Voice Of The Whirlwind Hardwired Series:

Voice of the Whirlwind Walter Jon Williams, 2015-04-29 Steward is a Beta clone. In his memories he is an elite commando for an orbital police corp but because his Alpha never did a brain scan update Steward's memories are fifteen years out of date and in those fifteen years everything has changed. An interstellar war destroyed the company that held his allegiance. His wife has divorced him along with the second wife that he can't even remember. Most of his comrades died in a useless battle on a world called Sheol and those who survived are irrevocably scarred. An alien race has arrived and become the center of a complex and deadly intrigue. And someone has murdered him. Fast moving hard driving with a robust well handled plot a stirring and heartening performance. Kirkus Reviews Walter Jon Williams proves that he is a master of action character and galaxy spanning plots. Fantasy Review A combination of fast action gritty realism and high tech polytechnics that is certain to be popular with Williams' growing audience. Booklist Williams is a master of the intricate yet fast paced plot the essence of thrillers and novels of political intrigue. Locus

Impersonations Walter Jon Williams, 2016-10-04 New York Times Bestselling Nebula Award Winning Author One of the great space opera series of all time continues a masterful writer James Patrick Kelly Hugo Award winning author of *The First Law of Thermodynamics*. Having offended her superiors by winning a battle without permission Caroline Sula has been posted to the planet Earth a dismal backwater where careers go to die. But Sula has always been fascinated by Earth history and she plans to reward herself with a long happy vacation amid the ancient monuments of humanity's home world. Sula may be an Earth history buff but there are aspects of her own history she doesn't want known. Exposure is threatened when an old acquaintance turns up unexpectedly. Someone seems to be forging evidence that would send her to prison. And that's all before someone tries to kill her. If she's going to survive Sula has no choice but to make some history of her own. Well drawn characters and excellent wordsmithing. It feels like Williams is having a great time with *Impersonations*. Locus Readers will savor this intriguing glimpse into the life of a woman who struggles with her own identity and the price of her action. Publishers Weekly Interstellar adventure has a new king George R R Martin

Hardwired Walter Jon Williams, 2011-09-18 *Hardwired* the acknowledged inspiration for the games *Cyberpunk Red* and *Cyberpunk 2077* is now available in a deluxe edition for its thirtieth anniversary with new content by the author. Earth lies prostrate beneath the lash of the Orbital powers and Earth's Balkanized nations have no choice but to let the Orbitals plunder their remaining wealth. Below the zone of Orbital control buttonheads panzerjocks dirtgirls and hustlers scramble for their ticket out of the gravity well. But now if the criminal underworld and the guerrilla underground can join forces there is a chance to shift the balance of power in a war fought on the ground by hardwired commandos in the air by high flying deltajocks and by genius hackers in the neural interface. As Roger Zelazny said *Hardwired* is a tough sleek juggernaut of a story punctuated by strobe light movements coursing to the wail of jets and the twang of steel guitars glittering nasty and noble and told in a style perfectly suiting its content. It has all of my favorite things blood love fire hate
