Uninformed Consent The Hidden Dangers In Dental Care:

Uninformed Consent Hal Huggins, Thomas E. Levy, 1999-01-01 Dr Huggins and Dr Levy assert that a large number of disorders are though often incurable easily preventable He proposes that multiple sclerosis lupus leukemia chronic fatigue syndrome Parkinson s disease many mental disorders including Alzheimer s and even major diseases like breast cancer are caused in part by the toxins we place in our bodies Where do these toxins come from and how do they get into our bodies You may be surprised to find that you have actually paid to have them put there These dangerous materials mercury cadmium beryllium nickel and others are used in everyday dentistry to make up the fillings root canals and bridgework in our mouths and are supposed to be safe But are they Uninformed Consent presents cases of toxic poisoning of depressed immune systems and inexplicable illnesses to toxins entering the bloodstream from the heavy metals in dental materials The authors also discuss the hidden truths that the dental industry in America doesn t want to talk about and the real reasons the dangers of these materials have been suppressed and ignored Dr s Huggins and Levy implore the reader Don t leave your health in your dentist s hands and assume that all will be fine Become informed and take an active role in your health Know what will be implanted in your mouth You must decide at the outset what is more important to you the life of a filling or your life Uninformed Consent will give you the facts so that you may take responsibility for your dental and complete health and wellness
