Understanding Occupy from Wall Street to Portland Renee Guarriello Heath, Courtney Vail Fletcher, 2013 Given the centrality of economics and communication in the Occupy movement *Understanding Occupy from Wall Street to Portland* uses economic insights and contemporary theories of communication to better understand the movement at this current juncture in history This collection is organized by complementary theoretical and methodological perspectives the global critical cultural and economic understandings of Occupy the local interpretive ethnographic examinations of a local site Occupy Portland Oregon and mediated perspectives analyses of the words of officials and media The contributors also examine social movement phenomena by stepping outside of social movement theory to analyze the macro and microprocesses of the Occupy movement demonstrating the saliency of communication theory Throughout the volume are in depth case studies that examine universal narratives about Occupy One of the challenges of studying Occupy is that members of this movement are committed to not allowing any one person or entity to define it One way the editors acknowledge this and attempt to honor the individualism and postmodern fragmentation of this movement is to consider their findings in light of the three interpretive lenses of the romantic functional and critical This informative and comprehensive text provides a critical lens on the constantly evolving Occupy movement

Society and Social Pathology R.C. Smith, 2017-02-21 This book offers one of the most comprehensive studies of social pathology to date following a cross disciplinary and methodologically innovative approach It is written for anyone concerned with understanding current social conditions individual health and how we might begin to collectively conceive of a more reconciled postcapitalist world Drawing reference from the most up to date studies Smith crosses disciplinary boundaries from cognitive science and anthropology to critical theory systems theory and psychology Opening with an empirical account of numerous interlinked carises from mental health to the physiological effects of environmental pollution Smith argues that mainstream sociological theories of pathology are deeply inadequate Smith introduces an alternative critical conception of pathology that drills to the core of how and why society is deeply ailing The book concludes with a detailed account of why a progressive and critical vision of social change requires a holistic view of individual and societal transformation Such a view is grounded in the awareness that a sustainable transition to postcapitalism is ultimately a many sided social individual and structural healing process

The Discourse of Financial

Crisis and Austerity Darren Kelsey, Frank Mueller, Andrea Whittle, Majid KhosraviNik, 2018-12-07 This book demonstrates the importance of understanding how political rhetoric financial reporting and media coverage of austerity in transnational contexts is significant to the communicative social and economic environments in which we live It considers how aspects of moral storytelling language representation and ideology operate through societies in financial crisis and through governments that impose austerity programmes on public spending Whilst many of the debates covered here are concerned with UK economic policy and British social contexts the contributions also consider examples from other countries that reflect similar concerns on the ideological operations of austerity and financial discourse The multiple discursive contexts of austerity demonstrate the breadth of social concerns and conflicts that have developed in societies and institutions following the global economic crisis of 2008 Through its interdisciplinary focus on this topic this book provides an important contribution across multiple subject areas with shared interests in critical and analytical approaches to discourse power and language in social contexts reflecting the healthy collaborative scope of critical discourse studies as a field of research This book was originally published as a special issue of Critical Discourse Studies

Cities, Sagebrush, and Solitude Dennis R. Judd, Stephanie L. Witt, 2015-03-16 Cities Sagebrush and Solitude explores the transformation of the largest desert in North America the Great Basin into America's last urban frontier In recent decades Las Vegas Reno Salt Lake City and Boise have become the anchors for sprawling metropolitan regions This population explosion has been fueled by the maturing of Las Vegas as the nation's entertainment capital the rise of Reno as a magnet for multitudes of California expatriates the development of Salt Lake City's urban corridor along the Wasatch Range and the growth of Boise's celebrated high tech economy and hip urban culture The blooming of cities in a fragile desert region poses a host of environmental challenges The policies required to manage their impact however often collide with an entrenched political culture that has long resisted cooperative or governmental effort The alchemical mixture of three ingredients cities aridity and a libertarian political outlook makes the Great Basin a compelling place to study This book addresses a pressing question are large cities ultimately sustainable in such a fragile environment

Meatsplaining Jason Hannan, 2020-10-01 The animal agriculture industry like other profit driven industries aggressively seeks to shield itself from public scrutiny To that end it uses a distinct set of rhetorical strategies to deflect criticism These tactics are fundamental to modern animal agriculture but have long evaded critical analysis In this collection academic and activist contributors investigate the many forms of denialism perpetuated by the animal agriculture industry What strategies does the industry use to avoid questions about its inhumane treatment of animals and its impact on the environment and public health What narratives myths and fantasies does it promote to sustain its image in the public imagination powerful timely and essential David Nibert author of Animal Oppression and Human Violence Domesecration Capitalism and Global Conflict Meatsplaining equips us to identify the lies at the heart of animal agriculture It's an excellent and timely compilation on an exceedingly vexing problem Carol J Adams author of The Sexual

Politics of Meat and Burger Meatsplaining is the first book to give an apt name to the animal agriculture industry's relentless campaign of disinformation and denialism. Written in a clear, lively and accessible style, Meatsplaining will surely educate the public about the horrors of animal agriculture. Marc Bekoff, author of *The Animals Agenda*, *Freedom, Compassion and Coexistence in the Human Age*, *Cruelty thrives in secrecy* and the meat industry is highly skilled at concealing the routine abuse and misery that flourishes on modern farms. Meatsplaining cuts through the spin and exposes the meat industry's massive PR machine. It explores how Big Meat uses language obfuscation and denial to misdirect the public's attention away from its commodification of sentient animals, environmental devastation and the looming health crisis caused by eating animals. This book is a must read for animal advocates and anyone else who no longer wants to be lied to. Camille Labchuk, Executive Director, Animal Justice. This book provides a necessary corrective to the fantasy world created by meat industry propaganda. As we grapple with a global zoonotic pandemic and biodiversity crisis, it is urgent for us to start thinking clearly about who and what is on our plates. John Sorenson, Brock University.
