Prentice Hall World History ,2001 *Prentice Hall World History* Prentice-Hall, Inc,2001* **Prentice Hall World History** ,2003 **Classroom Conversations** Alexandra Miletta,Maureen McCann Miletta,2008 In an outstanding collection of classic readings on teaching and learning two generations of educators a mother and daughter point to the great thinkers who have shaped their beliefs and practices in education and who continue to influence teachers today **World Yearbook of Education 2011** Lyn Yates,Madeleine Grumet,2011-02-01 How do curriculum conceptions of knowledge and the schooling experiences of young people engage the great issues of this tumultuous time Curriculum is always influenced by the events that shape our world but when testing and bench marking preoccupy us we can forget the world that is both the foundation and the object of curriculum This edited volume brings together international contributors to analyze and reflect on the way the events of the last decade have influenced the curriculum in their countries As they address nationalism in the face of economic globalisation the international financial crisis immigration and the culture of diaspora they ask how national loyalties are balanced with international relationships and interests They ask how the rights of women and of ethnic and racial groups are represented They ask what has changed about history and civics post 9 11 and they ask how countries that have experienced profound political and economic changes have addressed them in curriculum These interactions and changes are a subject of particular interest for an international yearbook in that they are almost always permeated by global movements and influenced by multinational bodies and practices And as these essays show in curriculum global and international issues are explicitly or implicitly also about local and national interests and about how citizens engage their rights and responsibilities This volume brings together a new approach to perspectives on curriculum today and a new collection of insights into the changes from different parts of the world which discuss How is the world represented in curriculum How do responses to world events shape the stories we tell students about who they are and can be This book will be of great benefit to educational researchers and policy makers as well as undergraduate and postgraduate students

The American Village in a Global Setting Michael E. Connaughton, Suellen Rundquist, 2009-03-26 In October 2005 a conference honoring the contributions of Sinclair Lewis to Midwest and American culture and celebrating the friendship between Sinclair Lewis and Ida K Compton was held at St Cloud State University in St Cloud Minnesota Sinclair Lewis would no doubt have been flattered and perhaps a bit surprised by the breadth of this conference in his honor The fact that scholars writers students and readers gathered to discuss his work and its broader influence would have pleased him He would have learned that readers still found stimulus for serious thought in his writing and that his works can serve as a springboard to discussion of today s societal issues some of which might surprise him considerably The papers selected from the conference entitled *The American Village in a Global Setting* consider elements of Lewis world through today s lens In Part I his version of community is compared to that documented in other ways including architecture and television Scholars address issues such as anti-Semitism theocratic communities the Irish and outdoor life In Part II the concept of community is expanded to the visions of other authors including his contemporaries such as Martha Ostenso Josephine Donovan and Willa Cather as well as more recent writers In Part III today s social and cultural issues in

America are addressed expressing the global and interdisciplinary intent of the conference And last Part IV continues the global theme addressing international communities and pedagogical philosophies through film and literature World History Elisabeth Gaynor Ellis,Anthony Esler,1997 TofC Cont Nationalism triumphs in Europe Growth of Western democracies 1815 1914 The new imperialism 1800 1914 New global patterns 1800 1914 World Wars and revolutions World War I and its aftermath 1914 1919 Revolution in Russia 1917 1939 Nationalism and revolution around the world 1914 1939 Crisis of democracy in the West 1919 1939 World War II and its aftermath 1931 1949 World today World since 1945 an overview 1945 present Europe and North America 1945 present East Asia and Southeast Asia 1945 present South Asia and the Middle East 1945 present Africa 1945 present Latin America 1945 present References section Glossary **The 'Other' Students** Dina C. Maramba,Rick Bonus,2012-12-01 Though the Filipino American population has increased numerically in many areas of the United States especially since the influx of professional immigrants in the wake of the 1965 Immigration Act their impact on schools and related educational institutions has rarely been documented and examined The Other Students Filipino Americans Education and Power is the first book of its kind to focus specifically on Filipino Americans in education Through a collection of historical and contemporary perspectives we fill a profound gap in the scholarship as we analyze the emerging presence of Filipino Americans both as subjects and objects of study in education research and practice We highlight the argument that one cannot adequately and appropriately understand the complex histories cultures and contemporary conditions faced by Filipino Americans in education unless one grapples with the specificities of their colonial pasts and presents their unique migration and immigration patterns their differing racialization and processes of identity formations the connections between diaspora and community belonging and the various perspectives offered by ethnic group centered analysis to multicultural projects The historical methodological and theoretical approaches in this anthology will be of interest to scholars researchers and students in disciplines which include Education Ethnic Studies Asian American and Pacific Islander Studies Anthropology Sociology Political Science Urban Studies Public Policy and Public Health **The Patchwork of World History in Texas High Schools** Stephen Jackson,2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their

quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States
