Aka, Hassan Wahab, Yvette M. Alex-Assensoh, 2022-04-27 The global rise in pandemics most recently COVID 19 and other health challenges some of which are due to climate change have imposed significant challenges on the healthcare systems in economies around the world Thus this book deals with an issue that is very timely and relevant not just in Africa but globally It critically assesses healthcare reforms in Ghana under the Fourth Republic since 1993 Although it focuses on Ghana's National Health Insurance Scheme of 2003 the book instructively goes beyond this program The book argues that although Ghana is a bellwether of healthcare reforms in Africa its healthcare initiatives are still far from the service haven of

healthcare as a human right Themes that animate the book's argument include the need to translate human rights law such as the right to health into practical policies that work for ordinary citizens Key highlights of the book include an increased accent on health as a human right emphasis on comparative analysis in healthcare studies and the formulation of a four hallmark framework embedded in economics law politics and human rights to act as a guide for assessment of healthcare reforms in Africa in particular and Ghana more specifically Using Ghana as a case study and analytical window into the world the book offers a valuable and timely resource for academics students and policymakers across the disciplines of development and healthcare economics law public policy political science sociology and African and Caribbean studies as well as in various fields in health science

Human Rights in Nigeria's External Relations Philip Aka, 2016-12-20 This book is a broad ranging argument for thorough reforms at home and abroad in Nigeria as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Because of its enormous material and human endowments Nigeria is dubbed the Giant of Africa It is a moniker many of its leaders take seriously Yet Nigeria is a state rife with instability some of it periodically erupting into violence Given still ongoing national security challenges in the land that notoriously includes a bloody religion oriented terrorism the Fourth Republic since 1999 the longest period of continuous democratic rule since independence key to the timeline of this book has not been insulated from the spell of instability The main argument of this work is that internationally agreed upon ethical standards embedded in human rights can save Nigeria This book is a methodologically and theoretically grounded seminal discourse on Nigerian foreign relations that spells out the human rights or lack thereof in those relations including underlying and impinging domestic forces This work is set around six issues of application embedded in a temple of Nigeria's human rights foreign policy comprising two steps and four pillars reconstructed national interest increased human rights at home redesigned peacekeeping reshaped foreign policy machinery increased bilateralism in foreign relations and the use of ECOWAS as human rights tool Although focused on the period since independence for proper understanding of events from the past that shape the current patterns of politics in the land this book also embodies a historical background chapter that overviews the pre colonial and colonial eras

Human Rights in Nigeria's External Relations in the Age of General Muhammadu Buhari and His Successors Philip C. Aka, 2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right policy referred to alternately in the work as principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by General Muhammadu Buhari's departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts

in the first quarter of the twenty first century Buhari's departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark of remote control dating back to the first military intervention in the country in January 1966 These momentous events within Nigeria coincide with equally epoch making developments in the UK Nigeria's former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria's external relations with ramifications for the application of human rights in those relations Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country's resources more wisely

America's Strategy in Southeast Asia James A. Tyner, 2006-12-21 Geography encompasses everything from the local where human beings live work and travel to metageographies like nations and regions James A Tyner's inventive and multidisciplinary ideas on geography similarly range from the personal his father's experience in the military during the Vietnam War to a broad discussion of how the United States has come to exercise power through the production of geographic knowledge in this case in Southeast Asia Since the end of the Second World War Southeast Asia has served as a surrogate space to further American imperial interests which are economic political territorial and moral in scope America's Strategy in Southeast Asia contends that the construction of Southeast Asia as a geographic entity has been a crucial component in the creation of the American empire For example America's most blatant experience of colonial rule occurred the Philippines America's longest war was fought in Vietnam and most recently some American policymakers have identified Southeast Asia as the Second Front in the War on Terror Yet America's overriding strategy in Southeast Asia and the region itself remains something of a mystery for the American populace a black box in America's geographical imagination This clear and innovative book educates readers about Southeast Asia's importance in American foreign policy

Global Studies Research Pamela A. Zeiser, 2019-06-27 Global Studies Research is a research methods textbook designed for interdisciplinary International Studies majors and their faculty The textbook introduces interdisciplinarity provides basic building blocks of relevant disciplinary knowledge explains a process for integrating knowledge from multiple disciplines and models this interdisciplinary International Studies Research Process in its presentation of the case studies

A Comparative Introduction to Political Science Robert J. Jackson, Doreen Jackson, 1997 Globally oriented this thoughtfully executed book presents the concepts frameworks and interpretative tools for understanding the diverse range of political systems at work in our world today from democratic to authoritarian Prompting readers to ask What constitutes good government and how it can be achieved it introduces the dynamic worlds of political science politics and government examines theories and methods of comparison and international relations and focuses on both domestic and global factors in promoting change Introducing the ideas which form the basis of political science it compares culture ideology constitutions

government institutions public administration elections and parties and interest groups among the world's 192 states Exploring both international and domestic factors in politics it discusses recent controversies such as the strategic environment disarmament North South Politics human rights environmental economic and health questions Chapters are organized to help readers learn to appreciate the rigorous relationship between concepts and empirical analysis pairing a more general chapter is followed by an empirically oriented chapter concerning all democratic and authoritarian countries For those beginning work in the fields of civics politics government and international affairs
