Understanding Knowledge As A Commons From Theory To Practice:

Understanding Knowledge as a Commons Charlotte Hess, Elinor Ostrom, 2007 Looking at knowledge as a shared resource experts discuss how to define protect and build the knowledge commons in the digital age Participatory Practice in Space, Place, and Service Design Kelly L. Anderson, Graham Cairns, 2022-10-18 Participatory Practice in Space Place and Service Design is premised on a belief in the importance of participatory practices in finding creative solutions to the plethora of problems we face today It argues that engaging professions with the public in mutual exploration analysis and creative thinking is essential It not only ensures better quality products places services and a greater sense of civic agency but also facilitates fuller access to them and the life opportunities they can unleash This book offers a uniquely varied perspective of the myriad ways in which participatory practices operate across disciplines and how they impact the worlds and communities we create and inhabit This book suggests that participatory practices are multi disciplinary and relevant in fields as diverse as design architecture education health care sustainability and community activism to name a few of those discussed here How do designed objects and environments affect wellness creativity learning and a sense of belonging How do products and services affect everyday experience and attitudes towards issues such as sustainability How does giving people a creative voice in their own education services and built environments open up their potential and strengthen identity and civic agency Addressing these questions requires a rethinking of relations between people objects and environments it demands attention to space place and services

The Utopian Human Right to Science and Culture Anna Maria Andersen Nawrot, 2016-03-03 This book explores the question of whether the ideal right to science and culture exists It proposes that the human right to science and culture is of a utopian character and argues for the necessity of the existence of such a right by developing a philosophical project situated in postmodernity based on the assumption of thinking in terms of excedence The book brings a novel and critical approach to human rights in general and to the human right to science and culture in particular It offers a new way of thinking about access to knowledge in the postanalogue postmodern society Inspired by twentieth century critical theorists such as Levinas Gadamer Bauman and Habermas the book begins by using excedence as a way of thinking about the individual speech and text It considers paradigms arising from postanalogue society revealing the neglected normative content of the human right to science and culture and proposes a morality dignity and solidarity situated in a postmodern context Finally the book concludes by responding to questions on happiness dignity and that which is social Including an Annex which presents the author's private project related to thinking in the context of the journey from myth to reason this book is of interest to researchers in the fields of philosophy and the theory of law human rights intellectual property and social theory

Research Handbook on the Economics of Intellectual Property Law Ben Depoorter, Peter Menell, David Schwartz, 2019 Both law and economics and intellectual property law have expanded dramatically in tandem over recent decades This field defining two volume Handbook featuring the leading legal empirical

and law and economics scholars studying intellectual property rights provides wide ranging and in depth analysis both of the economic theory underpinning intellectual property law and the use of analytical methods to study it

Governing Privacy in Knowledge Commons Madelyn Rose Sanfilippo, Brett M. Frischmann, Katherine J. Strandburg, 2021-03-25 Governing Privacy in Knowledge Commons explores how privacy impacts knowledge production community formation and collaborative governance in diverse contexts ranging from academia and IoT to social media and mental health Using nine new case studies and a meta analysis of previous knowledge commons literature the book integrates the Governing Knowledge Commons framework with Helen Nissenbaum s Contextual Integrity framework The multidisciplinary case studies show that personal information is often a key component of the resources created by knowledge commons Moreover even when it is not the focus of the commons personal information governance may require community participation and boundaries Taken together the chapters illustrate the importance of exit and voice in constructing and sustaining knowledge commons through appropriate personal information flows They also shed light on the shortcomings of current notice and consent style regulation of social media platforms This title is also available as Open Access on Cambridge Core

Governing Knowledge Commons Brett M. Frischmann, Michael J. Madison, Katherine J. Strandburg, 2014-08-05 Knowledge commons describes the institutionalized community governance of the sharing and in some cases creation of information science knowledge data and other types of intellectual and cultural resources It is the subject of enormous recent interest and enthusiasm with respect to policymaking about innovation creative production and intellectual property Taking that enthusiasm as its starting point Governing Knowledge Commons argues that policymaking should be based on evidence and a deeper understanding of what makes commons institutions work It offers a systematic way to study knowledge commons borrowing and building on Elinor Ostrom s Nobel Prize winning research on natural resource commons It proposes a framework for studying knowledge commons that is adapted to the unique attributes of knowledge and information describing the framework in detail and explaining how to put it into context both with respect to commons research and with respect to innovation and information policy Eleven detailed case studies apply and discuss the framework exploring knowledge commons across a wide variety of scientific and cultural domains

Governing Medical Knowledge Commons Katherine J. Strandburg, Brett M. Frischmann, Michael J. Madison, 2017-10-12 Governing Medical Knowledge Commons makes three claims first evidence matters to innovation policymaking second evidence shows that self governing knowledge commons support effective innovation without prioritizing traditional intellectual property rights and third knowledge commons can succeed in the critical fields of medicine and health The editors knowledge commons framework adapts Elinor Ostrom s groundbreaking research on natural resource commons to the distinctive attributes of knowledge and information providing a systematic means for accumulating evidence about how knowledge commons succeed The editors previous volume Governing Knowledge Commons demonstrated the framework s power through case studies in a diverse range of areas Governing

Medical Knowledge Commons provides fifteen new case studies of knowledge commons in which researchers medical professionals and patients generate improve and share innovations offering readers a practical introduction to the knowledge commons framework and a synthesis of conclusions and lessons The book is also available as Open Access

When Entrepreneurs Meet: The Collective Governance Of New Ideas Darcy W E Allen,2020-10-21 When Entrepreneurs Meet The Collective Governance of New Ideas challenges our understanding of how entrepreneurs crystallize opportunities surrounding new technologies While innovation is the fundamental driver of growth and prosperity how the earliest stages of entrepreneurship are governed remains elusive This book creates a new institutional approach to understanding entrepreneurship before emphasizing how entrepreneurs create governance structures to coordinate new knowledge resources Rather than the conventional view that entrepreneurship happens inside firms this unique transaction cost economics analysis of entrepreneurship suggests it might begin earlier in hybrid polycentric self governance structures including the innovation commons Allen explores and analyses various examples of these structures including hackerspaces and the institutions coalescing around the development of the blockchain economy along with the dynamics of how those institutions might collapse into firms This new understanding of the entrepreneurial governance problem is also connected to

contemporary questions about the purpose scope and application of innovation policy

Cultural Commons Enrico Eraldo Bertacchini, 2012-01-01 The concept of the commons as a shared resource capable of yielding collective benefits to people is a well established one in the social sciences but its extension to jointly owned cultural resources is relatively new This pioneering book explores the idea of a cultural commons as it can be applied in a wide range of areas including landscapes art and design gastronomy heritage the performing arts and the online world Although the book s chapters are written mainly from the perspective of cultural economics the scope of the volume is truly interdisciplinary the book is more than just a comprehensive introduction to the topic It is also a source of original ideas that will act as a stimulus to further research in the field David Throsby Macquarie University Australia This compelling book offers a fresh and novel approach to study cultural and artistic expression from the perspective of the commons It demonstrates how identifying cultures as shared resources is useful in eliciting the main factors and social dilemmas affecting the production and evolution of cultural expression Adopting the unifying perspective of the cultural commons the chapters provide in depth analysis of a wide range of cultural resources including traditional cultural expression heritage gastronomy and cultural content in virtual worlds Taking an interdisciplinary perspective and gathering contributions from economic sociological and legal fields this timely book proposes a new and complementary research agenda Scholars and postgraduate students of cultural economics cultural studies and sociology of culture will find this authoritative and essential book invaluable

Annual Review of Information Science and Technology Blaise Cronin, 2007 ARIST published annually since 1966 is a landmark publication within the information science community It surveys the landscape of information science and technology providing an analytical authoritative and accessible overview of

recent trends and significant developments The range of topics varies considerably reflecting the dynamism of the discipline and the diversity of theoretical and applied perspectives While ARIST continues to cover key topics associated with classical information science e g bibliometrics information retrieval editor Blaise Cronin is selectively expanding its footprint in an effort to connect information science more tightly with cognate academic and professional communities Nonprofit Organizations and the Intellectual Commons Jyh-An Lee,2012-01-01 There is no issue more fundamental to the growth of the open source society than a more mature and penetrating understanding of the nature of the nonprofit organization in a digital culture Professor Lee s book is essential reading to this fundamental topic beautifully written and brilliantly conceived Lawrence Lessig Harvard Law School US Jyh An Lee provides the first comprehensive account of nonprofit organizations and their overlooked role in setting and working around intellectual property policy The reader will find a wealth of information and a novel theory of NPOs as part of the IP ecosystem Mark A Lemley Stanford Law School US Over the past twenty years a number of nonprofit organizations NPOs such as Creative Commons the Electronic Frontier Foundation and the Free Software Foundation have laid essential building blocks for intellectual commons as a social movement Through a detailed description of these NPOs and a series of in depth interviews with their officials this book demonstrates that NPOs have provided the social structures that are necessary to support the production of intellectual commons By illustrating NPOs role in shaping the commons realm this book provides a new lens through which to understand the intellectual commons environment Protecting intellectual commons has been one of the most important goals of recent innovation and information policies This book focuses on the NPOs that occupy an increasingly critical and visible position in the intellectual commons environment in recent years This detailed study will appeal to academics in intellectual property and internet law nonprofit organizations academics and professionals and those involved in the Free Culture and Open Source Software Movement

Proleptic Leadership on the Commons Randal Joy Thompson,2020-10-22 Will capitalism give way to a commons centric society as many scholars and activists predict Viewing the commons as a vehicle for a new world order Randal Joy Thompson proposes proleptic leadership which envisions how leaders will continue to be essential as the custodians of responsible agency and conscious choice **Publishing Beyond the Market** Samuel A. Moore,2025-09-02 Publishing Beyond the Market argues that the move to open access should focus less on the free accessibility of research outputs and more on who controls the publications and infrastructures for scholarly communication By deploying theoretical literature on science and technology studies care ethics and the commons the book critically interrogates open access and reimagines a more ethical future for researcher led publishing A case study of Plan S the multifunder European policy for open access publishing explores its tendency to rehearse all the failures of commercialisation Through critical engagement with the open access landscape the book reveals the shortcomings of market centric and policy based approaches to open access book and journal publishing particularly their tendency to reinforce conservatism commercialism and private control of publishing Going

forward Publishing Beyond the Market explores the importance of collectivity and democratic governance within the transition to open access publishing It suggests that developing a commons based scholar led publishing landscape through a series of presses that are each managed by working academics could offer a productive counterpoint to marketised systems of open access and subscription publishing In weaving themselves together in order to scale small these publishing initiatives would act as a counter hegemonic project based on mutual reliance and care By illustrating how these projects build toward a commons based publishing future and how they may complement other approaches to publishing within university presses and libraries the book culminates in an argument for the infrastructures policies and forms of governance needed to nurture such a collective vision

Routledge Handbook of Food as a Commons Jose Luis Vivero-Pol,Tomaso Ferrando,Olivier De Schutter,Ugo Mattei,2018-12-17 This Handbook provides the first comprehensive review and synthesis of knowledge and new thinking on how food and food systems can be thought interpreted and practiced around the old new paradigms of commons and commoning The overall aim is to investigate the multiple constraints that occur within and sustain the dominant food and nutrition regime and to explore how it can change when different elements of the current food systems are explored and re imagined from a commons perspective The book sparks the debate on food as a commons between and within disciplines with particular attention to spaces of resistance food sovereignty de growth open knowledge transition town occupations bottom up social innovations and organizational scales local food national policies South South collaborations international governance and multi national agreements Overall it shows the consequences of a shift to the alternative paradigm of food as a commons in terms of food the planet and living beings Chapters 1 and 24 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Co-design and Social Innovation Garth Britton,2017-04-21 Although co design has been practised in new service and product development for some years it has only recently begun to appear in the burgeoning field of social innovation It appears to be well attuned to this new context offering as it does an open ended relational process to generate novel solutions to problems whose very definition seems to escape more conventional approaches However even less research attention has been paid to co design than to social innovation This book explores the potential of co design as a social innovation process It reviews the diverse theoretical and disciplinary foundations on which co design is based It proposes a framework for understanding co design as a cohesive practice across the extremely broad scope of its potential applications It explores appropriate approaches to governance and evaluation of co design initiatives and outlines the key issues and limitations on its use Although it is intended to provide a robust theoretical basis for researching co design initiatives it will also be of interest to anyone who is contemplating putting co design into

practice **Towards Sustainable Coastal Development** Tony George Puthucherril, 2014-10-02 Coastal areas around the world are severely stressed due to a myriad of human activities and marine pollution. They are now detrimentally being affected by climate change and sea level rise as well. One major theater most acutely impacted by these phenomena is coastal South Asia, an overcrowded region with low adaptive capacities. Drawing on the experiences of coastal countries and regions beyond South Asia, *Towards Sustainable Coastal Development: Institutionalizing Integrated Coastal Zone Management and Coastal Climate Change Adaptation in South Asia* recommends operationalizing integrated coastal zone management and linking the same with coastal climate change adaptation under appropriately crafted coastal laws to facilitate a move towards sustainable coastal development.
