paradox perhaps fewer animals would be harmed if they stopped feeding the ones they love Animal diets do not raise problems merely for individuals To address environmental crises health threats and harm to animals we must change our food systems and practices And in these systems animals too are eaters Moving beyond what humans should eat and whether to count animals as food Just Fodder answers ethical and political questions arising from thinking about animals as eaters Josh Milburn begins with practical dilemmas about feeding the animals closest to us our pets or animal companions The questions grow more complicated as he considers relationships with more distance questions about whether and how to feed garden birds farmland animals who would eat our crops and wild animals Milburn evaluates the nature and circumstances of our relationships with animals to generate a novel theory of animal rights Looking past arguments about what we can and cannot do to other beings Just Fodder asks what we can should and must do for them laying out a fuller range of our ethical obligations to other animals
