everyday life in the United States and influenced various entertainment modes. It not only covers the impact of the counterculture revolution, popular music about Vietnam recorded while the war was being fought, and after, and films made immediately following the end of the war in the 1970s, but also draws connections to more modern events and popular culture expressions such as films made in the aftermath of September 11, 2001. Attention is paid to the impact of social movements like the environmental movement and the civil rights movement and their relationships to the Vietnam War. The set will also highlight how the experiences and events of the Vietnam War are still impacting current generations through television shows such as *Mad Men*.

From Hanoi to Hollywood Linda Dittmar, Gene Michaud, 1990. This volume is about power. It is about the power to make war and to destroy lives. It is also about another kind of power, the power to make images that may distort, displace, and destroy knowledge of the times in which those lives were lived. Many of the nineteen essays gathered in this volume are about the interrelationships between these two types of power. They demonstrate as well yet another type of power, the power of critical thinking to challenge dangerous myths and to confront prevailing ideologies. The title of this anthology calls attention to the process whereby aspects of the Vietnam War have been appropriated by the American cultural industry. Probing the large body of emotion-laden, controversial films, *From Hanoi to Hollywood* is concerned with the retelling of history and the retrospection that such a process involves. In this anthology, an awareness of film as a cultural artifact that molds beliefs and guides action is emphasized, an awareness that the contributors bring to a variety of films. Their essays span over one hundred documentary and fiction films and include in-depth analyses of major commercial films ranging from *Apocalypse Now* to *Platoon*, *Rambo: First Blood Part II*, and *Full Metal Jacket*, and documentaries from *In the Year of the Pig* to *Dear America: Letters Home from Vietnam*. The essays in this volume deal with representations of the Vietnam War in documentary film and television reporting, examining the ways the power of film is used to deliver political messages. There are surprises here, new readings, and important insights on the ways we as a society have attempted to come to terms with the experiences of the

Elliott,2019 Everyone knows about Pat Tillman the hero who didn't come home after a tragic encounter with friendly fire in Afghanistan Aftermath is the untold story of what happened in the accident's wake and the fall and unlikely redemption of Steven Elliot a fellow soldier behind the bullets that killed Tillman Though Elliott was only a young man in his first gunfight following his superior officer's direction the shame and regret over his actions wrecked his life In the years that followed he suffered from PTSD depression and alcohol addiction and saw no way out beyond suicide But then a supernatural encounter with God changed everything restored his broken marriage and set him on the path to a new mission of helping veterans through the trauma that too often comes in the aftermath of their service A story of war and faith love and tragedy and ultimate healing *U.
