I'm Not Crazy I'm Not Crazy, 2010-08 Teens It isn't fair that you have depression or bipolar disorder You can continue along the same path but chances are if someone gave you this workbook that path isn't the best Working through these pages will help you understand what the heck everyone is talking about You might even see some of your behaviors and thoughts It has practical suggestions to help you cope What does it hurt to try Ultimately it is your choice to work through the issues But it's kinda nice to see that you aren't the only one to have these crazy thoughts *Students with Both Gifts and Learning Disabilities* Tina A. Newman, Robert J. Sternberg, 2012-12-06 We were motivated to edit this book when we began to hear stories of exceptional students who were struggling with reading writing or math but who could solve seemingly any problem with computers or build the most intricate structures with Legos or could draw beautiful pictures or could tell the most creative stories but ended up in tears when asked to write it out How is it possible to have so much talent in some areas and yet to appear to have a disability in another What resources are available for these students How can we ensure that these students abilities are nurtured and developed Our goal in this book is to provide ideas and possibly even tentative answers for educators and to stimulate more questions to be answered by researchers We have ourselves been addressing related questions for some time Our group at the PACE Center at Yale has explored the development of abilities competencies and expertise that allow people to be successful in life Through this work we have collaborated with school districts and other educators and researchers across the country to expand the notion of what is traditionally thought of as intelligence We use the concept of successful intelligence to allow for the possibility that the skills traditionally taught in school are not the only ones and often not even the most important ones that allow people to be successful in the world
