring official statements from Rome and the bishops of the Americas as well as from contemporary visionary theologians p 4 cover

Forthcoming Books Rose Arny, 2001 *Reframing Catholic Theological Ethics* Joseph A. Selling, 2016 Traditionally Catholic moral theology has been based upon an approach that over emphasized the role of normative ethics and subsequently associated moral responsibility with following or disobeying moral rules *Reframing Catholic Theological Ethics* offers an alternative ethical method which without destroying any of the valuable insights of normative ethics reorients the discipline to consider human motivation and intention before investigating behavioral options for realizing one's end Evidence from the New Testament warrants the formation of a teleological method for theological ethics which is further

elaborated in the approach taken by Thomas Aquinas Unfortunately the insights of the latter were misinterpreted at the time of the counter reformation Joseph A Selling s analysis of moral theological textbooks demonstrates the entrenchment of a normative method aimed at identifying sins in service to the practice of sacramental confession With a firm basis in the teaching of Vatican II the human person integrally and adequately considered provides the fundamental criterion for approaching ethical issues in the contemporary world The perspective then turns to the crucial question of describing the ends or goals of ethical living by providing a fresh approach to the concept of virtue Selling concludes with suggestions about how to combine normative ethics with this alternative method in theological ethics that begins with the actual ethical orientation of the human person toward virtuous living Virtue and Theological Ethics Salzman; Todd A.,Lawler, Michael G.,2018-10-18 Eight story reflections each based on a different Beatitude offer accounts of immigrant children who fled Central America on their own to escape violence and poverty Artwork created by immigrant youth and meditations written by Jesuit Father Leo O Donovan accompany the stories The Living Tradition of Catholic Moral Theology Charles E. Curran,1992 Catholic moral theology is a living tradition in which each generation must understand appropriate and live the Christian message in the light of its own history culture and time The Catholic tradition argues Charles E Curran in this new meticulously reasoned set of essays must be in dialogue with present realities sometimes criticizing them severely and at other times learning from them Curran begins by examining the tensions existing in the Roman Catholic church today and suggests why they are more severe than they should be He argues that official Catholic social teaching in sexual areas and Catholic ecclesiology have not incorporated a moral theology based on creative fidelity he calls for a change in official sexual teaching ecclesiology and the exercise of the hierarchical magisterium on the basis of the methodological approaches found in contemporary official Catholic teaching Richard A McCormick Curran suggests is one contemporary Catholic moral theologian who successfully illustrates creative fidelity by employing the casuistic method of the Jesuit tradition in moral theology to evaluate the changing problems of our contemporary life Curran discusses perennial issues in moral theology that take on crucial importance in the changing realities of our contemporary existence the relationship between Christian and human morality divine providence and human responsibility academic freedom and military force Throughout the volume while fully aware that the Roman Catholic church and moral theology will always know and experience the tensions of creative fidelity Curran challenges himself and his readers to make certain that these tensions contribute to the ongoing life of the church Catholic Moral Theology and Social Ethics Christina Astorga,2013-12-01 Proposing a new method for moral theology Christina Astorga seeks to recast our understanding of the discipline by drawing from the faith vision of the entire theological enterprise including scripture dogmatic theology social ethics and spirituality **The Catholic Moral Tradition Today** Charles E. Curran,1999-04-05 The Catholic tradition has always tried to explain its theology in a coherent and systematic way but the great changes and tensions existing within Catholic moral theology today have made it difficult to

develop systematic approaches to what was once called fundamental moral theology. Now a leading scholar active in this field for forty years offers a synthesis of Catholic moral theology set in the context of the broader Catholic tradition and the significant developments that have occurred since the Second Vatican Council. Charles E. Curran's succinct coherent account of his wide ranging work in Catholic moral theology points out agreements, disagreements, and changes in significant aspects of the Catholic moral tradition. His systematic approach explores major topics in a logical development: the ecclesiological foundation and stance of moral theology; the person as moral subject and agent; virtues, principles, and norms; conscience and decision making; and the role of the church as a teacher of morality. Curran's work condenses and organizes a large amount of material to show that the Catholic theological tradition is in dialogue with contemporary life and thought while remaining conscious of its rich history. Of great interest to theologians for its broad synthetic scope, this book is also a thorough introduction to the Catholic moral tradition for students and interested readers including non Catholics.
