Understanding Post Soviet Transitions Corruption Collusion And Clientelism Euro Asian Studiesv:

The Euro-Asian World Y. Kalyuzhnova, D. Lynch, 2000-03-31 This text establishes the concept of Euro Asia as the means to discuss the European and Asian countries that are undergoing post Cold War transformation Elements of the transitional changes covered include conflicts and peacekeeping geopolitical issues and economic realities **Politics and Legitimacy**

in Post-Soviet Eurasia Martin Brusis, Joachim Ahrens, Martin Schulze Wessel, 2016-01-26 Political legitimacy has become a scarce resource in Russia and other post Soviet states Their capacity to deliver prosperity has suffered from economic crisis war in Ukraine and confrontation with the West Will nationalism and repression enable political regimes to survive This book studies the politics of legitimation in Post Soviet Eurasia Autocratic and Democratic External Influences in Post-Soviet Eurasia

Anastassia Obydenkova, Alexander Libman, 2016-03-09 As the Ukrainian Crisis shows both political regimes and national borders in Eurasia are still in a state of flux Bringing together literatures on the external influences of democratization the post Soviet space and support for autocracy Autocratic and Democratic External influences in Post Soviet Eurasia provides a comprehensive overview of the interaction of domestic and international politics during times of regime transition Demonstrating the interplay of these forces the book explores the rich variation in motives and channels of autocratic and democratic influences International scholars consider two channels of external influence on regime transition the role of supranational organizations established by non democracies and the role of non governmental organizations and through a set of carefully chosen case studies offer a new theoretical discussion on the phenomenon of multi level regime transition **Building Business in Post-Communist Russia, Eastern Europe, and Eurasia** Dinissa

Duvanova, 2013-02-18 Prior to 1989 the communist countries of Eastern Europe and the USSR lacked genuine employer and industry associations After the collapse of communism industry associations mushroomed throughout the region Duvanova argues that abusive regulatory regimes discourage the formation of business associations and poor regulatory enforcement tends to encourage associational membership growth Academic research often treats special interest groups as vehicles of protectionism and non productive collusion This book challenges this perspective with evidence of market friendly activities by industry associations and their benign influence on patterns of public governance Careful analysis of cross national quantitative data spanning more than 25 countries and qualitative examination of business associations in Russia Ukraine Kazakhstan and Croatia shows that postcommunist business associations function as substitutes for state and private mechanisms of economic governance These arguments and empirical findings put the long standing issues of economic regulations public goods and collective action in a new theoretical perspective **Building Trust and Democracy** Cynthia

Michalski Horne, 2017 This volume examines the conditions under which lustration and related transitional justice measures have affected political and social trust building and democratization across twelve countries in Central and Eastern Europe and parts of the Former Soviet Union between 1989 and 2012 *Meandering in Transition* Ostap Kushnir, Oleksandr
