Confronting Technology Matthew T. Prior, 2020-03-16 We are living through a digital revolution which already touches every area of life and will continue to shape the future in as yet unforeseen ways Digital technologies are an ordinary part of daily life and yet they also present an unprecedented challenge to Christians to articulate a biblical theological framework to navigate times of rapid change The work of the French theologian Jacques Ellul is a theological time bomb primed for times like these Accounts of Ellul's career often divide off his sociology and theology but this book argues that Ellul conceived a single project of bringing technology into confrontation with the Word of God tackling the phenomenon he named technique the pursuit of maximal power and efficiency implicit in the technological enterprise with a profound depth of biblical and ethical insight Centering himself on the apocalypse or revelation of Jesus Christ in history Ellul offers a monumental timely though far from flawless contribution to contemporary ethical debates about the uses and abuses of technologies His work blazes a trail that Christians and all concerned for the future would do well to follow as we avoid both the naivety of technological neutrality and the dread of technological determinism

Jacques Ellul and the Bible Jacob Marques Rollison, 2020-10-13 This striking collection of scholarly essays highlights the hermeneutic contribution of the French theologian and sociologist Jacques Ellul revealing him to be one of the twentieth century's most creative and insightful readers of the Bible With a breadth of contributors ranging from established biblical scholars and theologians to pastoral practitioners from top Ellul scholars to emerging voices and including six first time English translations of Ellul's

own articles this volume not only provides a detailed overview of Ellul's biblical approach but also constitutes a crucial moment in Ellul's theological reception. This book counts as a clear demonstration that the full potential of Ellul's theological interpretation of Scripture to rejuvenate and reconfigure contemporary biblical hermeneutics has yet to be seen. With contributions from Jacques Ellul, Brian Brock, Patrick Troude, Chastenet Amy, Erickson, Chris Friesen, David Gill, Andrew Goddard, John Goldingay, Jean Sebastien Ingrand, Declan Kelly, Ted Lewis, Michael Morelli, Anthony J. Petrotta, Elisabetta Ribet, Frederic Rognon, Christian Roy, **Kierkegaard and the Question Concerning Technology** Christopher B.

Barnett, 2019-08-22 Over the last several decades technology has emerged as an important area of interest for both philosophers and theologians. Yet despite his status as one of modernity's seminal thinkers, Søren Kierkegaard is not often seen as one who contributed to the field. *Kierkegaard and the Question Concerning Technology* argues otherwise. Christopher B. Barnett shows that many of Kierkegaard's criticisms of the present age relate to the increasing dominance of technology in the West and he puts Kierkegaard's thought in conversation with subsequent thinkers who grappled with technological issues from Martin Heidegger to Thomas Merton. Barnett shows that Kierkegaard's writing with its marked emphases on personal upbuilding stands as a place where deeper, non-technical modes of thinking are both commended and nurtured. In doing so, Barnett presents a Kierkegaard who remains relevant, perhaps all too relevant, in today's digital age. *Money & Power*

Jacques Ellul, 1986 *The Palgrave Handbook of Radical Theology* Christopher D. Rodkey, Jordan E. Miller, 2018-10-10 The Palgrave Handbook of Radical Theology is the definitive guide to radical theology and the commencement for new directions in that field. For the first time, radical theology is addressed and assessed in a single comprehensive volume including introductory and historical essays for the beginner, essays on major figures and their thought, and shorter articles on various themes, concepts, and related topics. This book is a seminal work for the radical theology movement. It clarifies origins and demonstrates the exigency and utility of current figures and issues. A useful and essential guide for newcomers and veterans in the field, this volume serves as both a reference work and an introduction to omitted or forgotten topics within contemporary discussions. **Revelation and Reason in Christian Theology** Christopher C. Green, David I.

Starling, 2018-07-11 Do revelation and reason contradict? Throughout the church's history, Christians have been tempted to make revelation and reason mutually exclusive. But both are essential to a true understanding of the faith. The inaugural Theology Connect conference held in Sydney in July 2016 was dedicated to surveying the intersection of revelation and reason. In *Revelation and Reason in Christian Theology*, Christopher C. Green and David I. Starling draw together the fruit of this conference to provoke sustained deep reflection on this relationship. The essays, filtered through epistemological, biblical, historical, and dogmatic lenses, critically and constructively contribute to this important and developing aspect of theology. Each essayist approaches revelation and reason according to the psalmist's words: "In your light we see light" (Ps 36:9). The light of faith does not obscure truth; rather, it enables us to see truth. **Political Theory of the Digital Age** Mathias

Risse,2023-02-09 With the rise of far reaching technological innovation from artificial intelligence to Big Data human life is increasingly unfolding in digital lifeworlds While such developments have made unprecedented changes to the ways we live our political practices have failed to evolve at pace with these profound changes In this path breaking work Mathias Risse establishes a foundation for the philosophy of technology allowing us to investigate how the digital century might alter our most basic political practices and ideas Risse engages major concepts in political philosophy and extends them to account for problems that arise in digital lifeworlds including AI and democracy synthetic media and surveillance capitalism and how AI might alter our thinking about the meaning of life Proactive and profound Political Theory of the Digital Age offers a systemic way of evaluating the effect of AI allowing us to anticipate and understand how technological developments impact our political lives before it s too late

Jacques Ellul and the Technological Society in the 21st Century Helena M. Jerónimo,José Luís Garcia,Carl Mitcham,2013-07-08 This volume rethinks the work of Jacques Ellul 1912 1994 on the centenary of his birth by presenting an overview of the current debates based on Ellul s insights As one of the most significant twentieth century thinkers about technology Ellul was among the first thinkers to realize the importance of topics such as globalization terrorism communication technologies and ecology and study them from a technological perspective The book is divided into three sections The first discusses Ellul s diagnosis of modern society and addresses the reception of his work on the technological society the notion of efficiency the process of symbolization de symbolization and ecology The second analyzes communicational and cultural problems as well as threats and trends in early twenty first century societies Many of the issues Ellul saw as crucial such as energy propaganda applied life sciences and communication continue to be so In fact they have grown exponentially on a global scale producing new forms of risk Essays in the final section examine the duality of reason and revelation They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge which is to say on the one hand the experience of the human being as contained in the rationalist sociological and philosophical traditions On the other hand there are the transcendent roots of human existence as well as revealed knowledge in the mystical and religious traditions The meeting of these two traditions enables us to look at Ellul s work as a whole but above all it opens up a space for examining religious life in the technological society

The Humiliation of the Word Jacques Ellul,2021-10-14 Western people no longer hear everything is grasped by sight They no longer speak they show Jacques Ellul Well known for his many books on sociology and theology Jacques Ellul creatively braids these two

strands together in this provocative examination of how reality which is visual has superseded truth which is verbal in modern times Ellul explores biblical texts for distinguishing visual cultural forms from the communicative divine and human Word then examines how this distinction plays out with the rise of audiovisual media in the 20th century West Even in human speech visual forms dominate contemporary life and devalue the word this insight informs discussion of the image word clash in religion politics and art After a scathing critique of present day idolatry Ellul places his hope for nonviolent community in the fragile spoken word Ultimately Ellul sees the Bible as presenting a hopeful vision of reconciliation between visual reality and spoken truth A new afterword by Jacob Marques Rollison contextualizes Ellul s stance within French postmodern thought illuminating Humiliation of the Word as an outspokenly Protestant communication ethic in contemporary philosophical and theological discussions of language

Jacques Ellul Joyce Main Hanks,2000 Since his death in 1994 the understanding of Jacques Ellul s significance appears to have deepened considerably His contribution to the study of the sociology and theology of technology is universally acknowledged This volume aims to present the totality of his work

Wisdom from Babylon Gordon T. Smith,2020-10-13 What does it mean to provide leadership for the church in an increasingly secular context Analyzing the phenomenon of secularization in the West and charting common Christian responses this indispensable resource from Gordon Smith discusses the competencies and capacities essential for cultivating distinctively Christian leadership today

Eschatology and the Technological Future Michael S. Burdett,2014-12-05 The rapid advancement of technology has led to an explosion of speculative theories about what the future of humankind may look like These technological futurisms have arisen from significant advances in the fields of nanotechnology biotechnology and information technology and are drawing growing scrutiny from the philosophical and theological communities This text seeks to contextualize the growing literature on the cultural philosophical and religious implications of technological growth by considering technological futurisms such as transhumanism in the context of the long historical tradition of technological dreaming Michael Burdett traces the latent religious sources of our contemporary technological imagination by looking at visionary approaches to technology and the future in seminal technological utopias and science fiction and draws on past theological responses to the technological

future with Pierre Teilhard de Chardin and Jacques Ellul Burdett's argument arrives at a contemporary Christian response to transhumanism based around the themes of possibility and promise by turning to the works of Richard Kearney Eberhard Jüngel and Jürgen Moltmann Throughout the author highlights points of correspondence and divergence between technological futurisms and the Judeo Christian understanding of the future
