Understanding Victims And Restorative Justice Dignan, James, 2004-11-01 Although the topics dealt with are complex the author has been very successful in presenting and exploring them clearly Students may find particularly helpful the summary at the end of each chapter of the main points covered in that section The Legal Executive the real strength of this book lies in the critical thinking that arises from the juxtaposition of two very much unfinished debates the question of how victims are treated by the justice system and the practices and implications of restorative justice I feel this book is particularly important because it reframes a whole series of debates and practices which otherwise might be in danger of getting stuck That this is also undertaken by someone who is extremely knowledgeable about the subject matter and perceptive in relation to key issues is an added bonus

media attention has been widely regarded as a controversial policy departure with many commentators Parliamentarians and professional organisations arguing that its support is premised on misunderstandings of the current law and a precarious evidence base concerning the nature and prevalence of squatting

Moral Rhetoric and the Criminalisation of Squatting explores the significance of measures to criminalise squatting for squatters owners and communities The book also interrogates wider themes that draw on political philosophy social policy criminal justice and the nature of ownership to consider how the assimilation of squatting to a contemporary punitive turn is shaping the political social legal and moral landscapes of property housing and crime
