Voices In The Park By Anthony Browne:

Voices in the Park Anthony Browne, 2018-08-09 Four different voices tell their own versions of the same walk in the park. The radically different perspectives give a fascinating depth to this simple story which explores many of the author's key themes such as alienation, friendship and the bizarre amid the mundane. Anthony Browne's world-renowned artwork is full of expressive gorillas, vibrant colours and numerous nods to Magritte and other artists while being uniquely Browne's own style.

Speaking and Listening Through Drama 7-11 Francis Prendiville, Nigel Toye, 2007-05-09 This book is special. It proposes a style of drama that liberates teachers and children from traditional dialogues. The dramas, each linked to a literacy text or wider theme, are amazing. I would recommend buying this. It challenges but rewards with a new level of classroom dialogue. Literacy Time. This new book for teachers is timely and full of good ideas. It demonstrates the value of drama as a means of achieving education that stimulates creative and critical thinking while also engaging the emotions. Teaching Thinking Creativity. Showing teachers how to use drama to promote speaking and listening for pupils, including those who find learning difficult. This book describes, analyses and teaches how to use role play effectively and looks at how to generate a productive dialogue between teachers and pupils that is both powerful and enabling. The authors present innovative methods for teaching across the curriculum which are genuinely inclusive and can help to motivate reluctant learners. The 'how to' section of the book describes a range of strategies and approaches: o how to begin with teacher in role o how to begin planning drama o how to generate quality speaking and listening o how to use drama for inclusion and citizenship o how to generate empathy in drama o how to link history and drama o how to begin using assessment of speaking and listening and other English skills through drama. The second section includes full lesson plans that have been tried and tested with pupils, complete with detailed guidance on how to structure the work and how to play the teacher roles. Each is linked to literacy, the wider curriculum, PSHE and citizenship. The book is a valuable resource for primary teachers in training and in practice.

Collaborative Strategies for Teaching Reading Comprehension Judi Moreillon, 2007-02-26 Presents a collection of collaborative strategies for classroom teachers and librarians designed to help improve students' reading comprehension.

Reading Contemporary Picturebooks David Lewis, 2012-11-12 *Reading Contemporary Picturebooks* takes a look at one of the most vibrant branches of children's literature: the modern picturebook. This exciting new book takes a sample of contemporary picturebooks and closely examines the features that make them distinctive and then suggests a way of characterising the interanimation of words and pictures that is the essence of the form. The reasons for the picturebook's vitality and flexibility are also explored, and the close bond between the picturebook and its readers is analyzed. Advances in our understanding of how visual images are organized are examined, and the book concludes with an attempt to redescribe the picturebook in such a way that pictures, readers and text may be drawn together. *Picturing Text* will be of interest to students, teachers and researchers interested in reading children's literature and media studies. **Exploring Student**

Response to Contemporary Picturebooks Sylvia Pantaleo, 2009-10-14 Despite being a source of continuing interest to educational scholars research into the literary understanding of elementary school students has emphasized written materials over multimodal mediums such as picturebooks Focusing on students in Grades one and five this book describes children's interpretations of and responses to a variety of contemporary picturebooks specifically those books that employ Radical Change characteristics and metafictional devices In dealing with picturebooks Sylvia Pantaleo seeks to show the ways in which literature teaches artistic codes and conventions critical thinking skills visual literacy skills and interpretative strategies Aside from investigating specific picturebooks Pantaleo discusses the broader implications of reading viewing and creating print and digital texts in schools These exercises she argues reflect the changing nature of communication and representation in the world of elementary school students Incorporating postmodernism social constructivism and other theoretical frameworks Pantaleo contextualizes her research and examines ways in which literature highlights broader social and cultural characteristics An extensively researched look at the pedagogical value of literature in the classroom this book introduces new dimensions to discussions of contemporary picturebooks in elementary education and the social nature of intertextuality

Teaching Reading in the Secondary Schools Geoff Dean, 2013-02-01 Being able to read well is one of the most important literacy requirements in our society It is fundamental to almost all secondary school subjects and the English programme in particular The new Key Stage 3 focus on teaching reading compels us to find exciting ways to engage young people with texts that they will continue with and develop themselves This book outlines several approaches to reading which challenge former classroom practices It is through these approaches that all students from reluctant boys to the most able of either gender can continue to grow as readers and develop their readiness to seek meaning in texts This second edition adds to the original ideas in Geoff Dean's first book and includes new methods of teaching reading including guided reading and using increased grammatical student knowledge
