## **War Peace And Reconciliation A Theological Inquiry:**

War, Peace and Reconciliation Weber Theodore R, 2016-10-27 War Peace and Reconciliation invites Christians and their churches into a dialogue regarding how to think about war from a standpoint rooted in faith It asks how reconciliation which is central to Christian life and doctrine can engage with the realities of war without surrendering its fundamental affirmations Theodore Weber defines these realities politically by discussing the meanings of power peace as a particular organisation of power and the international system The study of war and politics is unavoidable as is engagement with reconciliation because all human activity exists in the context of the gracious work of God to renew and reconcile the fallen creation Weber's inquiry is theocentric and christocentric It culminates in a stirring call to churches to examine all their practices in the light of this perspective

**War and the Gospel** Jean Lasserre, 2022-01-01 In 1962 the blurb for the first English edition of War and the Gospel warned that the problem of war is as old as the Christian faith but it has assumed a greater urgency in our own time This remains grimly true after 60 years In the decade after World War 2 Jean Lasserre made a clear and vigorous case for an exegetical grounding of our attitudes towards war in the modern world He states that Christian theology should start from the Scriptures not from preconceived ideas With the super powers of the United States and the USSR at each other's throats and the threat of nuclear Armageddon on the horizon Jean Lasserre penned this sober investigation into how Christians should think about war and violence He begins with the pacifism of Jesus his teachings and his examples in the New Testament Questions are raised as to when it is morally obligatory to disobey the state and whether lethal force can be justified in prisons and by our police forces a topic that has seen renewed relevance during the first quarter of the twenty-first century War and the Gospel remains a serious discussion of issues that are sadly evergreen

### *Mediating Peace*

Sebastian Kim, Pauline Kollontai, Sue Yore, 2016-01-14 This volume examines the role and contributions of art music and film in peace building and reconciliation offering a distinctive approach in various forms of art in peace building in a wide range of conflict situations particularly in religiously plural contexts As such it provides readers with a comprehensive perspective on the subject The contributors are composed of prominent scholars and artists who examine theoretical professional and practical perspectives and debates and address three central research questions which form the theoretical basis of this project namely In what way have particular forms of art enhanced peace building in conflict situations How do artistic forms become a public demonstration and expression of a particular socio-political context and In what way have the arts played the role of catalyst for peace building and if not why not This volume demonstrates that art contributes in conflict and post-conflict situations in three main ways transformation at an individual level peace building between communities and bridging justice and peace for sustainable reconciliation

**Political Philosophy in the East and West** Jaan Islam, 2018-01-10 In the 21st century amid the convergence of global political social and economic forces we are asking ourselves the fundamental values we hold true facing an antagonism between different schools of philosophy between left and right politics The proposed

book provides a comprehensive analysis of western political philosophy and underlines the core principles of each argument. It then argues that non have solved or have any pathway to eventually solve the question of right and wrong we are essentially moral relativists in disguise. In order to break out of this cycle of uncertainty the book purposes a solution of knowledge based cognition policy based on a concrete and prove understanding of an absolute and certain body of truths. This requires an analysis and blending of non western political philosophical traditions such as those espoused by Islam and Confucianism. This book gives an original critique of western political philosophy and is the first book to engage in a philosophical reconstruction of Islamic political philosophy.

**Peace and Reconciliation in the Classical World** E. P. Moloney, Michael Stuart Williams, 2017-02-03 Warfare has long been central to a proper understanding of ancient Greece and Rome worlds where war was as the philosopher Heraclitus observed both king and father of all. More recently however the understanding of Classical antiquity solely in such terms has been challenged it is recognised that while war was pervasive and a key concern in the narratives of ancient historians a concomitant desire for peace was also constant. This volume places peace in the prime position as a panel of scholars stresses the importance of peace as a positive concept in the ancient world and not just the absence of or necessarily even related to war and considers examples of conflict resolution conciliation and concession from Homer to Augustine. Comparing and contrasting theories and practice across different periods and regions this collection highlights first the open and dynamic nature of peace and then seeks to review a wide variety of initiatives from across the Classical world.

**Peace Education, Religious Discourse, and Scientific Enquiry** Jarosław Michalski, Monika Wolińska, 2024-12-03 Empowering educators and policymakers to effect positive change in their communities this book critically examines how sustained dialogue and cooperation between scientific inquiry and religious discourse can contribute to the fostering of successful peace education initiatives. Providing an overview of the historical and cultural context of peace education in Eastern Europe the chapters look initially at the theoretical foundations emphasising the need for empathy internal peace and traditional values. Featuring contributions from the United States Germany Italy Slovakia Turkey and Poland subsequent sections outline ethical moral and religious dimensions to inform effective peace education strategies along with a discussion on how they can be harmonised with secular approaches to provide a holistic framework for peace education. Case studies and practical applications follow ranging from Maria Montessori's educational approach to the role of social media and sustainability in peace education providing readers with a comprehensive understanding of how different perspectives can inform effective peace education strategies. With implications and take aways for educators and researchers looking to foster a culture of peace and non violence this book will be of interest to scholars policymakers postgraduate students and curriculum designers in the fields of peace education values education conflict resolution and social cohesion more broadly. Those working in peacebuilding organisations and NGOs more widely may also benefit from the chapters. Ayse Kadayifci-Orellana, Pauline Kollontai, 2020-07-01 In this ground breaking volume the authors analyze the role of religion in conflict and conflict resolution They do so from the perspectives of Judaism Christianity and Islam while bringing different disciplines into play including peace and conflict studies religious studies theology and ethics With much of current academic political and public attention focusing on the conflictive dimensions of religion this book also explores the constructive resources of religion for conflict resolution and reconciliation Analyzing the specific contributions of religious actors in this field their potentials and possible problems connected with them this book sheds light on the concrete contours of the oftentimes vague religious factor in processes of social change Case studies in current and former settings of violent conflict such as Israel post genocide Rwanda and Pakistan provide real life contexts for discussion Combining cutting edge research with case studies and concrete implications for academics policy makers and practitioners this concise and easily accessible volume helps to build bridges between these oftentimes separated spheres of engagement The Open Access version of this book available at <http://doi.org/10.4324/9781003002888> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license      **Building New Pathways to Peace** Noriko Kawamura, Yoichiro Murakami, Shin Chib, 2011-06-01 In the post Cold War era problems of war and peace have become complicated and ambiguous involving such nonmilitary issues as the north south dichotomy of power resource depletion and globalization of capitalism To create a twenty first century intellectual and theoretical foundation for peace studies Building New Pathways to Peace considers both the old concepts of tolerance shalom and wa and the relatively new concepts of human security decent peace credibility accountability plurality multiculturalism and transnationalism It also elucidates impediments to and necessary conditions for actualizing peace      The Palgrave Encyclopedia of Peace and Conflict Studies Oliver P. Richmond, Gözim Visoka, 2022-06-21 This encyclopaedia provides a comprehensive overview of major theories and approaches to the study of peace and conflict across different humanities and social sciences disciplines Peace and conflict studies PCS is one of the major sub disciplines of international studies including political science and international relations and has emerged from a need to understand war related systems and concepts and how to respond to it afterward As a living reference work easily discoverable and searchable the Palgrave Encyclopedia of Peace and Conflict Studies offers solid material for understanding the foundational historical and contemporary themes concepts theories events organisations and frameworks concerning peace conflict security rights institutions and development The Palgrave Encyclopaedia of Peace and Conflict Studies brings together leading and emerging scholars from different disciplines to provide the most comprehensive and up to date resource on peace and conflict studies ever produced      *The Spirit and the Common Good* Daniela C. Augustine, 2019-09-12 A fresh vision of the common good through pneumatological lenses Daniela C Augustine a brilliant emerging scholar offers a

theological ethic for the common good Augustine develops a public theology from a theological vision of creation as the household of the Triune God bearing the image of God in a mutual sharing of divine love and justice and as a sacrament of the divine presence The Spirit and the Common Good expounds upon the application of this vision not only within the life of the church but also to the realm of politics economics and care for creation The church serves a priestly and prophetic function for society indeed for all of creation This renewed vision becomes the foundation for constructing a theological ethic of planetary flourishing in and through commitment to a sustainable communal praxis of a shared future with the other and the different While emphatically theological in its approach The Spirit and the Common Good engages readers with insights from political philosophy sociology of religion economics and ecology as well as forgiveness reconciliation and peacebuilding studies

*When Religion Matters* Annie Hardison-Moody, 2016-10-10 How does starting with women's statements that God was there in the moment of wartime violence shift the ways we think about religion conflict and healing Religion and health scholar Annie Hardison Moody examines this interdisciplinary question through several lenses postconflict feminist theory practical theology and feminist and womanist theory and theology Drawing on participatory fieldwork with a Liberian community in North Carolina Hardison Moody argues that religion matters for many survivors of violence and that this fact must be taken into account in international conversations about women violence and healing Consequently she looks beyond the institutional forms of religion instead studying the ways women live and profess healing and transformation as a part of their everyday lives This she argues is the crucial task for postconflict transformation work Understanding these everyday ways women experience and heal from violence is central to advancing our conceptions of healing and peace as they exist in a world rife with conflict Scholars activists and caregivers will be able to draw on this resource as they attempt to understand and practice healing and transformation with those who have experienced violence and trauma

**Politics of Civil Wars** Amalendu Misra, 2013-05-13 Civil war is one of the critical issues of our time Although intrastate in nature it has a disproportionate and overwhelming effect on the overall peace and stability of contemporary international society Organized around the themes of contested nationalism violence external intervention post conflict reconstruction reconciliation and governance Amalendu Misra investigates why civil wars have become so widespread and how can they be contained Particularly noteworthy is its focus on the cycle of conflict ranging as it does on the causes conduct and end of civil wars as well as on subsequent efforts to return post conflict society to normal politics Theoretically robust and empirically solid this book clearly charts the course of contemporary civil wars using case studies from a variety of zones of conflict including Africa Asia and Latin America to produce the most comprehensive guide to understanding civil wars in an interconnected and interdependent world

Peacebuilding and Catholic Social Teaching Theodora Hawksley, 2020-09-30 The Roman Catholic Church with its global reach centralized organization and more than 1.4 billion members could be one of the world's most significant forces in global peacemaking and yet its robust tradition of social teaching on peace is not widely

known In Peacebuilding and Catholic Social Teaching Theodora Hawksley aims to make that tradition better known and understood and to encourage its continued development in light of the lived experience of Catholics engaged in peacebuilding and conflict transformation worldwide The first part of this book analyzes the development of Catholic social teaching on peace from the time of the early Church fathers to the present drawing attention to points of tension and areas in need of development The second part engages in constructive theological work exploring how the existing tradition might develop in order to support the efforts of Catholic peacebuilders and respond to the distinctive challenges of contemporary conflict Peacebuilding and Catholic Social Teaching is one of the first scholarly monographs dedicated exclusively to theology ethics and peacebuilding It will appeal to students and academics who specialize in Catholic social teaching and peacebuilding to practitioners of Catholic peacebuilding and to anyone with an interest in religion and peacebuilding more generally

*Toward an Anabaptist Political Theology* A. James Reimer, 2014-10-13 A James Reimer's 1942-2010 theopolitical project intended to be a fully theologically conceptualized political theology offers a constructive and creative contribution to this burgeoning field of theological inquiry Reimer's thesis for this theologically derived politics focuses on the necessity to take seriously the biblical Trinitarian foundations for all Christian social ethics but also on the importance of astute and faithful engagement by Christians in public institutional life including the political realm While Reimer understood himself to be working as an Anabaptist and hoped to invite that tradition to embrace a more positive view of civil institutions than has historically been the case he was not limited by that tradition or beholden to take only its sources into account Ever alert to the problems inherent in every kind of reductionism and especially so in cases where theology is reduced to either ethics or politics Reimer's political theology pursues the investigation of theological realities that are to serve as the engine the generative force of a political theology that seeks to articulate both a critical and a positive constructive approach to public political life and institutions

**Reconciling Science and Religion** Peter J. Bowler,2014-04

Although much has been written about the vigorous debates over science and religion in the Victorian era little attention has been paid to their continuing importance in early twentieth century Britain Reconciling Science and Religion provides a comprehensive survey of the interplay between British science and religion from the late nineteenth century to World War II Peter J Bowler argues that unlike the United States where a strong fundamentalist opposition to evolutionism developed in the 1920s most famously expressed in the Scopes monkey trial of 1925 in Britain there was a concerted effort to reconcile science and religion Intellectually conservative scientists championed the reconciliation and were supported by liberal theologians in the Free Churches and the Church of England especially the Anglican Modernists Popular writers such as Julian Huxley and George Bernard Shaw sought to create a non Christian religion similar in some respects to the Modernist position Younger scientists and secularists including Rationalists such as H G Wells and the Marxists tended to oppose these efforts as did conservative Christians who saw the liberal position as a betrayal of the true spirit of their religion With the increased social tensions of the 1930s as the churches moved toward a neo orthodoxy unfriendly to natural theology and biologists adopted the Modern Synthesis of genetics and evolutionary theory the proposed reconciliation fell apart Because the tensions between science and religion and efforts at reconciling the two are still very much with us today Bowler s book will be important for everyone interested in these issues

Opposition to War Mitchell K. Hall,2018-01-04

How have Americans sought peaceful rather than destructive solutions to domestic and world conflict This two volume set documents peace and antiwar movements in the United States from the colonial era to the present Although national leaders often claim to be fighting to achieve peace the real peace seekers struggle against enormous resistance to their message and have often faced persecution for their efforts Despite a well established pattern of being involved in wars the United States also has a long tradition of citizens who made extensive efforts to build and maintain peaceful societies and prevent the destructive human and material costs of war Unarmed activists have most consistently upheld American values at home

Opposition to War An Encyclopedia of U S Peace and Antiwar Movements investigates this historical tradition of resistance to involvement in armed conflict an especially important and relevant topic today as the nation has been mired in numerous military conflicts throughout most of the current century The book examines a largely misunderstood and underappreciated minority of Americans who have committed themselves to finding peaceful resolutions to domestic and international conflicts individuals who have proposed and conducted an array of practical and creative methods for peaceful change from the transformation of individual behavior to the development of international governing and legal systems for more than 250 years Readers will learn how individuals working alone or organized into societies of various size have steadfastly campaigned to stop war end

the arms race eliminate the underlying causes of war and defend the civil liberties of Americans when wartime nationalism most threatens them
