Visible and hidden walls in Ursula K. Le Guin's utopian novel "The Dispossessed" Tom Keller, 2016-04-08

Document from the year 2011 in the subject American Studies Literature grade 1 7 Technical University of Braunschweig
Englisches Seminar course Cultural Studies language English abstract In Ursula K Le Guin's utopian novel The Dispossessed published in 1974 one of the central images are walls which exist in different shapes and various places separating people or enclosing them Some function like a prison where nobody can break through while others offer possibilities like freedom and choice Furthermore having two sides walls appear to be ambiguous depending on the view and interpretation of the individual The novel describes several walls of different types like hierarchy superiority greed possession lies or physical boundaries They appear throughout the novel and get demolished one after another Shevek the main protagonist faces those boundaries identifies them and tries to tear them down Basically the planets in the story are clearly separated with them their people and also their cultures Anarres at first sight has just one physical wall surrounding the port and simultaneously the whole society Based on a revolution which had the aim of pure freedom and a brotherly society Anarres has no governmental laws having an anarchistic society with secretly growing boundaries Urras is the opposite consisting of many obvious physical and cultural walls The people greedy and egoistic live between the boundaries being disconnected by their possessions and their attitudes

The Chatter of the Visible Patrizia C. McBride, 2016-04-06 The Chatter of the Visible examines the paradoxical narrative features of the photomontage aesthetics of artists associated with Dada Constructivism and the New Objectivity While montage strategies have commonly been associated with the purposeful interruption of and challenge to narrative consistency and continuity McBride offers an historicized reappraisal of 1920s and 1930s German photomontage work to show that its peculiar mimicry was less a rejection of narrative and more an extension or permutation of it a means for thinking in narrative textures exceeding constraints imposed by flat print media especially the novel and other literary genres McBride's contribution to the conversation around Weimar era montage is in her situation of the form of the work as a discursive practice in its own right which affords humans a new way to negotiate temporality as a particular mode of thinking that productively relates the particular to the universal or as a culturally specific form of cognition

Templin,1995 Soon after its publication in 1973 Fear of Flying brought Erica Jong immense popular success and media fame Alternately pegged sassy and vulgar Jong's novel embraced the politics of the women's liberation movement and challenged the definition of female sexuality Yet today more than twenty years and several books later literary reputation continues for the most part to elude Jong Typecast by her adversaries as a media seeking sensationalist Erica Jong has been unfairly side stepped by academia Charlotte Templin contends In this carefully researched study augmented by personal interviews with Jong Templin assembles and analyzes the medley of responses to Jong's books by reviewers critics writers academics and the media by liberals conservatives and feminists She examines the diverse opinions on the merit and relevance to contemporary

life of Fear of Flying the invocation of a high culture low culture dichotomy to discredit How to Save Your Own Life the anatomy of literary success with Fanny Jong's reception in a postfeminist age and the trivialization of Jong's works that is inevitable with mass media exposure Templin also shows how antagonistic reviewers tend to identify Jong with her fictitious characters a practice more common when the author is a woman and judge her to be guilty of the sin of not being a proper woman In turn she shows how reviewers reveal something of their own values and ideological biases in their critiques and how literary reputations are built destroyed and altered over time The first book to make a detailed examination of the reputation of a woman writer *Feminism and the Politics of Literary Reputation* provides an excellent case study for the literary reception of women writers within a broad cultural context Templin's analysis offers valuable insight into the reception of women writers especially commercially successful women writers and dramatically illustrates the relation of literary reputation to popular appeal and cultural mores The evolution of the English novel, by Francis Hovey Stoddard...
