Understanding New Media Kim H. Veltman, 2006 This book outlines the development currently underway in the technology of new media and looks further to examine the unforeseen effects of this phenomenon on our culture our philosophies and our spiritual outlook Understanding New Media Robert K. Logan, 2010 Marshall McLuhan made many predictions in his seminal 1964 publication *Understanding Media Extensions of Man* Among them were his predictions that the Internet would become a Global Village making us more interconnected than television the closing of the gap between consumers and producers the elimination of space and time as barriers to communication and the melting of national borders He is also famously remembered for coining the expression the medium is the message These predictions form the genesis of this new volume by Robert Logan a friend and colleague who worked with McLuhan In *Understanding New Media* Logan expertly updates *Understanding Media* to analyze the new media McLuhan foreshadowed and yet was never able to analyze or experience The book is designed to reach a new generation of readers as well as appealing to scholars and students who are familiar with *Understanding Media* Visit the companion website understandingnewmedia.org for the latest updates on this book Understanding Media Marshall McLuhan, 1969-06 *Re-Understanding Media* Sarah Sharma, Rianka Singh, 2022-03-23 The contributors to *Re-Understanding Media* advance a feminist version of Marshall McLuhan's key text *Understanding Media The Extensions of Man* repurposing his insight that the medium is the message for feminist ends They argue that while McLuhan's theory provides a falsely universalizing conception of the technological as a structuring form of power feminist critics can take it up to show how technologies alter and determine the social experiences of race gender class and sexuality This volume showcases essays experimental writings and interviews from media studies scholars artists activists and those who work with and create technology Among other topics the contributors extend McLuhan's discussion of transportation technology to the attics and cargo boxes that moved Black women through the Underground Railroad apply McLuhan's concept of media as extensions of humans to analyze Tupperware as media of containment and take up 3D printing as a feminist and decolonial practice The volume demonstrates how power dynamics are built into technological media and how media can be harnessed for radical purposes Contributors Nasma Ahmed Morehshin Allahyari Sarah Banet Weiser Wendy Hui Kyong Chun Brooke Erin Duffy Ganaele Langlois Sara Martel Shannon Mattern Cait McKinney Jeremy Packer Craig Robertson Sarah Sharma Ladan Siad Rianka Singh Nicholas Taylor Armond R Towns and Jennifer Wemigwans
