What About Mozart What About Murder Reasoning From Cases:

What About Mozart? What About Murder? Howard S. Becker, 2024-05-31 In 1963 Howard S. Becker gave a lecture about deviance challenging the then conventional definition that deviance was inherently criminal and abnormal and arguing that instead deviance was better understood as a function of labeling. At the end of his lecture a distinguished colleague standing at the back of the room puffing a cigar looked at Becker quizzically and asked 'What about murder? Isn't that really deviant?' It sounded like Becker had been backed into a corner. Becker, however, wasn't defeated. Reasonable people he countered differ over whether certain killings are murder or justified homicide and these differences vary depending on what kinds of people did the killing. In *What About Mozart? What About Murder?* Becker uses this example along with many others to demonstrate the different ways to study society: one that uses carefully investigated specific cases and another that relies on speculation and on what he calls 'killer questions' aimed at taking down an opponent by citing invented cases. Becker draws on a lifetime of sociological research and wisdom to show in helpful detail how to use a variety of kinds of cases to build sociological knowledge. With his trademark conversational flair and informal personal perspective, Becker provides a guide that researchers can use to produce general sociological knowledge through case studies. He champions research that has enough data to go beyond guesswork and urges researchers to avoid what he calls 'skeleton cases' which use fictional stories that pose as scientific evidence. Using his long career as a backdrop, Becker delivers a winning book that will surely change the way scholars in many fields approach their research.

The Psychology of Peace Promotion Mary Gloria C. Njoku, Leonard A. Jason, R. Burke Johnson, 2019-07-04 This volume *Psychology of Peace Promotion* builds on previous volumes of peace psychology extending its contributions by drawing from peace research and practices from five continents: Africa, Asia, Europe, North America, and South America. The book discusses emerging disciplinary and interdisciplinary theories and actions. Each chapter begins with a theoretical framework for understanding peace followed by a critical review of peace promotion in a specific setting and concludes with an illustration of psychological principles or theories in either a narrative format or an empirical investigation. This volume develops as well as guides its readers on the epistemology of promoting and sustaining peace in varied settings around the world. This book presents relevant cutting edge peace promotion strategies to anyone interested in promoting peace more effectively including peace practitioners, scholars, teachers, and researchers as well as the general reader. It presents a number of innovative approaches illustrating their applications to specific social problems, settings, and populations. In addition, this volume has much in store for both academic and practice-based scientists in the field of peace psychology: mental health professionals, administrators, educators, and graduate students from various disciplines. The goal is the promotion and sustenance of peace using theoretically sound yet innovative and creative approaches. As expressed by the United Nations Secretary, peace does not occur by happenstance. Promoting and sustaining peace requires reflective, thoughtful, and targeted efforts. This book inspires its readers to develop a better understanding of

peace and the means of promoting peace in a sustainable way

Inside Science Robert E. Kohler, 2019-02-27 Context and situation always matter in both human and animal lives Unique insights can be gleaned from conducting scientific studies from within human communities and animal habitats Inside Science is a novel treatment of this distinctive mode of fieldwork Robert E Kohler illuminates these resident practices through close analyses of classic studies of Trobriand Islanders Chicago hobos corner boys in Boston s North End Jane Goodall s chimpanzees of the Gombe Stream Reserve and more Intensive firsthand observation a preference for generalizing from observed particulars rather than from universal principles and an ultimate framing of their results in narrative form characterize these inside stories from the field Resident observing takes place across a range of sciences from anthropology and sociology to primatology wildlife ecology and beyond What makes it special Kohler argues is the direct access it affords scientists to the contexts in which their subjects live and act These scientists understand their subjects not by keeping their distance but by living among them and engaging with them in ways large and small This approach also demonstrates how science and everyday life often assumed to be different and separate ways of knowing are in fact overlapping aspects of the human experience This story driven exploration is perfect for historians sociologists and philosophers who want to know how scientists go about making robust knowledge of nature and society

The Religious Heritage Complex Cyril Isnart, Nathalie Cerezales, 2020-05-14 The Religious Heritage Complex examines heritage making of Christian related legacies led by secular and clerical institutions It argues that the relationship between public policies and spiritual practices is not as clear cut as some might think In fact the authors show that religious activity has always combined care for the past with conscious practices of heritage making which they term the religious heritage complex The book considers the ways patrimony religion

and identity interact in different Christian contexts worldwide and how religious objects and sites function as identity symbols It focuses on heritage making as a religious and material activity for the groups in charge of a sacred inheritance and considers heritage activities as one of the forms of spiritual renewal and transmission Case studies explore various Christian traditions located in Europe the Americas and Africa investigating the longstanding and tightly enmeshed connections that weave together religion and cultural heritage Through comparing ecclesiastical and civil heritage institutions this book allows us to consider the ambiguity of religious heritage **Global Gospel** Douglas

Jacobsen,2015-11-10 In this pathbreaking book award winning author Douglas Jacobsen describes global Christianity and provides a framework for understanding the varied experiences of Christians around the world Focusing on the five big continents of Africa Asia Europe Latin America and North America Jacobsen recounts their differing histories contemporary experiences and cultural theologies In the current era of massive and dynamic global challenges this accessible and fair minded volume sets the stage for Christians worldwide to engage the gospel and each other more deeply Global Gospel contains numerous maps charts and illustrations that aid comprehension Accompanying videos can be found on YouTube s Global Christianity channel www.youtube.com/globalchristianity **A Research Agenda for Organizational Ethics** Jen Jones,2023-10-06 Drawing on the philosophy of existentialism this thought provoking Research Agenda questions and encourages deeper ethical thinking about organizational practices during this time of existential crisis Rather than relying on prescriptive normative ethical theories it advocates for ethical concerns to be addressed through intersubjective encounters

The Social Organization of Arts Volker Kirchberg,Tasos Zembylas,2024-12-12 In recent decades social and economic changes have brought about a growing awareness of the role of art and culture in society As a result scholars have turned their attention to a sociological view of arts developing hermeneutic approaches and conducting empirical research that have led to a wealth of insights into the organization of arts These studies of the creation production distribution evaluation and consumption of arts are clearly sociological but they include approaches from other disciplines notably arts management studies and cultural policy research Volker Kirchberg and Tasos Zembylas critically discuss seven major theories of the social organization of arts in Western societies with the aim of encouraging further research and theoretical developments The Anthem Companion to Everett Hughes Rick Helmes-Hayes,Marco Santoro,2016-12-01 The Anthem Companion to Everett Hughes is a comprehensive and updated critical discussion of Hughes s contribution to sociology and his current legacy in the social sciences A global team of scholars discusses issues such as the international circulation of Hughes s work his intellectual biography his impact on current ethnographic research practices and the use in current research of such Hughesian concepts as master status dirty work and bastard institutions This companion is a useful reference for students of classical sociology practitioners of ethnographic research and scholars of sociology in the Chicagoan tradition Writing for Social Scientists Howard S. Becker,2020-09-01 The classic guide to avoiding pitfalls and achieving success in academic

writing in a fully updated edition with a new preface by the author For decades *Writing for Social Scientists* has been a lifeboat for academic writers of all fields from beginning students to seasoned professionals With reassuring candor author and sociologist Howard S Becker identifies some of the common problems all academic writers face including from procrastination and stifling perfectionism to getting caught up in the trappings of proper academic writing and struggling with the when and how of citations He then offers concrete advice based on his own experiences and those of his students and colleagues for overcoming these obstacles and gaining confidence as a writer This new edition has been updated throughout to reflect the contemporary landscape of academic writing offering a new generation of scholars and students encouragement to write about society or any other scholarly topic clearly and persuasively As academics are called upon to write more often in more formats *Writing for Social Scientists* continues to be an important resource for any writer's shelf

The Interactionist Imagination Michael Hviid Jacobsen, 2017-07-01 This book outlines the history and developments of interactionist social thought through a consideration of its key figures Arranged chronologically each chapter illustrates the impact that individual sociologists working within an interactionism framework have had on interactionism as perspective and on the discipline of sociology as such It presents analyses of interactionist theorists from Georg Simmel through to Herbert Bulmer and Erving Goffman and onto the more recent contributions of Arlie R Hochschild and Gary Alan Fine Through an engagement with the latest scholarship this work shows that in a discipline often focused on macrosocial developments and large scale structures the interactionist perspective which privileges the study of human interaction has continued relevance The broad scope of this book will make it an invaluable resource for scholars and students of sociology social theory cultural studies media studies social psychology criminology and anthropology

Rocking Qualitative Social Science Ashley T. Rubin, 2021-08-03 Unlike other athletes the rock climber tends to disregard established norms of style and technique doing whatever she needs to do to get to the next foothold This figure provides an apt analogy for the scholar at the center of this unique book In *Rocking Qualitative Social Science* Ashley Rubin provides an entertaining treatise corrective vision and rigorously informative guidebook for qualitative research methods that have long been dismissed in deference to traditional scientific methods Recognizing the steep challenges facing many especially junior social science scholars who struggle to adapt their research models to narrowly defined notions of right Rubin argues that properly nourished qualitative research can generate important creative and even paradigm shifting insights This book is designed to help people conduct good qualitative research talk about their research and evaluate other scholars work Drawing on her own experiences in research and life Rubin provides tools for qualitative scholars synthesizes the best advice and addresses the ubiquitous problem of anxiety in academia Ultimately this book argues that rigorous research can be anything but rigid

The Emerald Handbook of Management and Organization Inquiry David M. Boje, Mabel Sanchez, 2019-06-06 The *Emerald Handbook of Management and Organization Inquiry* provides new and innovative insights into the field of management and organization

inquiry It provides extensive coverage of the 7S structure that has been so transformational for the field Storytelling System Sustainability Science Spirit Spirals and Sociomateriality **Blowin' Up** Jooyoung Lee, 2016-03-23 Dr Dre Snoop Dogg Ice Cube Some of the biggest stars in hip hop made their careers in Los Angeles And today there is a new generation of young mostly black men busting out rhymes and hoping to one day find themselves blowin up getting signed to a record label and becoming famous Many of these aspiring rappers get their start in Leimart Park home to the legendary hip hop open mic workshop Project Blowed In Blowin Up Jooyoung Lee takes us deep inside Project Blowed and the surrounding music industry offering an unparalleled look at hip hop in the making While most books on rap are written from the perspective of listeners and the market Blowin Up looks specifically at the creative side of rappers As Lee shows learning how to rap involves a great deal of discipline and it takes practice to acquire the necessary skills to put on a good show Along with Lee who is himself a pop locker we watch as the rappers at Project Blowed learn the basics from how to hold a microphone to how to control their breath amid all those words And we meet rappers like E Crimsin Nocando VerBS and Flawliss as they freestyle and battle with each other For the men at Project Blowed hip hop offers a creative alternative to the gang lifestyle substituting verbal competition for physical violence and provides an outlet for setting goals and working toward them Engagingly descriptive and chock full of entertaining personalities and real life vignettes Blowin Up not only delivers a behind the scenes view of the underground world of hip hop but also makes a strong case for supporting the creative aspirations of young urban black men who are often growing up in the shadow of gang violence and dead end jobs

Cultures of Development Jonathan Warren, 2016-11-25 The North Atlantic development establishment has had a blemished track record over the past 65 years In addition to a sizeable portfolio of failure the few economic success stories in the developing world such as South Korea and China have been achieved by rejecting the advice of Western experts Despite these realities debates within mainstream development studies have stagnated around a narrow acultural emphasis on institutions or the size and role of government Cultures of Development uses a contrapuntal comparison of Vietnam and Brazil to show why it is important for development scholars and practitioners to broaden their conceptualization of economies to include the socio cultural This smartly written book based on original ethnographic research breathes new life into development studies by bringing cultural studies into conversation with development studies with an emphasis on improving rather than merely critiquing market economies The applied deployment of critical development studies i e interpretive economics results in a number of theoretical advances in both development and areas studies demonstrating the economic importance of certain kinds of cultural work carried out by religious leaders artists activists and educators Most importantly the reader comes to fully appreciate how economies are embedded within the subjectivities discourses symbols rituals norms and values of a given society This pioneering book revives development practice and policy by offering fresh insights and ideas about how development can be advanced It will be of special interest to scholars and students of

Development Studies Sociology Economics Anthropology and Area Studies **Ethnography** Martyn Hammersley, Paul Atkinson, 2019-04-11 Now in its fourth edition this leading introduction to ethnography has been thoroughly updated and substantially rewritten The volume offers a systematic introduction to ethnographic principles and practice and includes a new chapter on Ethnography in the digital world The authors argue that ethnography is best understood as a reflexive process This requires recognition that social research is part of the world that it studies and demands that researchers reflect on how they shape both data and analysis Starting in Chapter 1 with an outline of the principle of reflexivity against the background of competing research philosophies the authors go on to discuss the main features of ethnographic work including the selection and sampling of cases the problem of access field relations and observation interviewing the use of documents recording and organizing data the process of data analysis and writing research reports There is also consideration of the ethical issues involved in ethnographic research Throughout the discussion draws on a wide range of illustrative material from classic and more recent studies within a global context The new edition of this popular textbook will be an indispensable resource for undergraduate and postgraduate students and for all researchers using ethnographic methods in the social sciences and the humanities **The Pursuit of Possibility** Nigel Thrift, 2022-10-31 Are British research universities losing their way or are they finding a new way Nigel Thrift a well known academic and a former Vice Chancellor explores recent changes in the British research university that threaten to erode the quality of these higher education institutions He considers what a research university has now become by examining the quandaries that have arisen from a succession of misplaced strategies and false expectations Challenging both higher education policy and leadership he argues that the focus on student number growth and a series of research policy missteps has upset research universities priorities just at a point in the history of planetary breakdown when their research is most needed *Moral Minefields* Shai M. Dromi, Samuel D. Stabler, 2023-09 In *Moral Minefields* Shai M Dromi and Samuel D Stabler take a systematic look at the profound effects moral debates have on sociological research The authors explore five recent controversial topics in sociology about race and genetics secularization theory methodological nationalism the culture of poverty and parenting practices to show how researchers make decisions about what topics to study and how to engage with them They present three broad ways in which sociologists respond to moral criticism of scholarly work while some accept and endorse the criticism others work out new ways to address these topics that would transcend the criticism and still others build on the debates to form new more morally acceptable research *Moral Minefields* addresses one of the most prominent questions in contemporary sociological theory today how can sociology contribute to the development of a virtuous society Rather than suggesting that sociologists adopt a clear paradigm that can guide their research toward clearly defined moral aims Dromi and Stabler argue that sociologists already largely possess and employ the repertoires to address questions of moral virtue in their research They thus shift the conversation away from attempts to theorize the moral goods

sociologists should support and toward questions about how sociologists manage the plurality of moral positions that present themselves in their studies Moral diversity within sociology they show fosters disciplinary progress The book promises to be of interest to sociologists of knowledge production of higher education and especially to sociologists who aim to reach a wider public Policing the Pandemic Lambros Fatsis, Melayna Lamb, 2021-12-07 Written in the context of the BlackLivesMatter protests this book explores why law enforcement responses to a public health emergency are prioritised over welfare provision and what this tells us about the state's criminal justice institutions Law, Legal Expertise and EU Policy-Making Emilia Korkea-aho, Päivi Leino-Sandberg, 2022-10-20 The first socio legal study of legal experts and their influence on EU policy making at national European and international levels
